Virgin Or Vamp How The Press Covers Sex Crimes:

Virgin or Vamp Helen Benedict, 1993-09-09 The national press has recently lavished coverage on several major sex related scandals the Clarence Thomas Anita Hill hearings the William Kennedy Smith rape trial and the Mike Tyson case With each event came lurid stories pitting either a loose or a virginal woman against an unwilling or monstrous man Such extreme coverage argues Helen Benedict perpetuates myths that are harmful to the victims of these crimes and sometimes to the accused With the rise in reported rapes more such myth mongering stories are bound to be seen in the future In *Virgin or Vamp* Benedict addresses the press's tendency to misrepresent rape denigrate victims and invade the privacy of its subjects while also pointing out the press's critical role in informing and educating the public In this timely book Benedict draws on her experience as a reporter and professor of journalism to examine the print press's treatment of four prominent sex crimes from the past decade the Rideout marital rape trial in Oregon the Big Dan's pool table gang rape in New Bedford Massachusetts the Preppy Murder in New York and the Central Park jogger rape By analyzing the language of the original news stories and interviewing the original reporters Benedict identifies the press's tendency to label victims as either virgins or vamps a practice she condemns as misleading and harmful For example she finds that the press worked so hard at portraying Jennifer Levin the victim of the Preppy Murder as a man chasing vamp that it made her seem as responsible for her death as was her killer Robert Chambers Likewise Benedict shows how the press depicted Greta Rideout as a hysterical wife who accused her husband of rape for revenge rather than as a victim of domestic battery who eventually escaped the truth of the case Benedict also looks at other factors that perpetuate the misunderstanding of rape For instance she shows how the New York press presented the Central Park jogger rape case as motivated by racism because of its unwillingness to consider rape an issue of gender She also addresses our inherent language bias more positive words exist to describe men than women the press's tendency to use sexually suggestive language to describe crime victims and its preference for crimes against whites In her conclusion Benedict analyzes the William Kennedy Smith rape case and argues that the debate over naming victims is misconceived in light of the press's current lack of understanding about rape More than a critique about the way the print press covers sex crimes *Virgin or Vamp* also reveals the roots of rape coverage in the days of lynching and shows how deep traditionalist views of women still run Benedict concludes with both practical and radical suggestions of how reporters can challenge such views by covering these increasingly common crimes without further harming the victims the defendants or public understanding

Media Disparity Cory L. Armstrong, 2013-10-29 For decades scholars have repeatedly found the inequity of gender representations in informational and entertainment media Beginning with the seminal work by Gaye Tuchman and colleagues we have repeatedly seen a systemic underrepresentation and misrepresentation of women in media Examining the latest research in discourse and content analyses trending in both domestic and international circles *Media Disparity A Gender Battleground* highlights the progress or lack thereof in media regarding portrayals of women

across genres and cultures within the twenty first century Blending both original studies and descriptive overviews of current media platforms top scholars evaluate the portrayals of women in contemporary venues including advertisements videogames political stories health communication and reality television **Documenting Gendered Violence** Lisa M. Cuklanz, Heather McIntosh, 2015-02-26 Examines documentaries centered on gendered violence exploring ways in which this genre has followed the lead of more mainstream media *Rape* Mithu Sanyal, 2019-05-14 A bold honest and unflinching look at the way we talk and think about rape Thanks to Title IX cases MeToo and Times Up the issue of rape seems to be constantly in the news But our thinking on the subject has a long history one that cultural critic Mithu Sanyal elegantly reconstructs She narrates a history spanning from Lucretia whose legendary rape and suicide was said to be the downfall of the last Roman king to second wave feminism Tarzan and Roman Polanski Sanyal demonstrates that the way we understand rape is remarkably and alarmingly consistent across the ages even though the world has changed beyond recognition It is high time for a new and informed debate about sexual violence sexual boundaries and consent Mithu Sanyal shows that our comprehension of rape is closely connected to our understanding of sex sexuality and gender Why is it that we expect victims to be irreparably damaged When we think of rapists why do we think of strangers rather than uncles husbands priests or boyfriends And in the era of MeToo what should justice look like *Rape* From Lucretia to MeToo examines the role of race and the recurrent image of the black rapist the omission of male victims and what we mean when we talk about rape culture Sanyal takes on every received opinion we have about rape arguing with liberals conservatives and feminists alike

focusing on organized advocacy to make the public spaces of American cities accessible to women She traces waves of activism from the Progressive Era with its calls for public restrooms safe and accessible transportation and public accommodations through and beyond second wave feminism and its focus on the creation of alternative women only spaces and extensive anti violence efforts In doing so Hickey explores how gender segregation intertwined with other systems of social control as well as how class race and sexuality shaped activists agendas and women s experiences of urban space Drawing connections between the vulnerability of women in public spaces real and presumed and contemporary debates surrounding rape culture bathroom bills and domestic violence Hickey unveils both the strikingly successful and the incomplete initiatives of activists who worked to open up public space to women Research Bulletin ,1995 **The**
