COMEDIE DES ERREURS 1943-1956 René Massigli, 1978 The Imperialism of French Decolonisation Ryo

Ikeda, 2016-01-12 This book examines French motivations behind the decolonisation of Tunisia and Morocco and the intra Western Alliance relationships. It argues that changing French policy towards decolonisation brought about the unexpectedly quick process of independence of dependencies in the post WWII era **The Diplomats, 1939-1979** Gordon A.

Craig, Francis L. Loewenheim, 2019-01-15 This volume offers a unique perspective on a turbulent and dangerous age by focusing on the activities and accomplishments of its diplomats. Its twenty-three interconnected essays discuss the politics of ambassadors, foreign ministers and heads of state from Acheson and Adenauer to Sadat and Gromyko, as well as the special problems of the professionals in the foreign offices and the role of the media in modern diplomacy. Among its contributors are such distinguished international scholars as Akira Iriye, Michael Brecher, Stanley Hoffmann, W. W. Rostow and Norman Stone. Expanding the field of inquiry covered by its acclaimed predecessor *The Diplomats, 1919-1939* which concentrated on Europe and the coming of the Second World War, these essays showcase the major diplomatic practitioners of the period against the broader background of the problems and crises that confronted them: among others, the Polish question at the end of World War II, the onset of the Cold War, the defeat of EDC in 1954, the Suez crisis, Khrushchev's Berlin note in 1958, the Middle East War of 1967 and the oil shock of 1973, the Iranian revolution and the Soviet invasion of Afghanistan. This account of the pendular swing from crisis and detente and back again is given a global perspective by careful treatment of the diplomacy of new nations like India, Communist China and Israel and the transformation of the Middle East and Japan. Among the new perspectives offered here are Geoffrey Warner's critical view of Ernest Bevin's attitude toward the United States, John Lewis Gaddis's judgment of Henry Kissinger's detente policy, W. W. Rostow's analysis of the diplomatic method of Paul Monnet, Rena Fonseca's assessment of Nehru's policy of nonalignment, Shu Guang Zhang's fresh look at the relationship between Zhou Enlai and Mao and Paul Gordon Lauren's critique of U.N. crisis management from Trygve Lie to Perez de Cuellar. Highly original also are Steven Miner's portrait of Molotov, Michael Brecher's pioneering study of the diplomacy of Abba Eban and James McAdams's analysis of German Ostpolitik. Originally published in 1994, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Common Destiny Dietrich Orlow, 2000-03-01 Although the Socialist or Social Democratic parties played a key role in West European politics during the quarter century after the Second World War, they have been studied far less than their political rivals, the Christian Democrats. The story of West European Social Democracy after 1945 begins with a dilemma

Democratic marxism which had been the parties ideological and organizational principle until the Second World War was becoming politically irrelevant The three parties analyzed here represent the spectrum of reactions among Social Democratic parties to this realization The debate over the parties programs and ideologies did not of course take place in a vacuum the author devotes considerable space to a comparative analysis of the parties leaders and organizational structures as well as the evolution of Social Democratic domestic and foreign policies Immensely readable this book not only offers an in depth analysis of the postwar period crucial for the history of Social Democracy but also because of its cross national treatment of these three major parties adds significantly to our understanding of the processes of European integration and the evolution of the Atlantic Alliance

Peacemaking from Above, Peace from Below Norrin M. Ripsman, 2016-05-31 In *Peacemaking from Above Peace from Below* Norrin M Ripsman explains how regional rivals make peace and how outside actors can encourage regional peacemaking Through a qualitative empirical analysis of all the regional rivalries that terminated in peace treaties in the twentieth century including detailed case studies of the Franco German Egyptian Israeli and Israeli Jordanian peace settlements Ripsman concludes that efforts to encourage peacemaking that focus on changing the attitudes of the rival societies or democratizing the rival polities to enable societal input into security policy are unlikely to achieve peace Prior to a peace treaty he finds peacemaking is driven by states often against intense societal opposition for geostrategic reasons or to preserve domestic power After a formal treaty has been concluded the stability of peace depends on societal buy in through mechanisms such as bilateral economic interdependence democratization of former rivals cooperative regional institutions and transfers of population or territory Society is largely irrelevant to the first stage but is critical to the second He draws from this analysis a lesson for contemporary policy Western governments and international organizations have invested heavily in efforts to promote Israeli Palestinian and Indo Pakistani peace by promoting democratic values economic exchanges and cultural contacts between the opponents Such attempts to foster peace are likely to waste resources until such time as formal peace treaties are concluded between longtime adversaries

