Vital Witnesses Mark Newman, 2014-09-29 The use of primary sources as texts in the classroom is growing Teachers realize these vital witnesses provide opportunities to motivate students and improve learning They bring students closer to the people places and events being studied and help students improve content knowledge while building skills Recent trends in standards such as Common Core and the increasing use of the Document Based Questions also promote primary source use The strong push to use primary sources in teaching history and social studies creates a need among teachers for more information on what they are and how they can be used effectively in the classroom Vital Witnesses meets this need by providing teachers with a comprehensive guide to primary sources and their use in the classroom Primary sources are defined and the various types are described Classroom tested activities and strategies are offered to teachers for addressing the needs of all learners and for accommodating Common Core standards and the C3 Framework for State Social Studies Standards

Teaching Social Studies to Multilingual Learners in Middle School

Xiaoning Chen, Mark Newman, 2021-12-08 *Teaching Social Studies to Multilingual Learners in Middle School Connecting Inquiry and Visual Literacy to Promote Progressive Learning* explores effective strategies for teaching social studies to multilingual learners. The centerpiece is a visual literacy framework that integrates inquiry, primary source analysis, and visual literacy to provide a progressive learning sequence to meet the varied needs of learners. The visual literacy framework brings together related aspects of progressive sequential learning into a cohesive, coherent whole. It has an adaptable structure that allows teachers to customize learning activities to meet individual student needs. The progressive learning sequence has varied modes of learning that help teachers move students from basic to proficient to advanced levels of support. This book is organized into two related parts. The first three chapters provide important content and context on social studies, multilingual learner education, and the visual literacy framework. The remaining chapters discuss U.S. history, world history, geography, and civics/government. Each chapter defines the subject area, briefly traces its development as a middle school subject over time, and offers classroom exercises on using the visual literacy framework in these disciplines. The exercises are plotted so that differing levels of the visual literacy framework are explored throughout the book.
