Observing the Observer Zahid Bukhari, Sulayman Nyang, 2012-01-01 THE collection of papers in this volume documents the study of Islam in American Universities Over the last few decades the United States has seen significant growth in the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U S with Muslim countries migration of Muslims into the country conversion of Americans to Islam U S interests in Arab oil resources involvement of Muslims in the American public square and the tragic events of 9 11 Although there is increasing recognition that the study of Islam and the role of Muslims is strategically essential in a climate of global integration multiculturalism and political turmoil nevertheless the state of Islamic Studies in America is far from satisfactory The issue needs to be addressed particularly as the need for intelligent debate and understanding is continuously stifled by what some have termed an Islam industry run primarily by fly by journalists think tank pundits and cut and paste experts

Brinton, 2015-10-27 The book is an in depth study of Muhammad Mitwall Sha rawi one of the most important religious figures in late twentieth century Egypt Sha rawi was an advisor to the rulers of Egypt as well as being the first Arab television preacher At the height of his career it was estimated that up to 30 000 000 people tuned in to his show each week Much of the academic literature that focuses on Islam in modern Egypt repeats the claim that traditionally trained Muslim scholars suffered the loss of religious

authority Sha rawi however is an example of a well trained Sunni scholar who became a national media sensation He used television for the purpose of renewing religion by popularizing long held theological and ethical beliefs Provided by publisher

The American Journal of Islamic Social Sciences ,1997 *Reading the Bible in Islamic Context* Daniel Crowther,Shirin Shafaie,Ida Glaser,Shabbir Akhtar,2017-11-08 In the current political and social climate there is increasing demand for a deeper understanding of Muslims the Qur an and Islam as well as a keen demand among Muslim scholars to explore ways of engaging with Christians theologically culturally and socially This book explores the ways in which an awareness of Islam and the Qur an can change the way in which the Bible is read The contributors come from both Muslim and Christian backgrounds bring various levels of commitment to the Qur an and the Bible as Scripture and often have significantly different perspectives The first section of the book contains chapters that compare the report of an event in the Bible with a report of the same event in the Qur an The second section addresses Muslim readings of the Bible and biblical tradition and looks at how Muslims might regard the Bible Can they recognise it as Scripture If so what does that mean and how does it relate to the Qur an as Scripture Similarly how might Christian readers regard the Qur an The final section explores different analogies for understanding the Bible in relation to the Qur an The book concludes with a reflection upon the particular challenges that await Muslim scholars who seek to respond to Jewish and Christian understandings of the Jewish and Christian scriptures A pioneering venture into intertextual reading this book has important implications for relationships between Christians and Muslims It will be of significant value to scholars of both Biblical and Qur anic Studies as well as any Muslim seeking to deepen their understanding of the Bible and any Christian looking to transform the way in which they read the Bible **The Metaphysics of Modern Existence** Vine Deloria, Jr.,Daniel Wildcat,David Wilkins,2012-09-01 Vine Deloria Jr named one of the most influential religious thinkers in the world by Time shares a framework for a new vision of reality Bridging science and religion to form an integrated idea of the world while recognizing the importance of tribal wisdom The Metaphysics of Modern Existence delivers a revolutionary view of our future and our world Culture, Religion and Conflict in Muslim Southeast Asia Joseph A. of actors who might be well placed to make useful contributions propose remedies and initiate action towards negotiating the region's pluralism. This book provides a much needed regional and comparative analysis that makes a significant contribution to a better understanding of the interfaces between region and politics in Southeast Asia. **Understanding Peace**

Cultures Rebecca L. Oxford, 2014-03-01 Understanding Peace Cultures is exceptionally practical as well as theoretically grounded. As Elise Boulding tells us, culture consists of the shared values, ideas, practices, and artifacts of a group united by a common history. Rebecca Oxford explains that peace cultures are cultures, large or small, which foster any of the dimensions of peace: inner, interpersonal, intergroup, international, intercultural, or ecological, and thus help transform the world. As in her earlier book *The Language of Peace: Communicating to Create Harmony*, Oxford contends here that peace is a serious and desirable option. Excellent educators help build peace cultures. In this book, Shelley Wong and Rachel Grant reveal how highly diverse public school classrooms serve as peace cultures using activities and themes founded on womanist and critical race theories. Yingji Wang portrays a peace culture in a university classroom. Rui Ma's model reaches out interculturally to Abraham's children, Jewish, Christian, and Muslim youth who share an ancient heritage. Children's literature, Rebecca Oxford et al., and students' own writing, Tina Wei, spread cultures of peace. Deep traditions such as African performance art, Buddhism, Daoism, Confucianism, and Islam give rise to peace cultures, as shown here by John Grayzel. Sister Jewel, a colleague of Thich Nhat Hanh, Yingji Wang et al., and Dian Marissa et al., show peace cultures also emerge in completely unexpected venues such as gangsta rap, unveiled by Charles Blake et al., and a prison where inmates learn. Lois Liggett's spiritual semantics. Finally, the book includes perspectives from Jerusalem by Lawrence Berlin and North Korea and South Korea by Carol Griffiths to help us envision and hope for new transformative peace cultures where now there is strife. **Islamism: Religion and Ideology**

Wilyam Sharf, 2009 The book is a critique of Islamic fundamentalism, modernist rationalism, and imperialism. It argues that there is a firm relationship between Islamism and the religion of Islam, and that Muslims today need a new Islamic discourse.
