Smit,2024-08-15 The spirit of the Reformation is often expressed in the well known slogan that Reformed churches are always being reformed according to God s Word ecclesia reformata semper reformanda secundum verbum Dei Over the last century the spirit of this slogan motivated someone like Dietrich Bonhoeffer to argue that the visible form and life of the church should reflect the truth and message of the church Already in his doctoral dissertation called Sanctorum Communio the communion of the saints the young Bonhoeffer combined theological claims and traditions with social theory and analysis in this spirit in an innovative way to study the nature and integrity and witness of the church At the time this was a radical claim with major consequences and challenges for Protestant churches Their life which meant their order structure actions statements convictions public presence and role was to be measured by their gospel which meant their message proclamation convictions claims They could no longer proclaim one truth yet live a different life It was this spirit which led to the well known Theological Declaration of Barmen in 1934 and to the formation of the Confessing Church in Nazi Germany Many called this a moment of truth a status confessionis It was this same spirit which later inspired the struggle in South Africa for the integrity and faithfulness of the church and for the credibility of its message proclamation and witness The contributions in this volume 52 papers essays sermons studies were all produced in this spirit Most of them have not been published before They were all occasional pieces written over several decades in different contexts and for different purposes and audiences yet they all breathe this self critical spirit of the Reformation considering whether the real church the concrete every day actual living church that people know and experience and perhaps belong to truly strives to embody the gospel itself the message which it claims and proclaims They all inquire under different circumstances and in diverse ways about different social forms of the real church from worship to congregation from denomination to ecumenical church from individual believers to movements and organisations whether and how they embody the truth of the church or not Together these contributions tell a story the story of this spirit in South African circles over several decades but also in the ecumenical church in our globalizing world They offer one small glimpse into different concrete moments in the story of this spirit in the
