Women Politicians And The Media:

Women Politicians and the Media Maria Braden, 1996 All American politicians face the glare of media coverage but for women seeking or holding high public office the scrutiny by newspapers and television can be both withering and damaging a fact that has changed little over the decades despite the emergence of more women in politics and more women in the news media Maria Braden's pioneering study takes a sweeping look at how the media have influenced and skewed public perceptions of women seeking governorships and national office over the past eighty years from Jeannette Rankin the first woman elected to the U S House through the disastrous vice presidential bid of Geraldine Ferraro Throughout the decades Braden traces a persistent double standard in media coverage of women's political campaigns Her personal interviews with recent women politicians including Margaret Chase Smith Bella Abzug Kay Bailey Hutchison Nancy Kassebaum and Ann Richards reveal their agonizing struggles to get across to the public the message that they are competent candidates capable of holding high office and shaping our nation's course

Women in Politics and Media Maria Raicheva-Stover, Elza Ibroscheva, 2014-09-25 Although women constitute half of the world's population their participation in the political sphere remains problematic While existing research on women politicians from the United States the United Kingdom and Canada sheds light on the challenges and opportunities they face we still have a very limited understanding of women's political participation in emerging democracies *Women in Politics and Media Perspectives From Nations in Transition* is the first collection to de Westernize the scholarship on women politics and media by 1 highlighting the latest research on countries and regions that have not been the usual suspects 2 featuring a diverse group of scholars many of non Western origin 3 giving voice through personal interviews to politically active women thus providing the reader with a rare insight into women's agency in the political structures of emerging democracies Each chapter examines the complex women politics and media dynamic in a particular nation state taking into consideration the specific political historic and social context With 23 case studies and interviews from Latin America sub Saharan Africa the Middle East and North Africa Central and Eastern Europe Asia Russia and the former Soviet republics this volume will be of interest to students media scholars and policy makers from developed and emerging democracies

Women, Politics, Media Karen Ross, 2002 In particular the strategies which women employ to gain some control over the ways in which they are presented and reported on by journalists are discussed making explicit the tension between publicity and privacy but also making clear that women are not irrevocably positioned as victim The critique offered here also factors in the ways in which political parties themselves their elites as well as their rank and file are seriously implicated in supporting processes which attempt to undermine the potency and potential of women's political contribution through a variety of covert and overt mechanisms This is an important book as it integrates the debates about women media and politics in ways which give equal voice to the embodied political woman and her views as well as discussing the representational image of women politician as the subject and object of research on mediated

discourse **BOOK JACKET** *Women on the Run* Danny Hayes, Jennifer L. Lawless, 2016-05-03 The book argues that contrary to conventional wisdom the candidate's sex plays a minimal role in the majority of US elections **Women Political Leaders and the Media** D. Campus, 2013-01-21 This book analyzes how the media covers women leaders and reinforces gendered evaluations of their candidacies and performance It deals with current transformations in political communication that may change the nature and scope of leadership in contemporary democracies with implications for relations between female leaders media and citizens Press Portrayals of Women Politicians, 1870s-2000s, Teri Finneman, 2015-11-25 Recent history suggests the United States is within reach of its first woman president This book examines the media experiences of women political pioneers who helped pave the way to the breaking of the glass ceiling It analyzes newspaper treatment of four pioneering politicians between the 1870s and 2000s and explores how media discourse of women politicians has and hasn't changed over 150 years The women featured are Victoria Woodhull the first woman to run for president Jeannette Rankin the first woman elected to Congress Margaret Chase Smith the first woman to receive a presidential nomination at a major party's convention and Sarah Palin the first Republican woman vice presidential candidate The social political and journalistic cultures of each woman's era are also explored to provide context for the women's media coverage The findings illustrate that the press has used a variety of discursive strategies to delegitimize the candidacies of women politicians throughout history which might have contributed to negative voter attitudes toward women in politics Gendered stereotypes gendered news frames and double binds utilized in news coverage served to protect a male dominated status quo Yet a significant finding in Palin's coverage indicates that gender bias in news coverage is increasingly facing criticism suggesting the tide may finally be turning in favor of more equalized discourse **Gendered News** Elizabeth Goodyear-Grant, 2013-09-06 In the last fifty years many of the institutional and societal barriers that kept Canadian women from public office have disappeared Today women are well educated and well connected and enjoy generally equal treatment from political parties and voters Why then do they hold only a quarter of the seats in the House of Commons a proportion that rose by just seven percentage points between 1993 and 2011 In this illuminating study Elizabeth Goodyear Grant examines a significant obstacle still facing women in political life gendered media coverage News stories are more likely to investigate the personal lives of female politicians or question their aptitude for public life implicitly suggesting that women in politics are marginal or even unwelcome Based on interviews with MPs and party leaders and an analysis of print and television media in the 2000 and 2006 federal elections *Gendered News* reveals an unsettling climate that affects the success of women in office and could deter them from running at all **Women and Media** Karen Ross, Carolyn M. Byerly, 2008-06-09 Comprised of original research in diverse genres and medias *Women and Media International Perspectives* brings together eight international scholars to explore key issues of the gender media relation Provides important insights into how gender is implicated in media industries Address key issues of the gender media relation from an
