create beautiful spaces that reflect unique and inventive approaches to living in a city **Design Chronicles** Carroll Gantz, 2005 Here are the design stories of everyday material stuff from cars to Dustbusters phonographs to DVDs that makes our lives easier more exciting and more comfortable through mass production Descriptive vignettes and over 400 illustrations of popular culture as it progressed through the 20th century Each year is an illustrated double page spread showing how design evolved in a precise timeline Learn fascinating stories behind familiar products the men and women who invented or designed them and how their designs came to life or in some cases failed It is the story of how America rose to world leadership through its unique ability to bring household conveniences and technological benefits to all at reasonable cost thus raising the nation's standard of living Major technological developments and new materials that made innovative designs possible are also identified For the industrial designer or student of design this is a fantastic history of the profession illustrating connections to invention architecture engineering manufacturing and business Written by a distinguished industrial designer the book offers a unique year by year chronology what was happening when in design and names its movers and shakers *Sifting the Trash* Alice Twemlow, 2017-05-19 How product design criticism has rescued some

products from the trash and consigned others to the landfill Product design criticism operates at the very brink of the landfill site salvaging some products with praise but consigning others to its depths through condemnation or indifference When a designed product's usefulness is past the public happily discards it to make room for the next new thing Criticism rarely deals with how a product might be used or not used over time it is more likely to play the enabler encouraging our addiction to consumption With *Sifting the Trash* Alice Twemlow offers an especially timely reexamination of the history of product design criticism through the metaphors and actualities of the product as imminent junk and the consumer as junkie Twemlow explores five key moments over the past sixty years of product design criticism From the mid 1950s through the 1960s for example critics including Reyner Banham Deborah Allen and Richard Hamilton wrote about the ways people actually used design and invented a new kind of criticism At the 1970 International Design Conference in Aspen environmental activists protested the design establishment's lack of political engagement In the 1980s left leaning cultural critics introduced ideology to British design criticism In the 1990s dueling London exhibits offered alternative views of contemporary design And in the early 2000s professional critics were challenged by energetic design bloggers Through the years Twemlow shows critics either sifted the trash and assigned value or attempted to detect diagnose and treat the sickness of a consumer society

Victorian Texas Courthouses - and County Histories in Post Cards E. Barry Gray,2017-11-21 Victorian Texas Courthouses have been called the architectural treasures of the state Although they have a number of characteristics in common such as the use of wrought iron stained glass towers turrets and gingerbread the architecture of the Victorian Era was not just one style but a collection of many styles Coinciding with these architectural styles in Texas was the golden age of courthouse design and construction The Victorian styles fit perfectly with the public s idea of what a grand temple of justice should say about the county s people and their values These styles were ideal in that they could illustrate in stone and glass the power of government and law in society Unfortunately most of these great Victorian buildings are gone but thankfully through vintage picture post cards we can still enjoy their architecture This book is an attempt at the architectural preservation of Victorian Texas courthouses through the use of over one hundred vintage picture post cards
