Commission Dionyssis G. Dimitrakopoulos, 2004-07-23 This book newly available in paperback examines a hitherto under researched aspect of the European Union's policy process the extent and the nature of the involvement of central governments in the implementation of EU public policy It discusses how the co ordination of these institutions affects their capacity to shape the way in which the commitments that they make in Brussels are turned into concrete reality at the national level It shows that the nature of their involvement in implementation reflects the pattern of their involvement in the

formulation of EU policy However since implementation unfolds over long periods of time its patterns can change over time The author draws on empirical evidence regarding the liberalisation of public procurement to demonstrate how the institutions of central governments bring about change Comparing the central governments of Greece France and Britain over a twenty five year period the author demonstrates that far from being the passive conduits of pressure emanating from the EU the institutions of national central governments actively steer the implementation of EU public policy Theorising Institutional Change: The Impact of the European Integration Process on the Development of Space Activities in Europe Nina-Louisa Remuss,2018-08-01 The book provides a structural analysis of the European space effort from an institute change perspective It analyzes the EU ESA inter institutional relationship gives an overview of the development of space policy in Europe and advances the debate about the impact of the European integration process on existing institutional actors While European Space collaboration was initially developed outside the competences of the European Union EU with space programmes being carried out almost exclusively under the framework of European Space Agency ESA and national agencies the EU has gained shared competences Art 2 TFEU in space policy following the adoption of the Lisbon Treaty Currently the EU and ESA work together under a Framework Agreement In 2016 the EU Commission has published a Communication entitled European Space Policy ESP Even though ESA s Member States have agreed to keep ESA as an intergovernmental organisation during the ESA Ministerial Council of 2014 the discussion about ESA becoming part of the EU framework continues The EU s ambitions for leadership in European space policy raise question concerning the future of ESA The study of institutions lies at the heart of political sciences Strikingly the theoretic framework qualifying institutional change and making it comparable leaves room for more concrete and testable dimensions of institutional change

European Internal Security Christian Kaunert,2018-07-30 European institutions are either loathed or underestimated This book analyses the role of EU institutions in the area of European internal security From Justice and Home Affairs this area has become more like a European Area of Freedom Security and Justice In this process the European Commission has demonstrably played the role of an engine of integration in areas such a counter terrorism policing asylum migration and border management This book uses the framework of supranational policy entrepreneurs SPE those who stand at the policy window in order to propose lobby for and sell their policy proposal and synthesises it with insights from the literature on norm entrepreneurship This book will be of great interest to scholars and practitioners interested in European internal security European integration terrorism security studies and international relations *The European Union and International Development* Maurizio Carbone,2007-12-12 The European Union is a leading actor in international development providing more than half of the world s foreign aid but also a unique case combining the characteristics of a bilateral and a multilateral donor Despite the general acknowledgment that policy coordination substantially improves both the effectiveness of foreign aid and the visibility of the EU in the international arena Member States have consistently resisted

any intrusion into what they consider a key area of their national sovereignty The increases in volume of aid the ambitious agenda on aid effectiveness and the adoption of the European Consensus on Development indicate a change of direction Using development policy as a starting point this book provides a systematic analysis of the interaction between the European Commission and Member States It explores the conditions in which the European Commission influences outcomes in the EU decision making process It ultimately argues that the European Commission plays a leadership role but this leadership is contingent upon the presence of an institutional entrepreneur its internal cohesiveness and the astute use of a repertoire of tactics Demonstrating that development policy may provide fresh insights into EU integration theory this book will be of interest to students and scholars of European Politics and International Development
