incapable of distrust a well researched perceptive exploration of a rare genetic disorder seen through the eyes of a mother and son Kirkus Reviews What would it be like to see everyone as a friend Twelve year old Eli D Angelo has a genetic disorder that obliterates social inhibitions making him irrepressibly friendly indiscriminately trusting and unconditionally loving toward everyone he meets It also makes him enormously vulnerable On the cusp of adolescence Eli lacks the innate skepticism that will help him navigate coming of age more safely and vastly more successfully In a thorough overview of Williams syndrome and its thought provoking paradox The New York Times journalist Jennifer Latson follows Eli over three critical years of his life as his mother Gayle must decide whether to shield Eli from the world or give him the freedom to find his own way and become his own person Watching Eli's artless attempts to forge connections Gayle worries that he might never make a real friend the one thing he wants most in life As the book's perspective deliberately pans out to include teachers counselors family friends and finally Eli's entire eighth grade class Latson delivers some unforgettable lessons about inclusion and parenthood Publishers Weekly The Boy Who Loved Too Much explores the way a tiny twist in a DNA strand can strip away the skepticism most of us wear as armor and how this condition magnifies some of the risks we all face in opening our hearts to others More than a case study of a rare disorder The Boy Who Loved Too Much is fresh and engaging leavened with humor Houston Chronicle and a universal tale about the joys and struggles of raising a child of growing up and of being different
