Ingeborg Toemmel

Understanding The European Union A Concise Introduction The European Union Series:

Understanding the European Union John McCormick, 2020-11-13 This is the must have leading introduction to the European Union Offering an ideal primer on the EU's history institutions and politics this concise textbook also covers the various challenges and opportunities faced by the EU from the democratic deficit and the potential of future enlargement to the spread of nationalism and crises such as Brexit and the impact of the global pandemic Understanding the European Union is now more crucial than ever and this text provides a succinct but nuanced account of its development and how it works This book will be the ideal guide for all undergraduate and postgraduate courses in political science global affairs and European Studies It is also a suitable starting point for anyone seeking to learn more about the EU New to this Edition A number of key themes and issues run throughout the book including past and ongoing crises facing the EU the EU's place within the broader international system a focus on the EU's comparative political social and economic context the confederal qualities of the EU and Brexit Addresses the early impact of the global pandemic on the EU Greater use of maps figures tables and boxes where useful to inform the analysis accompanied by up to date further reading Informed throughout by sophisticated yet accessible treatment of theory including post functionalism and critical perspectives Cutting edge coverage of Brexit and negotiations around withdrawal

Understanding the European Union John McCormick, 2008-05-15 An immediate success on first publication Understanding the European Union provides a broad ranging but concise introduction to the EU covering all major aspects of European integration This revised and updated new edition includes fuller coverage of policy and policy making and of theoretical approaches to the study of the EU

Understanding the European Union John McCormick, 2025 This is the must have introduction to the European Union Offering a primer on the EU's history institutions and politics this concise textbook also covers the various challenges and opportunities faced by the EU from the democratic deficit and the potential of future enlargement to the spread of nationalism and crises such as Brexit and the impact of the global pandemic This book will be the ideal guide for all undergraduate and postgraduate courses in political science global affairs and European studies It is also a suitable starting point for anyone seeking to learn more about the EU Provided by publisher

What is the European Union Paul Magnette, 2017-09-16 This distinctive new text provides an overview and assessment of key debates about the political character of the EU Arguing that it is best seen as an international organization albeit of a particularly integrated kind Paul Magnette shows how the need to accommodate a range of state interests shapes the EU political system and assesses the implications for its democratic functioning for institutions and policy and for Europeanization and integration

Understanding Euroscepticism Cécile Leconte, 2010-08-31 This timely text provides a concise and readable assessment of the dynamics character and consequences of opposition to European integration at all levels from elites and governments through parties and the media to voters and grass roots organizations

The European Union and the United States Steven McGuire, Michael Smith, 2008-05-14 This major new text by leading authorities takes a

broad interdisciplinary approach to the changing relationship between the EU and the US in the 21st century and its historical global and domestic context The authors focus on the contrast between the policy convergence and interdependence on the one hand and the intense competition on the other

The Political System of the European Union Simon Hix, Bjørn Høyland, 2011-03-01 The 3rd edition of this bestselling core textbook continues to give an innovative approach to analyzing researching and teaching the European Union Starting from the observation that the EU now possesses many of the attributes of modern political systems Hix and H yland argue that we should use the general theories of political science to help understand how the EU works For each of the main processes in the EU political system executive legislative and judicial politics public opinion interest groups and democracy and regulatory monetary and foreign policies the book introduces the key political science tools reviews the relevant theories and applies the knowledge in detailed descriptive analysis The third edition of this highly acclaimed and groundbreaking text has been fully revised and rewritten throughout As well as incorporating new data and the latest research it examines the consequences of key developments in the EU from enlargement to the Lisbon treaty and the 2009 European Parliament election To enhance teaching and learning our companion website is packed with resources for both teachers and lecturers Used together this creates an indispensable and accessible companion to all upper level undergraduate and Master s courses with a focus on EU Politics The methodology used in this book seeks to make the make the political system of the EU accessible to political science students as a whole as well as those specifically studying the EU New to this Edition Fully updated to cover impact of the Lisbon Treaty and latest European Parliament elections More emphasis on explanation and debates in presentation of empirical information More concise and accessible presentation of the latest research and data

Analyzing the European Union Policy Process Esther Versluis, Mendeltje van Keulen, Paul Stephenson, 2010-10-15 Readers are provided with a practical insight into how to analyze policies and policy making in the EU Using case studies to deepen readers understanding this book examines the various stages of the policy process from the moment the issue reaches the agenda through to drafting implementation and evaluation

The European Union and Global Capitalism Magnus Ryner, Alan Cafruny, 2016-12-16 This book draws on critical theory to introduce readers to ways of exploring questions about the EU from a political economy perspective questions like Does the EU help or hinder Europe s social models to face the challenges of globalization Does the EU represent a break from Europe s imperial past What were the causes of the Eurozone crisis

