Moran, 2017-01-25 Darwin named Geography as Queen of the sciences His observations of geographical connections had revealed the phenomenon of Life in a remarkably structured Earth world as inter locked dynamic systems This Systems View of Life is reviving at a time when we are facing a crisis of collapse in world systems and the prospect of a breaking world as a result of reckless human activities driven by amoral values We are all geographers embarked on a voyage in search of the optimum location with the promise of support and betterment of our future living conditions But for most of the world s people this is an experience of Life fraught with hardship and deprivation Compelled to take stock of our deteriorating environment as well as to question the values we hold the message is that we have the collective restorative power of geographical knowledge which can be applied to achieve a better world

J. May,2025-03-01 They say some people are favored by the gods Others need to make their own luck Book 1 There is a single lesson in the heart of every Viking Those who use magic are put to death When a handsome young warrior rides into her village and Liv barely has time to notice There is coin to be made with the arrival of the king But the fates have other plans The two strike up a friendship that grows closer even though Liv knows she will never rise above her station She makes a promise that even though she cannot love him she will protect him And that promise will require the greatest sacrifice of all Book 2 Witch In the blink of an eye Liv s hard fought life turned upside down Not only had she used her powers in the open and exposed her secret she had done so

in front of the king's own soldiers No sooner had the dust settled than she was arrested before the entire settlement and sentenced to death Alone in a prison cell she begins to think about where things went wrong The fabric of the realm might be slowly changing but it was still ingrained in the heart of every Viking child never to suffer a witch The clock is ticking but all hope isn't lost Erik owes a heavy debt and feels the weight of that burden Is it possible to escape the consequences of her actions Even if she could run would her chances be any better out in the wild The executioner comes at dawn and two people are considering opposite sides of the same question When a life hangs in the balance is it possible to walk away Book 3 What do we do with witches With the smoke from the settlement still hanging in the air behind them Liv and Eric strike out on foot into the wilderness But the fates weave a twisted story and it isn't the escape either of them had in mind Cut off from Trina by the arrival of the imperial army the pair find themselves truly stranded without the hope of either coin or supplies The woods are rife with danger on the best of days and that's without the price that had surely been put on their heads Blood is in the water and the imperial hounds have caught their scent But even if they manage to stay ahead of the spears behind them there's trouble brewing on a different front A closer front Liv's not the only one harboring a secret Sometimes freedom comes at too high a cost The Viking Tales Adversity the Prequel Warrior Defender Contender Affinity Heroine Victory In a time when Vikings clashed against Romans and whispers of magic held back the tides a young woman staggered out of the forest and gave birth to a special child Search Terms fantasy witches fantasy new adult paranormal shifter romance shifter romance coming of age vampires vampires and witches shifters shifter dark fantasy superhero fantasy ebooks witches superhero paranormal fantasy paranormal romance New Adult College Romance Paranormal Fairy new adult new adult and college New Adult College Romance w j may chronicles of Kerrigan supernatural romance mystery superpowers paranormal series magic fairytale fairy tale sequel series sequel Arthurian dragons Viking wizards warlocks viking roman valcari paranormal magic