Reforming Europe Constantine Arvanitopoulos, 2010-04-06 In the 2009 elections the European centre right emerged victorious thus affirming its political domination in contemporary European politics The aim of this book is not to provide an analysis of the factors that contributed to the EPP s political prevalence Instead it is to help this large political family maintain its vigour of political thought and policy prescriptions The book provides a forum for prominent centre right thinkers to debate the major European problems of our times with particular emphasis on the management of the financial crisis and the next institutional steps regarding the European integration project It assembles the views of politicians academics and think tank fellows from different national backgrounds and dissimilar ideological perspectives who unfold their vision for Europe s future Overall the book attempts to both highlight and stimulate the centre right contribution to the discussion of Europe s main contemporary challenges

Atlantic Pact forty Years later France and the Construction of Europe, 1944-2007 Michael Sutton,2011-03 This comprehensive history shows how France coupled the pursuit of power and the furtherance of European integration over a 60 year period from the close of the Second World War to the hesitation caused by the French electorate's referendum rejection of the European Union's constitutional treaty in 2005 Britain and European Union Lord Beloff,2016-07-27 The forefathers of the European Union led by Jean Monnet hoped to create a United States of Europe with national sovereignties subordinated to a federal government Few in Britain shared their dream Yet Britain abandoned her aloof stand of 1950 and eventually joined the European Communities Lord Beloff asks whether the key figures Harold Macmillan Sir Edward Heath and Harold Wilson knowingly deceived the electorate into thinking that entry could be combined with the country's independence of action and historic constitution or whether they thought that they could persuade continental statesmen from inside of the merits of a much looser structure The actions and words of Lady Thatcher and John Major are scrutinised with this same question in mind as are Labour's oscillations under Gaitskell Wilson and Foot before plunging wholeheartedly into Eurofederalism under Kinnock and Blair The key theme which emerges is of mutual misunderstanding between Britain and the continent due to basic differences of outlook and interest which have guaranteed continual controversy throughout our involvement in Europe Routledge Library Editions: Political Protest Various,2022-07-30 This 26 volume set is a wide ranging time and subject spanning examination of the phenomenon of political protest What drives people to take to the streets and how do their governments respond These questions and many more are analysed in areas as varied as sixteenth century German peasant uprisings revolutionary Russians at the Paris Commune women protesting nuclear weapons at Greenham Common and the role Christianity played in protests across the ages An impressive reference resource this set also looks at the policing of protests and official responses to them **Defence and Dissent in Contemporary France** Jolyon Howorth,Patricia Chilton,2021-09-05 This book first published in 1984 examines France's independent nuclear weapons programme of the 1980s alongside the French peace movement which was almost totally absent in contrast to the peace protests of the US and the rest of Europe This book analyses this unusual pattern of defence and dissent and assesses its likely development It looks at the evolution of French post war defence policy and discusses the French peace movement attempting to explain why it was so weak The North Atlantic Treaty Organization, 1948-1957 John C. Milloy,2006-03-22 Milloy challenges the view that creating greater alliance unity has usually been only a Canadian preoccupation other members notably the United States and Britain displayed a sincere interest as well and further suggests that Canadian actions sometimes acted as an impediment He argues that the idea failed partly because the lack of an agreed upon definition for NATO's non military potential hampered focused discussion With NATO facing a post 9 11 relevancy crisis Milloy shows that there are parallels to the inter alliance struggles of the 1950s and that many of the early frustrations and obstacles are still present **The Struggle for European Union by Political Parties and Pressure Groups in Western**

Building Europe Wilfried Loth, 2015-08-31 Relying on internal sources Wilfried Loth analyses the birth and subsequent development of the European Union from the launch of the Council of Europe and the Schuman Declaration until the Euro crisis and the contested European presidential election of Jean-Claude Juncker. This book shines a light on the crises of the European integration such as the failure of the European Defence Community, De Gaulle's empty chair policy or the rejection of the European Constitution in France and the Netherlands but also highlights the indubitable successes that are the Franco-German reconciliation, the establishment of the European common market and the establishment of an expanding common currency. What this study accomplishes for the first time is to illuminate the driving forces behind the European integration process and how it changed European politics and society. An enlightening work. A required reading for all who doubt the unfinished history of Europe. Rolf Steininger, Frankfurter Allgemeine Zeitung. This book will become an indispensable standard work. Jörg Himmelreich, Neue Zürcher Zeitung.