Constitutionalizing the European Union Thomas Christiansen, Christine Reh, 2009-03-31 Enlargement and treaty reform have moved Europe s constitutional debate into the political spotlight This important new text outlines the main themes of constitutional debate in the EU analyzes formal and informal constitution building since the early days of European integration and introduces the actors and structures behind treaty change

The European Union and the United States Jost Morgenstern-Pomorski, Terrence Guay, Michael Smith, 2024-11-14 In this thoroughly revised edition of *The European Union*

and the United States authors Smith Guay and Morgenstern Pomorski delve deep into the complexities of the EU US relationship amidst pivotal shifts on the global stage By examining the relationship through the lens of competition convergence and crises this textbook goes beyond narrow focuses on the EU US relationship offering a nuanced analysis of changing dynamics It stands as the definitive and all encompassing guide to transatlantic relations considering recent developments in business trade political economy and foreign policy while carefully navigating the commonalities and differences that exist between the EU and the US This updated edition also reflects on contemporary changes such as cyber security climate change the rise of populism and the emergence of global powerhouses like China India and Brazil successfully situating the EU US relationship within a broader international context Throughout the authors diverse academic backgrounds enable an interdisciplinary approach to the material rebalancing content to include international relations comparative politics and management In doing so this textbook provides a holistic view of transatlantic affairs With additional features including focused case studies summary tables and speech extracts this text serves as the ideal companion for higher level undergraduate students and postgraduate students studying EU politics or anyone seeking to deepen their knowledge of the broader subject area

The European Union Ingeborg Toemmel, 2017-08-24 The European Union affects the lives of Europeans in many and varied ways yet in spite of its reach it often appears a constrained political system struggling for internal consensus reliant on the agreement of national governments and hampered by the scepticism of electorates These issues have become even more acute in the wake of the global economic and eurozone crises This new text provides a concise and up to date introduction to the nature of the European Union giving an account of its evolution and structure that makes sense of its current challenges The text analyses the EU's institutional structure and decision making procedures and highlights the manifold conflicts as well as the sophisticated mechanisms for consensus building among the core institutions It explains the ways in which the EU differs from other forms of political order and how this leads to political processes that are characterized by cooperation and conflict In providing this context the author invites readers to a critical assessment of the functioning of the European Union and of the implications of this for its democratic legitimacy and future prospects

The Government and Politics of the European Union Neill Nugent, 2017-09-16 The definitive textbook on EU politics and governance now in its 8th edition has been thoroughly updated to take into account the ongoing developments and evolution of the EU Major changes recent developments and the crises that have befallen the union in recent times are analysed within this context This includes eurozone crisis the migration crisis and the UK's decision to leave the EU Acclaimed author and academic Neill Nugent has written a comprehensive text enabling students with no prior knowledge of the EU to master the subject By detailing the historical evolution of European integration Nugent gives the necessary context to his exhaustive analysis of policies process institutions and treaties This has grown to include two new chapters on Member State Relations and Interest Representation The final section considers concepts and theories with EU

studies providing a succinct accessible introduction to theory which can be read as standalone chapters With a new structure to increase readability and packed with numerous pedagogical features document excerpts case studies maps figures and supported by a fully stocked companion website with resources for both students and lecturers this text is an essential for students new to EU studies This new edition offers New chapters on Member State relations and interest representation Updates on all main institutions policies and processes Authoritative coverage of the main institutions policies and processes of the EU Redesigned textbook with even more pedagogical features New companion website including updates data resources PowerPoint slides and test questions

The Court of Justice of the European Union and the Politics of Law

Sabine Saurugger, Fabien Terpan, 2017-08-24 The Court of Justice of the European Union CJEU is one of the central institutions of the EU and has played a decisive role in European integration As one of the most powerful international courts at a time when political systems around the world are becoming more judicialized it is a key actor to understand in world affairs Yet it is not without controversy As both an interpreter of law and as a political power influencing policy making through its bold case law it has become increasingly criticized in recent years for its perceived activism and distance from the European people Combining the perspectives of a legal scholar and a political scientist this important new text gives a uniquely broad ranging account of the CJEU It introduces readers to the role and function of the Court and explains how it fits into the broader political system and historical evolution of the European Union It examines the constitutional contributions made by the Court and the part it plays in policy making in areas such as the environment gender equality and human rights Drawing on the latest research the book takes full account of recent changes to the place of the Court in the European political system and shows how new forms of governance such as the open method of coordination have had a significant impact on the role the Court is able to play

