Promoting Silicon Valleys in Latin America Luciano Ciravegna, 2012-08-06 The spectacular economic performance of China East Asia and India during the last ten years has ignited some profound changes in the world economy The share of global demand investments trade and production of the traditional industrialized powers the US Europe and Japan has gradually yet continuously declined This rise of China also has implications for Latin America On the one hand booming Chinese demand for raw materials and food has sustained the economic performance of Latin America during the last decade On the other hand the competitiveness of China and as a hub for advanced manufacturing is threatening Latin America's attempt to diversify its economy from its dependence on the export of natural resource based goods Most Latin American countries are not however waiting passively for their economies to become ever more reliant on high prices for food minerals and oil Leveraging the economic and political stability that they achieved during the last decades many countries in the region such as Brazil Chile Colombia Costa Rica and Uruguay are attempting to capture the growing market for knowledge intensive products and services by breeding their own Silicon Valleys This book discusses the promotion of ICT clusters in Latin America by analyzing the development of the Costa Rican cluster in particular an often celebrated case of successful policy in the region Costa Rica a small country traditionally known for its coffee and wildlife managed to build an information technology cluster within ten years becoming the leading producer of ICT per capita in Latin America Studying the Costa Rican case provides a solid starting point for understanding the challenges of building ICT clusters in Latin America

Managing Networks of Creativity Fiorenza Belussi, UDO HERMANN STABER, 2012-02-27 The aim of the *Managing Networks of Creativity* is to improve our understanding of creativity and the management of creativity as discussed in the fields of management including strategic management organization science organizational behaviour and

entrepreneurship economics sociology regional studies and political science While research on creativity has made several important contributions to the theoretical literature little attention has been paid to the development and testing of formal theoretical models especially in those cases where creativity is the result not so much of individual behaviour than the outcome of collective efforts connecting individuals in organizations social networks projects geographic clusters and so forth The proposed volume includes studies both conceptual and empirical which as a whole deconstruct the concept of creativity and the management of creativity by identifying specific situations contexts firms clusters and districts in which creative processes evolve The reader is provided with in depth discussions of theoretical issues and a range of descriptive cases and survey data that the authors use to explore or test concepts and models Overall the volume aims to integrate current debates concerning the role of creativity and innovation in economic and social development

Theology and California Fred Sanders, Jason S. Sexton, 2016-02-17 Exploring California as a theological place this book renders critical engagement with significant Californian religious and theological phenomena and the inherent theological impulses within major Californian cultural icons Harnessing conceptual tools inherent to theology through theological reflection assessment and critique the chapters in this volume begin to ascertain the significance of various empirical data and that no other qualitative methodological Californian study has done Many universities are picking up on California literature as a theme that highlights a place of hope wonder and cultural innovation but have neglected the significance of theological instincts flowing through the Californian dynamic Californians Fred Sanders and Jason Sexton assemble leading voices and specialists both from within and without California for engagement with California's influential culture including leading theologians and cultural critics such as Richard J Mouw Paul Louis Metzger and Fred Sanders alongside leading specialists in Film studies and cultural critique theological anthropology missiology sociology and history

Global and Regional Dynamics in Knowledge Flows and Innovation Chris Van Egeraat, Dieter Kogler, Phil Cooke, 2015-10-14 Innovation which in essence is the generation of knowledge and its subsequent application in the marketplace in the form of novel products and processes has become the key concept in inquiries concerning the contemporary knowledge based economy Geography plays a decisive role in the underlying processes that enable and support knowledge formation and diffusion activities Place specific characteristics are considered especially important in this context however more recently investigation into innovative capacity of places has also turned its attention to external knowledge inputs through innovation networks and increasingly recognize the evolutionary character of the processes that lead to knowledge creation and subsequent application in the marketplace The chapters that comprise this book are embedded at the intersection of the dynamic

processes of knowledge production and creative destruction The first three contributions all discuss the role of global innovation networks in the context of territorial and or sectoral dynamics while the following two chapters investigate the evolution of regional or metropolitan knowledge economies The final three contributions adopt a knowledge base approach in order to provide insight into the organisation of innovation networks and spatiality of knowledge flows This book was published in a special issue of European Planning Studies *The Institutions of the Market* Alexander Ebner,Nikolaus Beck,2008-07-31 Where do markets come from and what drives their evolution How do organizations cope with the competitive dynamism of markets What is the role of governance mechanisms in the institutional coordination of markets In this book leading social scientists consider these questions and examine the institutional foundations of economic change

