

The background of the entire page is a light green color. Overlaid on this are several silhouettes of women's heads in profile, facing right. These silhouettes are in a slightly darker shade of green. Interspersed among the silhouettes are various shapes of green leaves, some solid and some outlined, creating a layered, organic effect.

Women In Green Voices Of Sustainable Design:

Women in Green Kira Gould, Lance Hosey, 2007 Exploring a variety of topics ranging from communities to buildings to product design this book explains how the sustainable design field is influenced by women and women's ways of working It explains the often overlooked roles women have played as key catalysts in sustainability *Who's Green 2007*, 2006-11

The Shape of Green Lance Hosey, 2012-06-11 Does going green change the face of design or only its content The first book to outline principles for the aesthetics of sustainable design The Shape of Green argues that beauty is inherent to sustainability for how things look and feel is as important as how they're made In addition to examining what makes something attractive or emotionally pleasing Hosey connects these questions with practical design challenges Can the shape of a car make it more aerodynamic and more attractive at the same time Could buildings be constructed of porous materials that simultaneously clean the air and soothe the skin Can cities become verdant productive landscapes instead of wastelands of concrete Drawing from a wealth of scientific research Hosey demonstrates that form and image can enhance conservation comfort and community at every scale of design from products to buildings to cities Fully embracing the principles of ecology could revolutionize every aspect of design in substance and in style Aesthetic attraction isn't a superficial concern it's an environmental imperative Beauty could save the planet

She Is Me Lori Sokol, 2025-07-30 Women are entering the national and international arena more than ever today from political campaigns to corporate boards to entrepreneurship and their success is showing Statistics show that when women lead countries those countries are less apt to go to war There is also a positive correlation between the number of women on corporate boards and greater profits Women entrepreneurs have also been shown to generate higher revenues and create more jobs than male entrepreneurs She Is Me veteran journalist Lori Sokol PhD introduces readers to thirty five women hailing from all walks of life who have successfully utilized qualities like compassion empathy introspection and solidarity to create change and transform lives Through interviews with women including Gloria Steinem Billie Jean King and Nobel Peace Prize recipient Leymah Gbowee readers will come to understand how these traits which have long been considered soft and weak in our patriarchal culture are actually proving more effective in transforming lives securing our planet and saving the world

Design Education for a Sustainable Future Rob Fleming, 2013-04-26 Sustainability is a powerful force that is fundamentally reshaping humanity's relationship to the natural world and is ushering in the Age of Integration The move from well intentioned environmental friendliness to the higher bar of integral sustainability and regenerative design demands a new type of design professional one that is deeply collaborative ethically grounded empathically connected and technologically empowered As a response this book argues for a great leap forward in design education from an individualistic and competitive model casually focused on greening to a new approach defined by an integral consciousness shaped by the values of inclusivity and cooperation and implemented by a series of integrative behaviors including an ethically infused design brief a co creative design process on going value

engineering pre-emptive engineering design validation through simulation on line enabled integrated learning the use of well vetted rating systems This book contains the integral frameworks whole system change methodologies and intrinsic values that will assist professors and their students in an authentic and effective pursuit of design education for a sustainable future

Profits and Sustainability Geoffrey Jones, 2018-01-26 Are profits and sustainability compatible This book brings unique perspectives to this key debate by exploring the history of green entrepreneurship since the nineteenth century and its spread globally in industries including renewable energy organic food natural beauty ecotourism recycling architecture and finance The book uses the lens of the extraordinary and often eccentric men and women who defied convention and imagined that business could help save the planet rather than consume it The social and religious beliefs that drove many of these individuals are explored as the book looks at how they overcame huge obstacles to execute their strategies The green entrepreneurs seen here are shown to have created new markets and industries and driven innovations in sustainable practices even at times when most consumers and governments marginalized the entire subject The struggles of early pioneers appear to have been rewarded by the growth of environmental awareness among consumers business leaders and others in recent years but the Earth's environmental health continues to deteriorate If profits and sustainability have proved challenging to reconcile the book argues that one reason was how they were both defined Greenopia New York City, 2008-04-21 With over 1 000 listings of green retailers service providers and organisations throughout the five boroughs of New York City this guide is an indispensable reference for eco friendly shopping It also offers practical advice and environmental tips that can be easily used at home Listings range from organic restaurants and grocery stores to dry cleaners organic pest control services and sustainable building suppliers such as landscapers and interior designers All listings are vetted by a research team and then rescreened by local expert advisers providing shoppers with confident reliable choices Some listings are further recognised with a green leaf award which gauges green businesses on a scale of one to four leaves four being the greenest This guide is a truly complete resource for green living *Becoming a Green Building Professional* Holley Henderson, 2012-08-03 A career guide for professionals in sustainable architecture design planning development and related consulting For those considering a new career or a career change focused on green and

sustainable building and design Becoming a Green Building Professional offers practical information on educational requirements career options guidance and tips and first hand interviews with green building professionals Perfect for underemployed architects and other building and design professionals who want to reinvent and renew their careers as well as students considering such a career this is a vital and informative guide to a growing field

