Women In Missouri History In Search Of Power And Influence

Diane Mutti Burke

Women In Missouri History In Search Of Power And Influence:

Women in Missouri History LeeAnn Whites, Mary C. Neth, Gary R. Kremer, 2004-06-14 *Women in Missouri History* is an exceptional collection of essays surveying the history of women in the state of Missouri from the period of colonial settlement through the mid twentieth century. The women featured in these essays come from various ethnic, economic, and racial groups from both urban and rural areas and from all over the state. The authors effectively tell these women's stories through biographies and through techniques of social history, allowing the reader to learn not only about the women's lives individually but also about how groups of ordinary women shaped the history of the state. The essays in this collection address questions that are at the center of current developments in the field of women's history but are written in a manner that makes them accessible to general readers. Providing an excellent general overview of the history of women in Missouri, this collection makes a valuable contribution to a better understanding of the state's past. *Women in Missouri History*

LeeAnn Whites, Mary C. Neth, Gary R. Kremer, 2014-03-03 *Women in Missouri History* is an exceptional collection of essays surveying the history of women in the state of Missouri from the period of colonial settlement through the mid twentieth century. The women featured in these essays come from various ethnic, economic, and racial groups from both urban and rural areas and from all over the state. The authors effectively tell these women's stories through biographies and through techniques of social history, allowing the reader to learn not only about the women's lives individually but also about how groups of ordinary women shaped the history of the state. The essays in this collection address questions that are at the center of current developments in the field of women's history but are written in a manner that makes them accessible to general readers. Providing an excellent general overview of the history of women in Missouri, this collection makes a valuable contribution to a better understanding of the state's past. **The Other Missouri History** Thomas Morris Spencer, 2004

The essays in *The Other Missouri History* explore a wide range of topics in Missouri social history. By dealing with the lives of ordinary Missourians, these pieces examine the effects of significant social and economic change at all levels of society. With a broader scope in Missouri history than previous studies, this book demonstrates how Missourians have been affected by issues of race, class, and gender. Gregg Andrews's essay, *The Racial Politics of Reconstruction in Ralls County, 1865-1870*, examines how race shaped the political culture in Ralls County during the Reconstruction Era. Andrews argues that race-baiting was used prominently by editors of the *Ralls County Record* to discredit radicals in the county and was perhaps the most powerful political weapon that conservatives and later Democrats could use to gain the allegiance of voters. Farmers are another popular topic for *The Other Missouri History*. Michael J. Steiner's *The Failure of Alliance Populism in Northern Missouri* provides insight into the economic and rhetorical reasons for the failure of Populism in Missouri. Steiner contends that white farmers in northern Missouri were happy with the status quo and rejected calls for radical reform and major change in the agricultural economy. Women began to become active in public life during the late nineteenth and early

twentieth centuries Janice Brandon Falcone's *Constance Runcie and the Runcie Club of St Joseph* examines the first two decades of an important women's club that still exists in St Joseph Missouri Also included in *The Other Missouri History* are essays by Deborah J Henry Daniel A Graff Bonnie Stepenoff Robert Faust and Amber R Clifford Because of the diverse issues addressed this volume will appeal to general readers of Missouri and Midwestern history as well as to those who teach courses in history and have sought a supplemental text

Women in American Politics: History and Milestones Doris Weatherford, 2012-01-20 *Women in American Politics* is a new reference detailing the milestones and trends in women's political participation in the United States This two volume work provides much needed perspective and background on the events and situations that have surrounded women's political activities It offers insightful analysis on women's political achievements in the United States including such topics as the campaign to secure nation wide suffrage pioneer women state officeholders women first elected to U S Congress governorships mayoralities and other offices and women first appointed as Cabinet officials judges and ambassadors It also includes profiles of the women who have run for vice president and president *Women in American Politics* is organized in a framework both logical and useful to readers and researchers Original material offers students scholars teachers and other professionals a guide to understanding the complex struggle in women's progress toward achieving political parity with men in the United States Each chapter is structured in three parts part one features graphic information tables lists charts or maps detailing the historical record with data not compiled anywhere else on women officeholders part two offers insightful narrative analysis describing how women achieved what they did examines the complex and sometimes contradictory trends behind the facts of women's political milestones and explores how social and economic contexts affected the progress of their accomplishments part three presents biographical entries describing in more personal terms women's struggle for political equality Sidebars in each chapter illuminate the drama of political life and consider the evolving female electorate exploring how women voters have impacted particular issues specific elections or other key turning points and the tradition of appointing widows to open seats The final chapter uniquely looks at women's political history and differences in achievement from a state and regional perspective Entries on each state as well as on District of Columbia and Puerto Rico highlight milestones and provide insight into the unique aspects of each state

