Topics in Musical Interpretation Sezi Seskir, David Hyun-su Kim, 2022-09-29. While interpretation of musical scores is amongst the most frequent of musical activities, it is also strangely one of the least researched. This collection of essays seeks to remedy this deficit by illuminating ways in which today's curious musician interested in probing beyond the dictates of a faintly understood score can engage more deeply and thoughtfully with the act of interpretation. Skilful musical interpretation draws on a vast range of knowledges. The chapters of this collection accordingly address a similarly broad set of issues including notation, rhetoric, theory, historiography, performers past and present, instrument builders, concert presenters, reception history, and more. Written by leading experts from a variety of musical subdisciplines, these essays are designed to be accessible and practically relevant for musical performance. Many of the chapters utilize case studies and as such will be useful for university and conservatory level students as well as music scholars. The chapters in this book were originally published as a special issue of the *Journal of Musicological Research*.

The Oxford Handbook of the Hollywood Musical Dominic McHugh, 2022. In *The Oxford Handbook of the Hollywood Musical*, leading scholars examine the history of a defining film genre from its very roots to the present, analyzing its tropes and problems over the past 8 decades of film history.

The Cambridge History of the American Essay Christy Wampole, Jason Childs, 2023-12-14. From the country's beginning, essayists in the United States have used their prose to articulate the many ways their individuality has been shaped by the politics, social life, and culture of this place. *The Cambridge History of the American Essay* offers the fullest account to date of this diverse and complex history. From Puritan writings to essays by Indigenous authors, from Transcendentalist and Pragmatist texts to Harlem Renaissance essays, from New Criticism to New Journalism, the story of the American essay is told here, beginning in the early eighteenth century and ending with the vibrant heterogeneous scene of contemporary essayistic writing. The essay in the US has taken many forms: nature writing, travel writing, the genteel tradition, literary criticism, hybrid genres such as the essay film and the photo essay. Across genres and identities, this volume offers a stirring account of American essayism into the twenty-first century.

Nationalist and Populist Composers Steve Schwartz, 2017-12-22. Populism and nationalism in classical music held a significant place between the world wars, with composers such as George Gershwin, Aaron Copland, and Leonard Bernstein creating a soundtrack to the lives of everyday

Americans While biographies of these individual composers exist no single book has taken on this period as a direct contradiction to the modernist dichotomy between the music of Stravinsky and Schoenberg In *Nationalist and Populist Composers Voices of the American People* Steve Schwartz offers an overdue correction to this distortion of the American classical music tradition by showing that not all composers of this era fall into either the Stravinsky or Schoenberg camps Exploring the rise and decline of musical populism in the United States Schwartz examines the major works of George Gershwin Randall Thompson Virgil Thomson Aaron Copland Roy Harris Kurt Weill Morton Gould and Leonard Bernstein Organized chronologically chapters cover each composer s life and career and then reveal how key works participated in populist and nationalist themes Written for the both the scholar and amateur enthusiast interested in modern classical music and American social history *Nationalist and Populist Composers* creates a contextual frame through which all audiences can better understand such works as *Rhapsody in Blue* *Appalachian Spring* and *West Side Story* **Virgil Thomson, Music Critic of the New York Herald Tribune, 1940-1954** Nancy Rutherford Hawkins, 1986 **A Chronicle of American Music, 1700-1995** Charles J. Composers on Composers John L. Holmes, 1990-01-08 This reference provides a new perspective on the work of music s great composers from Bach to Stravinsky by compiling the comments and criticism offered by other composers such as Mahler Wagner Ravel Tchaikovsky and many others Holmes presents an assessment of composers and musical developments as seen not specifically by the critics but by the composers peers While acknowledging that not all composers were necessarily perceptive critics and that few were able to sufficiently distance themselves from their own and others work to be objective the book offers many insights in the comments made by composers The book is organized into 78 short chapters each focussing on one composer and relating the complimentary or caustic comments made about him by as many as 20 other composers The chapters are arranged alphabetically by composer and presented in a narrative form offering years of birth and death and an introductory sentence along with the quotations The sources of all quotations are documented in a separate note section and an index of the 85 composers quoted and their subjects is also included More than just a book of musical anecdotes this reference will be an important addition to both public and university libraries It will also be of interest to scholars of music criticism and history critics and writers who will find it a useful source of quotes and the general reader