Sustainable Preservation
Jean Carroon,2011-02-15 Sustainable Preservation takes a nuanced look at the hundreds of choices that adaptive reuse requires architects to make from ingenious ways to redeploy existing structural elements to time honored techniques for natural ventilation to creation of wetlands that restore a site s natural biological functions In addition Sustainable Preservation presents 50 case studies of projects schools houses offices stores museums and government buildings that set new standards for holistic approaches to adaptive reuse and sustainability The author covers design issues from building location to lighting systems renewable power options stormwater handling and building envelope protection and integrity The book also reviews operational issues including materials choices for low lifetime maintenance green housekeeping and indoor air quality

Place-Based Sustainability Jason Montgomery,2022-12-15 Global challenges instigated by climate change and urbanisation are driving research seeking appropriate and effective strategies for social economic and environmental sustainability While technical advancements are a major focus for sustainable development there are important research avenues that explore the relationship of place and sustainability from a number of perspectives Place based sustainability research identifies activities and initiatives that need to be layered and integrated with technological advances but also help drive them This research can facilitate the well considered steering of sustainable development and practices the essence of stewardship of place This volume of a wide range of research and design approaches by a diverse group of authors of various disciplines reveals new perspectives on the relationship of the culture of place and sustainability The central narrative that emerges from the chapters of this book is the critical cultural relationship of people to their environment both built and natural The authors delve into this relationship and see new approaches to support our awareness and appreciation of the nature of our cities and countryside as an integral ecosystem thereby having the potential to nurture social values and political will for increasing our sustainable practices and resilience The authors extend to us pathways for stewardship of our cities and countryside that are essential if we are to contend with the serious challenges provoked by our changing climate and the continuing urbanisation of the world s population

Orr, 2009-09-17 The real fault line in American politics is not between liberals and conservatives It is rather in how we orient ourselves to the generations to come who will bear the consequences for better and for worse of our actions So writes David

Orr in *Down to the Wire* a sober and eloquent assessment of climate destabilization and an urgent call to action Orr describes how political negligence an economy based on the insatiable consumption of trivial goods and a disdain for the well being of future generations have brought us to the tipping point that biologist Edward O Wilson calls the bottleneck Due to our refusal to live within natural limits we now face a long emergency of rising temperatures rising sea levels and a host of other related problems that will increasingly undermine human civilization Climate destabilization to which we are already committed will change everything and to those betting on quick technological fixes or minor adjustments to the way we live now *Down to the Wire* is a major wake up call But this is not a doomsday book Orr offers a wide range of pragmatic far reaching proposals some of which have already been adopted by the Obama administration for how we might reconnect public policy with rigorous science bring our economy into alignment with ecological realities and begin to regard ourselves as planetary trustees for future generations He offers inspiring real life examples of people already responding to the major threat to our future An exacting analysis of where we are in terms of climate change how we got here and what we must now do *Down to the Wire* is essential reading for those wanting to join in the Great Work of our generation Ms. Magazine Gloria Steinem, Robin Morgan, Joanne Edgar, Patricia Theresa Carbine, Nina Finkelstein, Letty Cottin Pogrebin, 2007 **Voices of Design Leadership** Ken Sanders, 2022-06-09 *Voices of Design Leadership* Provides inspiration to architecture and design students and professionals through the insights stories and projects of successful design leaders *Voices of Design Leadership* seeks to educate inform and inspire a new generation of diverse design leaders The work includes sixteen profiles of design leaders in architecture interior design planning and research many of whom are leaders at firms that have earned the AIA's national Architecture Firm Award The stories and projects from their own professional journeys illustrate multiple paths to design leadership success Individually each person stands on their own as an inspiring and influential design leader Collectively they express what design leadership can and should look like Representing a broad diversity of expertise and demographics including nine women seven people of color and five first generation immigrants they bring a variety of life experiences and cultural backgrounds to their award winning work Sample topics discussed in the work include The power of diversity Finding and developing design talent Design philosophy and research investments Coaching mentoring team collaboration and community engagement Advice for emerging design leaders Students of architecture engineering construction and real estate will find value and inspiration from *Voices of Design Leadership* and gain insight into the thought processes of established leaders in their fields The work also appeals to young and mid career professionals clients and educators exploring the next steps of their own career journeys Architect, 2009 *Interior Design*, 2006 *Metropolis*, 2007-07
