Research Opportunities in Supply Chain Transparency ManMohan S. Sodhi, Christopher S. Tang, 2018 More firms than ever before are disclosing provenance of their products results of product testing and suppliers labor practice compliance with western norms in annual reports sustainability reports and press releases besides making it available on third party websites The problem remains however that companies find collecting and disclosing such information not only to be costly and complicated but also do not understand the benefits To motivate further research on supply chain transparency we first report recent examples of companies providing supply chain transparency We also present potential benefits of supply chain visibility and supply chain transparency separately for the company While terminology has not yet been standardized this paper distinguishes visibility managers efforts to learn more about operations upstream in their supply chains from supply chain transparency by which we mean a company disclosing information to consumers investors and other stakeholders about compliance to consumer expected norms in its supply chain operations and products Finally we propose some topics for research on supply chain transparency arranged by stakeholder

Trust Inc. Matthew Yeomans, 2018-04-25 We are entering the age of sustainability a business era where every company big and small must adapt its way of doing business to meet the realities of climate change a finite supply of natural resources evolving attitudes about inequality increasing digitisation and automation At the same time companies must meet the demands of consumers as they adjust to this rapidly changing way of life Supercharging this change in consumer behaviour is social media a communications revolution that is democratising and disrupting society in ways never seen before In this book Matthew Yeomans explains why embracing sustainability is key to helping companies articulate their sense of purpose and their reason to exist in a world where social media is eroding trust in all institutions The book shows how social media has made sustainability a mainstream concern for all society how it compelled companies to be more authentic and accountable in their actions and how it will continue to shape how companies communicate the importance of sustainability to all of society This book is a powerful guide for both communication and marketing professionals in business especially Fortune 500 FTSE 250 companies and agencies on how to use social media to communicate with their audiences and stakeholders in an authentic way It is also a guide text book for the growing field of sustainability communication in higher education
