

UNIFIED REALITY THEORY

THE EVOLUTION OF EXISTENCE INTO EXPERIENCE

STEVEN KAUFMAN

Unified Reality Theory Evolution Experience

Steven Kaufman

Unified Reality Theory Evolution Experience:

Unified Reality Theory Steven Kaufman, 2015-12-04 Unified Reality Theory demonstrates that the source of reality is a universal consciousness and that we are in no way separable from that source and so in no way truly separable from each other or any other aspect of reality I recommend this book to anyone interested in understanding the nature of reality and their place in it Deepak Chopra Unified Reality Theory describes how all reality evolves from an absolute existence It also demonstrates that this absolute existence must have consciousness as an attribute that is intrinsic to its being Thus Unified Reality Theory shows that consciousness rather than being a product of the evolution of physical reality is itself the source of what we experience as physical reality and that physical reality is itself but one aspect of an evolving universal consciousness Unified Reality Theory shows that most fundamentally this absolute consciousness existence evolves into reality by means of a single process self relation That is consciousness existence becomes reality by forming relationships with itself analogous in a very limited way to what happens to a rubber band that is twisted upon itself i e it remains whole while differentiating into other forms Thus Unified Reality Theory demonstrates that reality is a state of existential self relation The idea that the universe consists of existence which has formed relationships with itself isn't new Taoists have understood this idea for at least a couple of thousand years What is new here is the presentation of this idea in the form of a detailed and defined structural model that correlates with the behavior of physical reality as described by science in general and physics in particular Ultimately Unified Reality Theory uses science and logic to make the case that God exists as a pervasive and absolute consciousness that transcends the realities of space and time and that we as well as everything else are that **My**

Big TOE Awakening Discovery Inner Workings Thomas Campbell, 2023-08-29 Section 1 provides a biography of the author pertinent to the creation of this trilogy This look at the author's unique experience sheds light upon the origins of this work Section 2 logically justifies the basic conceptual building blocks needed to construct My Big TOE's foundation It discusses the cultural beliefs that trap our thinking into a narrow and limited conceptualization of reality defines the fundamentals of Big Picture epistemology and ontology and examines the inner workings and practice of meditation It defines and develops the two basic assumptions upon which this trilogy is based From these two assumptions time space consciousness and the basic properties purpose and mechanics of our reality are logically inferred Section 3 develops the interface and interaction between we the people and our digital consciousness reality It derives and explains the characteristics origins dynamics and function of ego love free will and our larger purpose It develops the psi uncertainty principle as it explains and interrelates psi phenomena free will love consciousness evolution physics reality human purpose digital computation and entropy Section 4 describes a model of consciousness that develops the results of Section 3 and supports the conclusions of Section 5 The origins and nature of digital consciousness are described along with how artificial intelligence AI leads to artificial consciousness which leads to actual consciousness and to us It derives our physical universe

our science and our perception of a physical reality The physical reality is directly derived from the nature of digital consciousness Section 5 pulls together Sections 2 3 and 4 into a model of reality that describes how an apparent nonphysical reality works interacts and interrelates with our experience of physical reality Probable realities predicting and modifying the future teleportation telepathy multiple physical and nonphysical bodies and the fractal nature of an evolving digital consciousness reality are explained and described in detail Section 6 is the wrap up that puts everything into a personal perspective It points out My Big TOE s relationship with contemporary science and philosophy It solidly integrates My Big TOE into traditional Western scientific and philosophical thought **Creative Evolution** Amit Goswami,2014-01-23 By denying evolution altogether says quantum physicist Amit Goswami intelligent design believers fly in the face of scientific data But the idea of intelligent design does contain substance that neo Darwinists cannot ignore Goswami posits that consciousness not matter is the primary force in the universe Biology must come to terms with feeling meaning and the purposefulness of life as well as with the idea of a designer What s more reconciling the question of life s purposefulness and the existence of the designer with neo Darwinism also answers many other difficult questions The result is a paradigm shift for biology and the vision of a coherent whole that Goswami calls science within consciousness In this timely important book the author offers clear arguments supported by the findings of quantum physics that represent a major step in resolving controversies between science and religion **My Big TOE Discovery** Thomas Campbell,2023-08-29 The interface between us and our consciousness AND a model of consciousness **The Roving I: Common Ground for Atheist, Believer, and Everyone in Between , Metaphysics Terminology** Silvio Guerrinha,2019-05-26 This book is an extensive research carried out over the last ten years It covers topics such as metaphysics parapsychology paranormal ufology occultism transhumanism spiritism conscientiology alchemy gnosis and quantum physics It includes new and rare terminology creating connections between them over 650 terms and 233 pages Contains illustrations Enrich your vocabulary with new terms
