Workplace Injuries And Diseases Workplace Injuries And Diseases:

Workplace Injuries and Diseases Karen Roberts, John F. Burton, Matthew Michael Bodah, Terry Thomason, 2005 The chapters in this volume were originally presented at a conference to honor Terry Thomason held at the University of Rhode Island in March 2004 It is about workplace safety and health and issues related to prevention and compensation for occupational injuries and illnesses a topic to which Terry devoted much of his research life The volume is intended to serve as a detailed introduction to the workers compensation novice but also provide insights to those more familiar with the area

Paul Leigh, 2000 As the debate over health care reform continues costs have become a critical measure in the many plans and proposals to come before us Knowing costs is important because it allows comparisons across such disparate health conditions as AIDS Alzheimer's disease heart disease and cancer This book presents the results of a major study estimating the large and largely overlooked costs of occupational injury and illness costs as large as those for cancer and over four times the costs of AIDS The incidence and mortality of occupational injury and illness were assessed by reviewing data from national surveys and applied an attributable risk proportion method Costs were assessed using the human capital method that decomposes costs into direct categories such as medical costs and insurance administration expenses as well as indirect categories such as lost earnings and lost fringe benefits The total is estimated to be 155 billion and is likely to be low as it does not include costs associated with pain and suffering or of home care provided by family members Invaluable as an aid in the analysis of policy issues Costs of Occupational Injury and Illness will serve as a resource and reference for economists policy analysts public health researchers insurance administrators labor unions and labor lawyers benefits managers and environmental scientists among others J Paul Leigh is Professor in the School of Medicine Department of Epidemiology and Preventive Medicine University of California Davis Stephen Markowitz M D is Professor in the Department of Community Health and Social Medicine City University of New York Medical School Marianne Fahs is Director of the Health Policy Research Center Milano Graduate School of Management and Urban Policy New School University Philip Landrigan M D is Wise Professor and Chair of the Department of Community Medicine Mount Sinai Medical Center New York **Fatal Workplace Injuries in 1992**, 1994 **Fatal**
