Triumph Trauma Yale Cultural Sociology Ebook:

Triumph and Trauma Bernhard Giesen, S. N. Eisenstadt, 2015-12-03 This book deals with triumphant and tragic heroes with victims and perpetrators as archetypes of the Western imagination A major recent change in Western societies is that memories of triumphant heroism for example the revolutionary uprising of the people are increasingly replaced by the public remembrance of collective trauma of genocide slavery and expulsion The first part of the book deals with the heroes and victims and explores the social construction of charisma and its inevitable decay Part 2 focuses on a paradigm case of the collective trauma of perpetrators German national identity between 1945 and 2000 After a time of latency the legacy of nationalistic trauma was addressed in a public conflict between generations The conflict took center stage in vivid public debates and became a core element of Germany's official political culture Today public confessions of the guilt of the past have spread beyond the German case They are part of a new post utopian pattern of collective identity in a globalised setting

Narrating Trauma Ronald Eyerman, Jeffrey C. Alexander, Elizabeth Butler Breese, 2015-10-23 Through case studies that examine historical and contemporary crises across the world the contributing writers to this volume explore the cultural and social construction of trauma How do some events get coded as traumatic and others which seem equally painful and dramatic not Why do culpable groups often escape being categorised as perpetrators These are just some of the important questions answered in this collection Some of the cases analysed include Mao's China the Holocaust the Katyn Massacre and the Kosovo trauma Expanding the pioneering cultural approach to trauma this book will be of interest to scholars and postgraduate students of sociology

Cultural Trauma and Collective Identity Jeffrey C. Alexander, 2004-03-22 Five sociologists develop a theoretical model of cultural trauma build a new understanding of how social groups interact with emotion to create new binding understandings of social responsibility

Memory, Trauma, and Identity Ron Eyerman, 2019-04-09 This volume brings together Ron Eyerman's most important interventions in the field of cultural trauma and offers an accessible entry point into the origins and development of this theory and a framework of an analysis that has now achieved the status of a research paradigm This collection of disparate essays published between 2004 and 2018 coheres around an original introduction that not only provides a historical overview of cultural trauma but is also an important theoretical contribution to cultural trauma and collective identity in its own right The Afterword from esteemed sociologist Eric Woods connects the essays and explores their significance for the broader fields of sociology behavioral science and trauma studies

Trauma Jeffrey C. Alexander, 2012-07-16 Alexander describes the idealizing discourse of globalization as a trauma response to the Cold War
