

Movie	Wonder	반: 번호: 이름:
Scene #6 (26:26~31:28)		
(26:34) Via : August is the sun. My mom and dad and me are planets orbiting the sun. But I love my brother and I'm used to the way this <u>universe</u> works. My mom says that on my fourth birthday I wished for a little brother. And when he was born, it only took me a few seconds and I was all over him. <i>Can you hear me? If they stare, let them stare. You can't blend in when you were born to stand out.</i> I've never asked my mom for help with my homework. I never needed my dad to remind me to study for a test. I just did most of my studying in waiting rooms and hospitals. Mom and Dad would always say I was the most understanding girl in the world. I don't know about that. I just knew my family couldn't take one more thing.		
• orbit: 궤도를돌다 • planet: 행성 • used to~ : ~하는 것에 익숙하다 • universe : 우주 • be all over~ : ~에게 푹 빠지다 • blend in (with~) : ~와 조화를 이루다 • stand out : 뛰어나다, 빼어나다, 두드러지다		Via : 어거스트는 태양이다. 엄마와 아빠와 나는 태양을 도는 행성이다. 그러나 나는 내 동생을 사랑하고 나는 이 _____에 익숙하다. 엄마가 얘기하길, 나의 네 번째 생일날에 내가 동생을 원했다고 얘기한다. 그리고 어기가 태어나자마자 동생에게 푹 빠졌다고 한다. <i>내 말 들리니? 만약 그들이 _____[하]면, _____라고 해. 돌보이게 태어나면 섞이기 힘든 거야.</i> 나는 엄마에게 한번도 숙제를 도와달라고 해 본 적 없다. 아빠가 내게 시험공부를 하라고 해야할필요도 없었다. 나는 대부분의 공부를 대기실과 병원에서 했다. 엄마와 아빠는 아마도 내가 세상에서 가장 이해심이 깊은아이라고 얘기할 것이다. 나는 잘 모르겠다. 단지 우리 가족에게 문제를 하나 더 만들고 싶지 않았다. 1. Via의 절친의 이름은 무엇인가요? 2. Justin은 어느 동아리에 가입했나요?

Wonder 6 Students :

A Learning Community of Reflective Teachers Neeraja Raghavan, 2024-02-06 Teachers possess a wealth of untapped wisdom and valuable experience. Be it educational policy curriculum development or textbook selection, rare are the instances when teachers' views are solicited. Traditionally, teacher development has been driven by administrators of schools and it often takes the form of a mentor teaching the staff of a school. But what happens when teachers across different locations collaborate and learn together? This volume documents such an initiative sparked off by the Covid 19 pandemic which brought people together online. It showcases the power of teachers debating, discussing and learning from each other. Based on an Indian experience, this book addresses a range of issues that teachers and educators across the world face encompassing pedagogy, classroom management, school culture and teacher development. A unique story of community building and teacher education, this book also contains key outcomes and insights while taking us through their action research projects. It showcases a model of teacher development that can be adopted by interested readers anywhere in the world. Above all, it brings out the crying need for a teacher's voice to be heard for far too long. Teachers have been mere implementers of decisions taken by policymakers or managements of schools. By means of networking communities such as the one described in this book, the transformation of teachers going from whispers to resonance is greatly amplified. An important intervention in the domain of teacher development, this volume will be of great interest to students, researchers, educators, teacher educators and sociologists of education. It will also be useful for teacher trainees, academicians, policymakers, schoolteachers, curriculum developers, teacher training institutes and universities offering teacher education programmes.

Small Wonder Jonathan Zimmerman, 2009-07-14 This engaging book examines the history of the one room school and how successive generations of Americans have remembered and just as often misremembered this powerful national icon.

Where's the Wonder in Elementary Math? Judith McVarish, 2012-08-21 This book argues that even in today's high stakes testing environment, teaching to the test need not be teachers' only focus as they introduce young children to mathematics. Judith McVarish demonstrates how building a community of learners and using problem solving to engage students can help teachers encourage students' disposition to creative thinking and reasoning skills that can otherwise become lost due to the pressure of the many other expectations placed upon both teachers and students. This book offers strategies for infusing mathematics learning and reasoning into elementary school classrooms while meeting curriculum and testing mandates. The teacher researcher component of each chapter provides a vehicle for teachers to bring their own expertise and questions back into the teaching and learning equation.

Wonder-full Experiences in Music Education Aimee Beaulieu Schmidt, 2022 The question of how musical coordination in a school wind band is addressed by pedagogues was qualitatively reconstructed using videographic interaction analysis. A process of *Hervorhebungspraktik* (practice of highlighting) was observed which gradually brought musical elements out of their temporal context and into collective

perception allowing both atmospheric interaction with content and the growth of professional vision A process of deconstruction and reintegration takes place as musical elements now present in collective consciousness withdraw back into the piece as a whole This necessitates an educational approach emphasizing not only the elements themselves but the relationships between them The realms of edusemiotics and phenomenology give us a pragmatic way in both a Deweyan and a Peircean sense to approach learning in music making that goes beyond the idea of co constructivism as content with agency teacher and student participate in coordinative interaction Aimee Beaulieu Schmidt is a native Texan with teaching experience in American and German public education As a band director and orchestral musician she has helped build music education programs on two continents She lives with her husband and two daughters near Frankfurt Germany Her research focuses on musical coordination edusemiotics and qualitative video analysis Aimee Beaulieu Schmidt is a native Texan with teaching experience in American and German public education As a band director and orchestral musician she has helped build music education programs on two continents She lives with her husband and two daughters near Frankfurt Germany Her research focuses on musical coordination edusemiotics and qualitative video analysis
