Women Poetry And Politics In Seventeenth Century Britain:

Women, Poetry, and Politics in Seventeenth-Century Britain Sarah C. E. Ross, 2015-02-26 *Women Poetry and Politics in Seventeenth Century Britain* offers a new account of women's engagement in the poetic and political cultures of seventeenth century England and Scotland based on poetry that was produced and circulated in manuscript. Katherine Philips is often regarded as the first in a cluster of women writers including Margaret Cavendish and Aphra Behn who were political secular literary print published and renowned. Sarah C. E. Ross explores a new corpus of political poetry by women offering detailed readings of Elizabeth Melville, Anne Southwell, Jane Cavendish, Hester Pulter, and Lucy Hutchinson and making the compelling case that female political poetics emerge out of social and religious poetic modes and out of manuscript based authorial practices. Situating each writer in her political and intellectual contexts from early covenanting Scotland to Restoration England, this volume explores women's political articulation in the devotional lyric, biblical verse, paraphrase, occasional verse, elegy, and emblem. For women excluded from the public political sphere, these rhetorically modest genres and the figural language of poetry offered vital modes of political expression and women of diverse affiliations use religious and social poetics, the tropes of family and household, and the genres of occasionality that proliferated in manuscript culture to imagine the state. Attending also to the transmission and reception of women's poetry in networks of varying reach, Sarah C. E. Ross reveals continuities and evolutions in women's relationship to politics and poetry and identifies a female tradition of politicised poetry in manuscript spanning the decades before, during, and after the Civil Wars.

Domestic Arrangements in Early Modern England Kari Boyd McBride, 2002 This book provides a varied and rich array of perspectives on a wide range of early modern English social roles and relationships as well as cultural norms and areas of contestation It demonstrates the many ways in which the attitudes and activities that pertain to the domestic sphere are not in any way peripheral to the study of the period domestic arrangements are political arrangements This rich collection of 11 essays illuminates the many ways in which the domestic sphere served as a stage for playing out the pressing questions that perplexed the writers and thinkers of early modern England questions about family householding marriage children and parenting as well as questions about emerging political realities While home may seem to invoke blood ties the mother with a child at her breast or siblings at play it is finally the bonds that replace blood that demand the mythos of domestic arrangements in all their variety from the legal social economic and cultural ties of marriage sealed by the exchange of women from man to man and house to house to the relationships of stepparents and stepchildren to the even more tenuous ties that bind class to class and citizen to citizen **The Saturday Review of Politics, Literature, Science, Art, and Finance** ,1874 **Donne and the Politics of Conscience in Early Modern England** Meg Lota Brown, 1995 This work argues that casuistry provided an important resource for Donne and others caught in the welter of conflicting laws and religions in post Reformation Europe Focussing on Donne's works the book also examines the political historical and theological discourses in which Donne's view of authority and interpretation took shape
