Wilson, 2016-12-22 John Polkinghorne ordained member of the Royal Society past President of Queen s College Cambridge Knight Commander of the Order of the British Empire 2002 Templeton Prize winner theoretical physicist and theologian writes in breathless style to unfold core Christian doctrine in dialogue with science His work deftly addresses how one would interpret and commend Christian faith in the contemporary world as he elucidates the key topics in the dialogue of religion with science Polkinghorne s work addresses the hope Christians have present and future in the faithfulness of a loving God who stands alongside them today and for all eternity Eschatological hope enables and empowers Christian life and emerges in God s resurrection of Jesus from the horrific crucifixion Polkinghorne ably supports his thesis with a strong argument for the resurrection built on the kenotic acts of God

His thesis sees Christian eschatology as the advent of hope the heart of faith In Christian eschatology as argued by Polkinhorne and supported in the work of Jurgen Moltmann and Nicholas T Wright Christ s presence is not some far off event but present reality **Unbelievable** Michael Newton Keas,2019-01-08 Unbelievable explodes seven of the most popular and pernicious myths about science and religion Michael Newton Keas a historian of science lays out the facts to show how far the conventional wisdom departs from reality He also shows how these myths have proliferated over the past four centuries and exert so much influence today infiltrating science textbooks and popular culture The seven myths Keas shows amount to little more than religion bashing especially Christianity bashing Unbelievable reveals Why the Dark Ages never happened Why we didn t need Christopher Columbus to prove the earth was round Why Copernicus would be shocked to learn that he supposedly demoted humans from the center of the universe What everyone gets wrong about Galileo s clash with the Church and why it matters today Why the vastness of the universe does not deal a blow to religious belief in human significance How the popular account of Giordano Bruno as a martyr for science ignores the fact that he was executed for theological reasons not scientific ones How a new myth is being positioned to replace religion a futuristic myth that sounds scientific but isn t In debunking these myths Keas shows that the real history is much more interesting than the common narrative of religion at war with science This accessible and entertaining book offers an invaluable resource to students scholars teachers homeschoolers and religious believers tired of being portrayed as anti intellectual and anti science