On Slavery's Border Diane Mutti Burke, 2010-12-01 *On Slavery's Border* is a bottom up examination of how slavery and slaveholding were influenced by both the geography and the scale of the slaveholding enterprise Missouri's strategic access to important waterways made it a key site at the periphery of the Atlantic world By the time of statehood in 1821 people were moving there in large numbers especially from the upper South hoping to replicate the slave society they'd left behind Diane Mutti Burke focuses on the Missouri counties located along the Mississippi and Missouri rivers to investigate small scale slavery at the level of the household and neighborhood She examines such topics as small slaveholders child rearing and fiscal strategies the economics of slavery relations between slaves and owners the challenges

faced by slave families sociability among enslaved and free Missourians within rural neighborhoods and the disintegration of slavery during the Civil War Mutti Burke argues that economic and social factors gave Missouri slavery an especially intimate quality Owners directly oversaw their slaves and lived in close proximity with them sometimes in the same building White Missourians believed this made for a milder version of bondage Some slaves who expressed fear of being sold further south seemed to agree Mutti Burke reveals however that while small slaveholding created some advantages for slaves it also made them more vulnerable to abuse and interference in their personal lives In a region with easy access to the free states the perception that slavery was threatened spawned white anxiety which frequently led to violent reassertions of supremacy

Encyclopedia of African American History, 1896 to the Present Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century *Women in the American Political System* Dianne G.

Bystrom, Barbara Burrell, 2018-12-01 This book examines how women candidates voters and office holders shape U S political processes and institutions lending their perspectives to gradually evolve American life and values This book provides an encyclopedic sourcebook on the evolution of women s involvement in American politics from the colonial era to the present covering all of the individuals organizations cultural forces political issues and legal decisions that have collectively served to elevate the role of women at the ballot box on the campaign trail in Washington and in state and city level political offices across the country The in depth essays document and examine the rising prominence of women as voters candidates public officials and lawmakers enabling readers to understand how U S political processes and institutions have been and will continue to be shaped by women and their perspectives on American life and values The entries cover a range of women politicians and officials female activists and media figures relevant organizations and interest groups such as Emily s List League of Women Voters and National Right to Life key laws court cases and events such as the Nineteenth Amendment the Equal Rights Amendment the Seneca Falls Convention the passage of Title IX and Roe v Wade and other topics like media coverage of appearance women s roles as campaign strategists fundraisers gender differences in policy priorities and the gender gap in political ambitions The text is supplemented by sidebars that highlight selected landmarks in women s political history in the United States such as the 2012 election of Tammy Baldwin the first openly gay U S senator **Missouri Law**

and the American Conscience Kenneth H. Winn, 2016-12-31 Until recently many of Missouri s legal records were inaccessible and the existence of many influential historic cases was unknown The ten essays in this volume showcase Missouri as both maker and microcosm of American history Some of the topics are famous Dred Scott s slave freedom suit Virginia Minor s women s suffrage case Curt Flood s suit against professional baseball and the Nancy Cruzan right to die case Other essays cover court cases concerning the uneasy incorporation of ethnic and cultural populations into the United States political loyalty tests during the Civil War the alleviation of cruelty to poor and criminally institutionalized children the

