Coercive Control Evan Stark, 2009-03-01 One of the most important books ever written on domestic violence Coercive Control breaks through entrenched views of physical abuse that have ultimately failed to protect women Evan Stark founder of one of America s first battered women s shelters shows how domestic violence is neither primarily domestic nor necessarily violent but a pattern of controlling behaviors more akin to terrorism and hostage taking Drawing on court records interviews and FBI statistics Stark details coercive strategies that men use to deny women their very personhood from

beeper games to food logs to micromanaging dress speech sexual activity and work Stark urges us to move beyond the injury model and focus on the real victimization that allows men to violate women's human rights with impunity Provocative and brilliantly argued Coercive Control reframes abuse as a liberty crime rather than a crime of assault and points the way to bringing real equality for women in line with their formal rights to personhood and citizenship freedom and safety

Phenomenology of Suicide Maurizio Pompili, 2017-10-10 This book will help the reader to understand the suicidal mind from a phenomenological point of view shedding light on the feelings of suicidal individuals and also those of clinicians In accordance with the importance that the phenomenological approach attaches to subjectivity and sense of self as the starting points for knowledge emphasis is placed on the need for the clinician to focus on the subjective experiences of the at risk individual to set aside prior assumptions judgments or interpretations and to identify ways of bridging gaps in communication associated with negative emotions The vital importance of empathy is stressed drawing attention to the insights offered by neuroimaging studies and the role of mirror neurons in social cognition It is widely acknowledged that when a clinician meets a person who wants to die by suicide the clinician does not fully understand what is going on inside the mind of that individual This book recognizes that any approach to suicide prevention must promote understanding of suicidal thoughts and feelings The awareness that it fosters and the innovative perspectives that it presents will appeal to a wide readership

Growing Up Fast Bonnie J. Ross Leadbeater, 2014-03-05 The first edition of *Growing Up Fast* attempted to counter the stereotype of poor minority adolescent mothers and describe the diversity of their educational work parenting and relationship experiences The volume followed a strengths based approach to understanding why some mothers appeared resilient to the stresses of early parenting compared to their peers and what obstacles undermine resiliency for some of these young women We hear their stories in their own words We also see how many disadvantaged mothers go on to succeed in school work and parenting while avoiding many of the risk associated with teen parenting The research is based on a six year study of 120 young disadvantaged mothers and their children from New York City It uniquely combines the analysis of longitudinal questionnaire data with qualitative analysis of extensive interviews conducted with these women focusing on the first six years after their child was born A past winner of the Society for Research on Adolescence best book award *Growing Up Fast* is a fascinating study of human resilience that will continue to be recognized for its contribution to individuals involved in program development and policymaking with teenage parenting A new introductory chapter to the book suggests that we can look at the previous findings through a new lens that emphasizes not only the diversity of outcomes for young mothers and the sources of their strengths but also asks what we can learn from these women about supporting their educational and work goals as they transition to adulthood New attention to emerging adulthood shows that this is a critical stage of life when the foundations for health and healthy life styles are laid down Developmental tasks of this phase include building the capacity for financial and residential independence through post secondary education and job training and

establishing stable sources of support from parents romantic partners and peers for all youth Leadbeater addresses the societal changes that make these tasks particularly salient for young women and focuses attention on how we can support youth who make this transition with children Kids Who Commit Adult Crimes R. Barri Flowers,2002 Examines the nature and causes of juvenile crime and the place of the juvenile offender in the U S justice system **The Dark Side of Close Relationships** Brian H. Spitzberg,William R. Cupach,2013-06-17 This collection of essays represents a follow up to the editors 1994 publication *The Dark Side of Interpersonal Communication* In the preface to that collection of essays they argued that To fully understand how people function effectively requires us to consider how individuals cope with social interaction that is difficult problematic challenging distressing and disruptive In this companion volume the focus expands from social interaction to close relationships Aside from the inherent need to investigate the bad as well as the good of interpersonal relationships the editors and their colleagues simply find the dark side metaphor to be intellectually arousing It stimulates investigation of important yet often neglected phenomena and it especially encourages consideration of the hidden and forbidden and the paradoxical and ironic elements of human relating This volume assembles the cutting edge work of first rate scholars from the ranks of communication psychology sociology and cognate disciplines As in the previous text the subject matter and stylistic approaches are diverse reflecting the broad and interdisciplinary domain that is the dark side of human affairs The selection of topics is somewhat selective reflecting only a sample of emerging scholarship in the interdisciplinary study of relationships These internationally recognized scholars examine various topics related to the dark side including fatal attractions jealousy and envy misunderstanding gossip conflict codependence sexual coercion stalking relationship termination unrequited love and mental health problems in relationships Some chapters present original data and models whereas others reconfigure the way in which the understandings of relationships can be better understood In addition the bookend chapters examine the ideology nature and problems of dark side scholarship Collectively the scholarly journeys made in this volume are intended to illustrate the complexities both moral and functional involved in close relationship processes The intent is neither to valorize nor demonize the darker aspects of close relationships but rather to emphasize their importance to the day to day doing of relationships Only by accepting such processes as integral to relationships can their role be fully understood **The Developmental Course of Romantic Relationships** Brian G.
