Vis Vis Mailand Oberitalienische Seen

Wilhelm Hörstel

Vis Vis Mailand Oberitalienische Seen:

Communes and Despots in Medieval and Renaissance Italy John E. Law, 2016-12-05 Building on important issues highlighted by the late Philip Jones this volume explores key aspects of the city state in late medieval and Renaissance Italy particularly the nature and quality of different types of government It focuses on the apparently antithetical but often similar governmental forms represented by the republics and despotisms of the period Beginning with a reprint of Jones s original 1965 article the volume then provides twenty new essays that re examine the issues he raised in light of modern scholarship Taking a broad chronological and geographic approach the collection offers a timely re evaluation of a question of perennial interest to urban and political historians as well as those with an interest in medieval and Renaissance Italy Die oberitalienischen seen ,1908 **Rundreisen in der Schweiz** Max Koch von Berneck, 1894 **Die oberitalienischen Seen** Wilhelm Hörstel, 1925 *“Der” Grenzbote* Josef Löffler, 1897 , **Giangaleazzo Visconti, Duke of Milan (1351-1402)** D. M. Bueno de Mesquita, 2011-06-09 This 1941 volume constitutes the first full account of the life of Giangaleazzo Visconti 1351 1402 the first Duke of Milan *“Der” Salon Marie “von” Stoffella d'alta Rupe*, 1898 *Münchener illustrierte Eisenbahn-Zeitung* , 1899 **The Clash of Legitimacies** Andrea Gamberini, 2018-11-09 The Clash of Legitimacies makes an innovative contribution to the history of the state building process in late medieval Lombardy during the 13th to 15th centuries by illuminating myriad conflicts attending the legitimacy of power and authority at different levels of society Through the analysis of the rhetorical forms and linguistic repertoires deployed by the many protagonists not only the prince but also the cities communities peasants and political factions to express their own ideals of shared political life this volume reveals the depth of the conflicts in which opposing political actors were not only inspired by competing material interests as in the traditional interpretation to be found in previous historiography but also often were guided by differing concepts of authority From this comes a largely new image of the late medieval and early Renaissance state one without a monopoly of force as has been shown in many studies since the 1970s and one that did not even have the monopoly of legitimacy The limitations of attempts by governors to present the political principles that inspired their acts as shared and universally recognized are revealed by a historical analysis firmly intent on investigating the existence in particular territorial or social ambits of other political cultures which based obedience to authority on different and frequently original ideals **Die Woche** ,1911 Allgemeine Staatengeschichte Karl Lamprecht, 1885 **Geschichte Österreichs** Alfons Huber, 1885 **Geschichte Österreichs, von A.
