Buzzing Hemisphere / Rumor Hemisférico Urayoán Noel, 2015-09-24 Is poetry an alternative to or an extension of a globalized language In *Buzzing Hemisphere Rumor Hemisférico* poet Urayoán Noel maps the spaces between and across languages cities and bodies creating a hemispheric poetics that is both broadly geopolitical and intimately neurological In this expansive collection we hear the noise of cities such as New York San Juan and São Paulo abuzz with flickering bodies and the rush of vernaculars as untranslatable as the murmur in the Spanish rumor Oscillating between baroque textuality and vernacular performance Noel s bilingual poems experiment with eccentric self translation often blurring the line between original and translation as a way to question

language hierarchies and allow for translingual experiences A number of the poems and self translations here were composed on a smartphone or else de and re composed with a variety of smartphone apps and tools in an effort to investigate the promise and pitfalls of digital vernaculars Noel s poetics of performative self translation operates not only across languages and cultures but also across forms from the d cima and the staircase sonnet to the collage the abecedarian poem and the performance poem In its playful and irreverent mash up of voices and poetic traditions from across the Americas Buzzing Hemisphere Rumor Hemisf rico imagines an alternative to the monolingualism of the U S literary and political landscape and proposes a geo neuro political performance attuned to damaged or marginalized forms of knowledge perception and identity **History of Spanish Literature** George Ticknor,1872 **Catalog of Copyright Entries.**

Octavio de Toledo y Huerta,2014-07-31 Since the advent of syntactic cartography left sentence peripheries have begun to take center stage in linguistic research Following the lead of Rizzi 1997 much work on left peripheries has been focused on Italian whereas other Romance languages have attracted somewhat less attention This volume offers a well balanced set of articles investigating left sentence peripheries in Spanish Some articles explore the historical evolution of left dislocation and fronting operations

while others seek to assess the extent and the limits of variation found between different geographical varieties and registers of the contemporary language Moreover the volume comprises several case studies on the interfaces between syntax semantics and information structure and the implications of these for pragmatic interpretation and the organization of discourse Cross linguistic and typological perspectives are also provided in due course in order to position the analyses developed for Spanish within a larger research context