Human Rights and the End of Empire Alfred William Brian Simpson, 2004 The European Convention on Human Rights of 1950 established the most effective international system of human rights protection ever created. This is the first book that gives a comprehensive account of how it came into existence, of the part played in its genesis by the British government and of its significance for Britain in the period between 1953 and 1966.

A Certain Idea of Europe Craig Parsons, 2018-07-05 The quasi-federal European Union stands out as the major exception in the thinly institutionalized world of international politics. Something has led Europeans and only Europeans beyond the nation-state to a fundamentally new political architecture. Craig Parsons argues in *A Certain Idea of Europe* that this something was a particular set of ideas generated in Western Europe after the Second World War. In Parsons's view, today's European Union reflects the ideological and perhaps visionary project of an elite minority. His book traces the progressive victory of this project in France where the battle over European institutions erupted most divisively. Drawing on archival research and extensive interviews with French policymakers, the author carefully traces a fifty-year conflict between radically different European plans. Only through aggressive leadership did the advocates of a supranational community succeed at building the EU and binding their opponents within it. Parsons puts the causal impact of ideas and their binding effects through institutions at the center of his book. In so doing, he presents a strong logic of social construction, a sharp departure from other accounts of EU history that downplay the role of ideas and ideology.

The Secret Anglo-French War in the Middle East Meir Zamir, 2014-11-27 The role of intelligence in colonialism and decolonization is a rapidly expanding field of study. The premise of *The Secret Anglo-French War in the Middle East* is that intelligence statecraft is the missing dimension in the established historiography of the Middle East during and after World War II. Arguing that intelligence, especially covert political action and clandestine diplomacy, played a key role in Britain's Middle

East policy this book examines new archival sources in order to demonstrate that despite World War II and the Cold War the traditional rivalry between Britain and France in the Middle East continued unabated assuming the form of a little known secret war This shadow war strongly influenced decolonization of the region as each Power sought to undermine the other Britain exploited France's defeat to evict it from its mandated territories in Syria and Lebanon and incorporate them in its own sphere of influence whilst France's successful use of intelligence enabled it to undermine Britain's position in Palestine Egypt Saudi Arabia and Iraq Shedding new light on the clandestine Franco Zionist collaboration against Britain in the Middle East and the role of the British secret services in the 1948 Arab Jewish war in Palestine this book which presents close to 400 secret Syrian and British documents obtained by the French intelligence is essential reading for scholars with an interest in the political history of the region inter Arab and international relations and intelligence studies *The Bush Administration (1989-1993) and the Development of a European Security Identity* Sophie Vanhoonacker, 2017-11-22 This title was first published in 2001 This compelling study draws insightful conclusions about US foreign policy towards Europe at a critical juncture in the post Cold War period An absorbing and illuminating account this material will be useful to non specialists and student readers of US foreign policy European integration and international relations alike **NATO 1948** Lawrence S. Kaplan, 2007-06-21 This compelling history brings to life the watershed year of 1948 when the United States reversed its long standing position of political and military isolation from Europe and agreed to an entangling alliance with ten European nations Not since 1800 when the United States ended its alliance with France had the nation made such a commitment The historic North Atlantic Treaty was signed on April 4 1949 but the often contentious negotiations stretched throughout the preceding year Lawrence S Kaplan the leading historian of NATO traces the tortuous and dramatic process which struggled to reconcile the conflicting concerns on the part of the future partners Although the allies could agree on the need to cope with the threat of Soviet led Communism and on the vital importance of an American association with a unified Europe they differed over the means of achieving these ends The United States had to contend with domestic isolationist suspicions of Old World intentions the military's worries about over extension of the nation's resources and the apparent incompatibility of the projected treaty with the UN charter For their part Europeans had to be convinced that American demands to abandon their traditions would provide the sense of security that economic and political recovery from World War II required Kaplan brings to life the colorful diplomats and politicians arrayed on both sides of the debate The end result was a remarkably durable treaty and alliance that has linked the fortunes of America and Europe for over fifty years Despite differences that have persisted and occasionally flared over the past fifty years NATO continues to bind America and Europe in the twenty first century Kaplan's detailed and lively account draws on a wealth of primary sources newspapers memoirs and diplomatic documents to illuminate how the United States came to assume international obligations it had scrupulously avoided for the previous 150 years *The Rise and Fall of a National Strategy* Alan S.
