Human Rights Discourse in a Global Network Lena Khor, 2016-05-13 In her innovative study of human rights discourse Lena Khor takes up the prevailing concern by scholars who charge that the globalization of human rights discourse is becoming yet another form of cultural legal and political imperialism imposed from above by an international human rights regime based in the Global North To counter these charges she argues for a paradigmatic shift away from human rights as a hegemonic immutable and ill defined entity toward one that recognizes human rights as a social construct comprised of language and of language use She proposes a new theoretical framework based on a global discourse network of human rights supporting her model with case studies that examine the words and actions of witnesses to genocide Paul

Rusesabagina and humanitarian organizations Doctors Without Borders She also analyzes the language of texts such as Michael Ondaatje's *Anil's Ghost* Khor's idea of a globally networked structure of human rights discourse enables actors textual and human who tap into or are linked into this rapidly globalizing system of networks to increase their power as speaking subjects and in so doing to influence the range of acceptable meanings and practices of human rights in the cultural sphere Khor's book is a unique and important contribution to the study of human rights in the humanities that revitalizes viable notions of agency and liberatory network power in fields that have been dominated by negative visions of human capacity and moral action

Your Country, Our War Katherine A. Brown, 2019-02-01 Journalists are actors in international relations mediating communications between governments and publics but also between the administrations of different countries American and foreign officials simultaneously consume the work of U.S. journalists and use it in their own thinking about how to conduct their work As such journalists play an unofficial diplomatic role However the U.S. news media largely amplifies American power Instead of stimulating greater understanding the U.S. elite mainstream press can often widen mistrust as they promote an American worldview and with the exception of some outliers reduce the world into a tight security frame in which the U.S. is the hegemon This has been the case in Afghanistan since 2001 particularly as emerging Afghan journalists have relied significantly on U.S. and other Western news outlets to report events within their government and their country Based on eight years of interviews in Kabul Washington and New York *Your Country, Our War* demonstrates how news has intersected with international politics during the War in Afghanistan and shows the global power and reach of the U.S. news media especially within the context of the post 9/11 era It reviews the trajectory of the U.S. news