Places of Invention Arthur P. Molella,Anna Karvellas,2015-09-15 The companion book to an upcoming museum exhibition of the same name Places of Invention seeks to answer timely questions about the nature of invention and innovation What is it about some places that sparks invention and innovation Is it simply being at the right place at the right time or is it more than that How does place whether physical social or cultural support constrain and shape innovation Why does invention flourish in one spot but struggle in another even very similar location In short Why there Why then Places of Invention frames current and historic conversation on the relationship between place and creativity citing extensive scholarship in the area and two decades of investigation and study from the National Museum of American History s Lemelson Center for the Study of Invention and Innovation The book is built around six place case studies Hartford CT late 1800s Hollywood CA 1930s Medical Alley MN 1950s Bronx NY 1970s Silicon Valley CA 1970s 1980s and Fort Collins CO 2010s Interspersed with these case studies are dispatches from three learning labs detailing Smithsonian Affiliate museums work using Places of Invention as a model for documenting local invention and innovation Written by exhibition curators each part of the book focuses on the central thesis that invention is everywhere and fueled by unique combinations of creative people ready resources and inspiring surroundings Like the locations it explores Places of Invention shows how the history of invention can be a transformative lens for understanding local history and cultivating creativity on scales of place ranging from the personal to the national and beyond

VC Tom Nicholas,2019-07-09 From nineteenth century whaling to a multitude of firms pursuing entrepreneurial finance today venture finance reflects a deep seated tradition in the deployment of risk capital in the United States Tom Nicholas s history of the venture capital industry offers a roller coaster ride through America s ongoing pursuit of financial gain **The Dynamics of Entrepreneurial Ecosystems** Allan O'Connor,Colin

Mason,Morgan P. Miles,David Audretsch,2021-12-26 This book aims to provide new approaches to analysing and thinking about how entrepreneurial ecosystems develop and evolve over time as well as shed light on the relatively unexplored area of entrepreneurship ecosystem dynamics The concept of entrepreneurial ecosystems has emerged as a framework to understand the nature of places in which entrepreneurial activity flourishes Time is fundamental to the analysis of the

dynamics of an entrepreneurial ecosystem New firm creation survival growth and demise all occur within a temporal context that is over and within time Systems approaches to research invariably model the influential effects of the actors and elements that shape re shape maintain shift and change the system itself An entrepreneurial ecosystem point of view therefore is inherently time dependent and provides an analytical framework that reveals how the number and diversity of entrepreneurial actors situated in a place and time influence the creation of new firms their survival growth and ultimately the stability of markets and industry in a time and place Whether for better or worse the historic and present time dimensions underpin the functioning and trajectory of entrepreneurial ecosystem performances and how they are shaped over time Each chapter in this edited volume outlines a particular perspective and or a unique case drawn from a range of countries that collectively reveal the dynamics of an ever changing entrepreneurial ecosystem The chapters were originally published as a special issue of the journal Entrepreneurship and Regional Development

Technology Infrastructure
Cristiano Antonelli, Albert N. Link, Stan Metcalfe, 2013-09-13 Technology infrastructure supports the design deployment and use of both individual technology based components and the systems of such components that form the knowledge based economy As such it plays a central role in the innovation process and in the promotion of the diffusion of technologies Thus it is an important element contributing to the operation of innovation systems and innovation performance in any modern economy Technology infrastructure either in the narrow or broad sense is not well understood as an element of a sector s technology platform or of a national innovation system Similarly misunderstood are the processes by which such infrastructure is embodied in standards or diffused through various institutional frameworks In fact because of the public and quasi public good nature of technology infrastructure firms as well as public sector agencies under invest in it thus inhibiting long term technological advancement and economic growth This volume of essays brings together a collection of papers from eminent scholars on all of the various dimensions of technology infrastructure mentioned above To our knowledge it is the first such collection of papers and we expect this scholarship to become the foundation for future research in this area This book was published as a special issue of Economics of Innovation and New Technology

The Power of Ideas Zhiyi Liu, 2022-12-08 As the first academic monograph that a Chinese scholar discusses the histories of thoughts and ideas related to the development of digital economics this book aims to make research from the perspective of the history of ideas and discuss the ideas influencing the development of digital economics and the evolution of related theories and thoughts with the methodology of interdisciplinary research The human society is in the stage of major historic transition and enters the digital world with the main goal of developing the artificial world In this world the development of digital economics is significantly characterized by the deep interaction between the real and the virtual worlds while the key triggering this paradigm reform is the evolution of ideas since the modern times While involving the field of computer these thoughts are also related to the fields of philosophy ethics communication and economics Therefore the results of the research on the

history of ideas related to digital economics are required to really understand the depth of this discipline If computationalism is the most important paradigm evolution of natural science the most important paradigm evolution of social science is interdisciplinary complex science In the meantime this book is the most significant in understanding the nature of paradigm evolution related to the development of digital economics from the perspective of complex science and interdisciplinary systematic researches Digital economics is in the foundation laying phase while this book mainly aims to historically narrate the thoughts of this discipline and hopes that readers can understand the influence of ideas in the old era on shaping the disciplines in the new era while exploring this new discipline The construction of digital economics is a process of evolution This book will be helpful to understand the underlying logic of the ideas constructed by the thinkers in different fields

