Effective and Reflective Practices for All Students goes beyond the typical inclusion text in its reflective discussions on how to teach students with varying learning abilities. Words Their Way Donald R. Bear, Shane Templeton, Marcia Invernizzi, 1996. With more than 15 years of extensive observations and experiences in real classrooms, the authors bring keen insight to this activity-based book. They advocate basing student learning on the appropriate developmental level. This philosophy is supported with more than 250 ready-to-use word study, spelling, vocabulary, and phonics activities presented in developmental sequence from the Emergent through the Derivational Relation stage. For educators and school administrators.

Teaching Language and Literacy James F. Christie, Carol Vukelich, Billie Enz, 2007. This text does an exemplary job of presenting current early literacy research and methods in a manner that can be understood and respected. Also, its emphasis upon workshop-based instruction is very appealing to me as a long-time advocate for this approach to literacy.

Scott A. L. Beck, Georgia Southern University. The third edition of *Teaching Language and Literacy: Preschool Through the Elementary Grades* integrates a constructivist emergent literacy perspective with science-based instructional practices. This unique focus on theories and techniques that have proven to be successful helps pre-service and in-service teachers translate principles into classroom practice. Perfect for any course with a focus on language, the book covers the development and teaching of both oral and written language in preschool through elementary grades. Its emphasis on diversity includes special features that describe how teachers can adjust instruction to meet the needs of second language and bilingual learners. In addition, the third edition focuses on scientifically based reading research (SBR) throughout, blending these findings with other perspectives in a value-added approach to language and literacy teaching and learning. New features include:

- Emphasis on a blended approach to language and literacy instruction, including both authentic learning linked to activities and developmentally appropriate teaching.
- Activities such as Linking Knowledge to Practice help students connect theory to practices they observe in preschool and kindergarten classrooms.
- In-depth coverage of new federal and state literacy initiatives, standardized literacy assessments, and latest practices in ongoing literacy assessment.