The External Action of the European Union

Sieglinde Gstöhl, Simon Schunz, 2021-03-26 This groundbreaking new textbook offers extensive coverage of EU External Action studies from its major concepts to the key theories in the field Over the past decades the European Union has progressively developed into a significant global actor in an increasing number of policy fields This long awaited volume looks into different ways of conceptualizing the EU as a global actor the processes and impact of EU external action explanations offered by IR and integration theories the discursive normative practice and gender turns and the decentring agenda for EU external action The book offers a reader friendly guidance on these various ways in which to study the EU as a global actor each chapter introduces one concept approach or theory and illustrates its application by a case study of EU external action In drawing the different perspectives together the book underscores that EU External Action Studies is becoming an academic speciality in its own right Written by leading experts the volume will make essential reading for students scholars and practitioners of EU external action EU External Action Studies nowadays attract attention from scholars and students in International Relations IR Foreign Policy Analysis and interdisciplinary EU Studies as well as from practitioners

Energy

Policy of the European Union Johannes Pollak, Samuel Schubert, Maren Kreutler, 2016-01-07 This broad ranging text provides an analysis and assessment of the European Union's energy policy. It examines the components of the internal energy market alongside energy policy and politics on the international stage and in doing so outlines the increasing importance of this global issue.

The Foreign Policy of the European Union Stephan Keukeleire, Tom Delreux, 2022-02-10 Keukeleire and Delreux demonstrate the scope and diversity of the European Union's foreign policy showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy and that areas such as trade, development, environment and energy are inextricable elements of it. This book offers a comprehensive and critical account of the EU's key foreign relations with its neighbourhood with the US, China and Russia and with emerged powers and argues that the EU's foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes. This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order, the conflict in Ukraine, the migration and refugee crisis, Brexit and Covid 19. The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice. The third edition includes new sections and boxes on strategic autonomy, European arms exports, the EU's external representation, the Brussels Effect and decentring and gender approaches to EU foreign policy. Up to date, jargon free and supported by its own website eufp.eu, this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners.

Britain and the European Union Andrew Geddes, 2013-01-15 Britain's relationship with the EU has always been riddled with doubt, scepticism and awkwardness. This much needed new book examines why, how and with what effect the EU has become such a contentious issue in UK politics. It places the debate in historical context by starting with an overview of debates about membership in the 1950s and 1960s and then goes on to examine the impact of Britain's membership since 1973 across core policy areas including economic and monetary union, agriculture and foreign and security policy. Andrew Geddes outlines major changes in the scope of the European project and assesses how central, devolved and local governments have responded to the EU. The book also assesses the EU's impact on domestic policies, assessing debates within and between the main parties and charting the rise of Euroscepticism as a key trend in contemporary British politics. Engagingly written, this text provides a comprehensive and up to date analysis both of the EU's impact on Britain and of Britain's contribution to the EU.

The European Union and Russia Tuomas Forsberg, Hiski Haukkala, 2016-07-29 This important text provides readers with a systematic and comprehensive overview of the historic and ever evolving relationship between Russia and the European Union and on that basis discusses what the future of relations could look like. The EU's policy towards Russia can be regarded as one of the toughest tests of the credibility of its external relations and in examining the dynamics of the relationship this book poses essential questions.

about the EU's ability to sustain itself as a meaningful entity in world politics. Written by two experts in the field, it analyses the political and institutional development of EU-Russia relations from three perspectives: European studies, Russian studies, and International Relations, including Foreign Policy Analysis. The relationship between the European Union and Russia is of considerable importance to both partners, but whilst there have been many moments of co-operation between the two, tensions have never been far from the surface, and the conflict over Ukraine brought it to a historical nadir. Both have taken steps to strengthen their relationship, but diplomatic stagnation and the challenge of furthering common economic, political, social, and environmental objectives have proved increasingly testing to relations over time. This important text provides readers with a systematic and comprehensive overview of the historic and ever-evolving relationship between Russia and the European Union, suitable for students at undergraduate and postgraduate levels in European Studies, Russian Studies, and International Relations theory.

The European Union and China Thomas Christiansen, Emil Kirchner, Uwe Wissenbach, 2018-12-12. This accessible text offers a comprehensive analysis of the European Union-EU-China relationship as one of the most important in global politics today. Both are major players on the world stage, accounting for 30% of trade and nearly a quarter of the world's population. This text shows how, despite many differences in political systems and values, China and the EU have developed such a close, regular set of interactions at multiple levels, from political/strategic to economic and individual. The authors start with an historical overview of the domestic politics and foreign policy apparatus of each partner to show the context in which external relations are devised. From this foundation, each key dimension of the relationship is analysed: trade and monetary policy, security, culture, and society. The authors show the relative merits of different theoretical perspectives and outline what is next for this complex, ever-changing relationship. At every step, the success of each partner in persuading the other of changing their positions for key strategic interests is explored. What emerges is a multifaceted picture of relations between two sides that are fundamentally different kinds of actors in the international system, yet have many mutual interests and a common stake in the stability of global governance. The first major text to offer an accessible introduction to the multifaceted nature of EU-China relations, this book is an ideal companion for upper undergraduate and postgraduate students on Politics, International Relations, and European Studies courses.

Getting the books **Understanding The European Union A Concise Introduction The European Union Series** now is not type of challenging means.
