Women Of The Right Comparisons And Interplay Across Borders:

Women of the Right Kathleen M. Blee, Sandra McGee Deutsch, 2012 An interdisciplinary collection of essays examining the role of women in right wing political activism around the world from the Afrikaner movement in South Africa in the early twentieth century to the supporters of Sarah Palin in the United States Provided by publisher **Gendering Antifascism** Sandra McGee Deutsch, 2023-09-05 Argentine women's long resistance to extreme rightists tyranny and militarism culminated in the Junta de la Victoria or Victory Board a group that organized in the aftermath of the German invasion of the Soviet Union in defiance of the neutralist and Axis leaning government in Argentina A sewing and knitting group that provided garments and supplies for the Allied armies in World War II the Junta de la Victoria was a politically minded association that mobilized women in the fight against fascism Without explicitly characterizing itself as feminist the organization promoted women's political rights and visibility and attracted forty five thousand members The Junta ushered diverse constituencies of Argentine women into political involvement in an unprecedented experiment in pluralism coalition building and political struggle Sandra McGee Deutsch uses this internationally minded but local group to examine larger questions surrounding the global conflict between democracy and fascism **Border Politics** Nancy A. Naples, Jennifer Bickham Mendez, 2015 In the current historical moment borders have taken on heightened material and symbolic significance shaping identities and the social and political landscape Borders defined broadly to include territorial dividing lines as well as sociocultural boundaries have become increasingly salient sites of struggle over social belonging and cultural and material resources How do contemporary activists navigate and challenge these borders What meanings do they ascribe to different social cultural and political boundaries and how do these meanings shape the strategies in which they engage Moreover how do these social movements confront internal borders based on the differences that emerge within social change initiatives Border Politics edited by Nancy A Naples and Jennifer Bickham Mendez explores these important questions through eleven carefully selected case studies situated in geographic contexts around the globe By conceptualizing struggles over identity social belonging and exclusion as extensions of border politics the authors capture the complex ways in which geographic cultural and symbolic dividing lines are blurred and transcended but also fortified and redrawn This volume notably places right wing and social justice initiatives in the same analytical frame to identify patterns that span the political spectrum Border Politics offers a lens through which to understand borders as sites of diverse struggles as well as the strategies and practices used by diverse social movements in today's globally interconnected world Contributors Phillip Ayoub Renata Blumberg Yvonne Braun Moon Charania Michael Dreiling Jennifer Johnson Jesse Klein Andrej Kurnik Sarah Maddison Duncan McDuie Ra Jennifer Bickham Mendez Nancy A Naples David Paternotte Maple Razsa Raphi Rechitsky Kyle Rogers Deana Rohlinger Cristina Sanidad Meera Sehgal Tara Stamm Michelle T llez **Extreme Britain** Elizabeth Pearson, 2024-01-01 Drawing on interviews with extremists this timely study explores the relationship between gendered

culture and political radicalism using Britain as a case study **New Books on Women and Feminism** ,2014 **New Books on Women, Gender and Feminism** ,2014 □□□□□□ □□□□,2014-02-28 The Writers Directory ,2013 The Publishers' Trade List Annual ,1998 *Stanford Bulletin* ,2000 Asian Art, Part II Asia House Gallery,1975

Stone-Mediatore,2004-01-20 In light of postcolonial and feminist critiques of experience and identity how can feminists engage stories of marginalized peoples experience in the development of feminist theories and modes of activism that take account of the diversity of women s situations How can feminists use the powerful tools of storytelling in ways that do not essentialize or objectify marginalized women Shari Stone Mediatore brings together the theoretical perspectives of Hannah Arendt and postcolonial theory to develop a post positivist account of narrative which can form the basis for a progressive feminist politics **Cross-Border Solidarities in Twenty-First Century Contexts** Janet M. Conway,Pascale Dufour,Dominique Masson,2024-04-08 Conditions for global solidarities and social movements have changed radically since their high point in the 1990s United Nations conferences This collection considers how political solidarities are being understood and constructed in a variety of cross border struggles and for what ends under twenty first century conditions In studies grounded in different world regions at a variety of scales authors address how the Cold War divide and its aftermath have structured contemporary asymmetries in European LGBT movements and in global feminisms how colonial difference in Latin America confronts feminist and social justice movements with problems of translation across worlds how travelling concepts essential to constructing solidarities across distance and difference traverse linguistic divides and attendant power imbalances in world cities and transnational networks how rurality as a form of colonial difference challenges established categories of intersectional feminism Feminist politics of power and difference and attention to gendered agency are at the centre of this inquiry into the possibility of twenty first century solidarities across borders Women in Transition Maria-José Blanco,Claire Williams,2021-05-06 This volume brings together scholars students and writers as well as artists from around the world By choosing a thematic focus on transition in women s lives we present research on women who have crossed biological geopolitical and political borders as well as emotional sexual cultural and linguistic boundaries The international approach brings together different cultures and genres in order to emphasize the links and connections that bind women together rather than those which separate them The

chapters consider the ways in which the changes and transitions women undergo influence the world we live in We are particularly interested in the idea of crossing borders and how this influences identity and belonging and the theme of crossing boundaries in the context of motherhood as well as sexual orientation The topic is timely given the waves of migration all around the world in recent times The contributors deal with issues central to contemporary life such as gender equality and women s empowerment as well as understanding women s identities and being sensitive to fluid concepts of gender and sexuality

Sisters in the Mirror Elora Shehabuddin, 2021-08-24 Taking a transnational approach this book challenges the belief that the Muslim world is unrelentingly antifeminist The author challenges assumptions about inevitable civilizational antagonism between the West and the Muslim world a notion that has become increasingly popular in recent decades and of a lag in the emergence of feminism in the latter While it shouldn t be controversial to insist that male bias and privilege are present in Western as well as in Muslim majority societies it is more difficult to show how and why efforts to improve women s lives in even these geographically distant parts of the world have long been interconnected and interdependent *Sisters in the Mirror* is a feminist story about how changing global and local power disparities between Europeans and Bengalis between Brahmos Hindus and Muslims within Bengal between feminists of the global North and South and between Western and Muslim feminists have shaped ideas about change in women s lives and also the strategies by which to enact change With the lasting shift in the balance of economic political and military power between Muslim and Euro American nations toward the latter since the eighteenth century Muslim advocates for women s rights have had to define their agendas for reform in the shadow of Western imperial and economic power The stories in this book show that no society has a monopoly on ideas about justice and fairness in the matter of women s or any other group s rights or for that matter on male bias violence and injustice no community is isolated or pure and people everywhere are enriched by open minded encounters with people who eat dress and pray differently or don t pray at all

Women on the Right Clarisse Berthezène, Laura Lee Downs, Julie V. Gottlieb, 2025-01-09 *Women on the Right* explores the complex relationships between conservative and right wing politics social action and women actors from the late 19th to the late 20th century Edited by Clarisse Berthezène Laura Lee Downs and Julie V Gottlieb each essay examines the spectrum of women s engagement with right wing politics from centrist and progressive conservatism groups to authoritarianism and fascism This book uses local and national case studies to explore a wide range of women s social and political mobilizations Using a bottom up perspective it stays focused on the ideas ambitions and practices of the actors themselves Key points of comparison include the very different roles played by religious institutions and associations the broader regional and national contexts and the dynamics that favour or not the eventual construction of welfare states *Women on the Right* consistently adopts a multinational and multidimensional approach by bringing together a team of expert contributors to engage in a discussion of the comparative and transnational features of right wing women s political thought and practice The result is a unique contribution to the

historical understanding of women s participation in and ideas about conservative activism