Sociology Neil J. Smelser, Richard Swedberg, 2010-07-28 The Handbook of Economic Sociology Second Edition is the most comprehensive and up to date treatment of economic sociology available The first edition copublished in 1994 by Princeton University Press and the Russell Sage Foundation as a synthesis of the burgeoning field of economic sociology soon established itself as the definitive presentation of the field and has been widely read reviewed and adopted Since then the

field of economic sociology has continued to grow by leaps and bounds and to move into new theoretical and empirical territory. The second edition while being as all embracing in its coverage as the first edition represents a wholesale revamping. Neil Smelser and Richard Swedberg have kept the main overall framework intact but nearly two thirds of the chapters are new or have new authors. As in the first edition they bring together leading sociologists as well as representatives of other social sciences. But the thirty chapters of this volume incorporate many substantial thematic changes and new lines of research for example more focus on international and global concerns chapters on institutional analysis the transition from socialist economies organization and networks and the economic sociology of the ancient world. The Handbook of Economic Sociology Second Edition is the definitive resource on what continues to be one of the leading edges of sociology and one of its most important interdisciplinary adventures. It is a must read for all faculty graduate students and undergraduates doing work in the field. A thoroughly revised and updated version of the most comprehensive treatment of economic sociology available. Almost two thirds of the chapters are new or have new authors. Authors include leading sociologists as well as representatives of other social sciences. Substantial thematic changes and new lines of research including more focus on international and global concerns institutional analysis the transition from socialist economies and organization and networks. The definitive resource on what continues to be one of the leading edges of sociology and one of its most important interdisciplinary adventures. Palo Alto Malcolm Harris, 2023-02-14 Named One of the Year's Best Books by VULTURE THE NEW REPUBLIC DAZED WIRED BLOOMBERG ESQUIRE SALON THE NEXT BIG IDEA CLUB The history of Silicon Valley from railroads to microchips is an extraordinary story of disruption and destruction told for the first time in this comprehensive jaw dropping narrative. Greg Grandin Pulitzer Prize winning author of *The End of the Myth* Palo Alto's weather is temperate its people are educated and enterprising its corporations are spiritually and materially ambitious and demonstrably world changing. Palo Alto is also a haunted toxic waste dump built on stolen Indian burial grounds and an integral part of the capitalist world system. In *PALO ALTO* the first comprehensive global history of Silicon Valley Malcolm Harris examines how and why Northern California evolved in the particular consequential way it did tracing the ideologies technologies and policies that have been engineered there over the course of 150 years of Anglo settler colonialism from IQ tests to the tragedy of the commons racial genetics and broken windows theory. The Internet and computers too. It's a story about how a small American suburb became a powerful engine for economic growth and war and how it came to lead the world into a surprisingly disastrous 21st century. *PALO ALTO* is an urgent and visionary history of the way we live now one that ends with a clear eyed radical proposition for how we might begin to change course.

Entrepreneurship and Talent Management from a Global Perspective Huiyao Wang, Yipeng Liu, 2016-01-29 Talent has become the most important resource for organizations across a wide range of sectors throughout the world including business non profit and government. These organizations are now

engaged in an increasingly fierce competition to acquire the best talent as they seek to gain the upper hand in today's fast changing environment. By combining the body of knowledge on entrepreneurship and talent management from a global perspective, this book provides a synthesized understanding of entrepreneurial mobility and talent management in the entrepreneurship and innovation ecosystem. The expert contributors combine empirical evidence and case studies to provide a nuanced understanding of global talent management from an international comparative perspective. The topics discussed include China's return migration and its impact on Chinese development, local engagement and transformation of Chinese communities in England, and reverse migration from the US to China. Furthermore, from a comparative perspective, contributors examine global talent and entrepreneurial mobility in the contexts of Silicon Valley, European university spin-off practices, and entrepreneurial ecosystems in France, Italy, and South Korea, respectively. Scholars and students in entrepreneurship and talent management will find the scope for future research useful in their work. Entrepreneurs, managers, and policymakers will benefit from the examination of global perspectives and different national contexts.

Mondo Nano Colin Milburn, 2015-04-24 In *Mondo Nano*, Colin Milburn takes his readers on a playful expedition through the emerging landscape of nanotechnology, offering a light-hearted yet critical account of our high-tech world of fun and games. This expedition ventures into discussions of the first nanocars, the popular video games *Second Life*, *Crysis*, and *BioShock*, international nanosoccer tournaments, and utopian nano-cities. Along the way, Milburn shows how the methods, dispositions, and goals of nanotechnology research converge with video game culture. With an emphasis on play, scientists and gamers alike are building a new world atom by atom, transforming scientific speculations and video game fantasies into reality. Milburn suggests that the closing of the gap between bits and atoms entices scientists, geeks, and gamers to dream of a completely programmable future. Welcome to the wild world of *Mondo Nano*.