barring of women to serve on juries decades after they could vote and the creation of the Missouri Court Plan a national model for judicial selection Missouri Historical Review Francis Asbury Sampson,2006-10 African American Lives in St. Louis, 1763-1865 Dale Edwyna Smith,2017-02-07 The African American presence in St Louis began in 1763 with the arrival of several free men of color who accompanied Pierre Laclède from New Orleans to set up a fur trading fort on the Mississippi Within a few decades the fort had become a prosperous commercial center whose proximity to the western frontier attracted a cosmopolitan community African Americans in St Louis both slave and free enjoyed greater autonomy and opportunity than those in urban areas of the South and East Slaves in the city set legal precedent by filing hundreds of freedom suits often based on the prohibition against slavery set by the Northwest Ordinance of 1787 After a century in the region many blacks enlisted in the Union Army during the Civil War Drawing on a wide range of sources the author studies the history of slaves and free blacks in this city **The Southern Elite and Social Change** Randy Finley,Thomas A. Deblack,2002-03-01 Elites have shaped southern life and communities argues the distinguished historian Willard Gatewood These essays written by Gatewood s colleagues and former students in his honor explore the influence of particular elites in the South from the American Revolution to the Little Rock integration crisis They discuss not only the power of elites to shape the experiences of the ordinary people but the tensions and negotiations between elites in a particular locale whether those elites were white or black urban or rural or male or female Subjects include the particular kinds of power available to black elites in Savannah Georgia during the American Revolution the transformation of a southern secessionist into an anti slavery activist during the Civil War a Tennessee aristocrat of color active in politics from Reconstruction to World War II middle class Southern women both black and white in the New Deal and the Little Rock integration crisis and the different brands of paternalism in Arkansas plantations during the Jacksonian and Jim Crow eras and in the postwar Georgia carpet industry *America's Forgotten Suffragists* Nicole Evelina,2023-03-01 After being forgotten for nearly 130 years the Mother of Suffrage in Missouri and her husband are finally taking their rightful place in history St Louisans Virginia and Francis Minor forever changed the direction of women s rights by taking the issue to the Supreme Court for the first and only time in 1875 a feat never eclipsed even by their better known peers Susan B Anthony and Elizabeth Cady Stanton Yet despite a myriad of accomplishments and gaining notoriety in their own time the Minors names have largely faded from memory In 1867 Virginia founded the nation s first organization solely dedicated to women s suffrage two years before Anthony formed the National Woman s Suffrage Association NWSA Virginia and Francis were also the brains behind the groundbreaking idea that women were given the right to vote under the Fourteenth Amendment a philosophy the NWSA adopted for nearly a decade And their story doesn t end there After the court case Francis went on to become a prolific writer on women s rights and one of the first and strongest male allies of the suffrage movement Virginia instigated tax revolts across the country and campaigned side by side with Anthony for women s rights in Missouri Kansas and Nebraska *America's Forgotten Suffragists*

Virginia and Francis Minor is the first biography of these suffrage celebrities who were unique for their time in being jointly dedicated to the cause of female enfranchisement This book follows their lives from slave holding Virginians through their highly lauded civilian work during the Civil War and into the height of the early suffrage movement to show how two ordinary people of like mind dedicated to a cause can change the course of history **Journalism 1908** Betty Houchin

Winfield,2008-09-03 The year 1908 was not remarkable by most accounts but it was an auspicious year for journalism As newspapers sought to recover from big city yellow journalism and circulation wars that reached their boiling point a few years earlier during the Spanish American War press clubs began to champion higher education And schools dedicated to journalism education led by the University of Missouri began to emerge Now sanctioned by universities journalism could teach acceptable behavior and establish credentials It was nothing less than the birth of a profession Journalism 1908 opens a window on mass communication a century ago It tells how the news media in the United States were fundamentally changed by the creation of academic departments and schools of journalism by the founding of the National Press Club and by exciting advances that included early newsreels the introduction of halftones to print and even changes in newspaper design Journalism educator Betty Houchin Winfield has gathered a team of well known media scholars all specialists in particular areas of journalism history to examine the status of their profession in 1908 news organizations business practices media law advertising forms of coverage from sports to arts and more Various facets of journalism are explored and situated within the country s history and the movement toward reform and professionalism not only formalized standards and ethics but also labor issues concerning pay hours and job differentiation that came with the emergence of new technologies This overview of a watershed year is national in scope examining early journalism education programs not only at Missouri but also at such schools as Colgate Washington and Lee Wisconsin and Columbia It also reviews the status of women in the profession and looks beyond big city papers to Progressive Era magazines the immigrant press and African American publications Journalism 1908 commemorates a century of progress in the media and given the place of Missouri s School of Journalism in that history is an appropriate celebration of that school s centennial It is a lode of information about journalism education history that will surprise even many of those in the field and marks a seminal year with lasting significance for the profession Guerrillas in Civil War Missouri James W. Erwin,2012-02-21

Missouri ranks third in the number of Civil War battles fought on its soil Although some sizable actions were fought in the state most of the battles were the result of the intense guerrilla activity These battles are only the actions reported by Federal troops against the guerrillas The attacks on civilians were equally as numerous Long before the Civil War began Missouri was deeply divided over whether slavery should be extended to neighboring Kansas This book takes an in depth look at the guerrilla warfare grounded in this division

Teacher, Preacher, Soldier, Spy Christopher Grasso,2021-08-04 The epic life story of a schoolteacher and preacher in Missouri guerrilla fighter in the Civil War Congressman freethinking lecturer and author and anarchist **In the Wake of**

Slavery Joseph A. Ranney, 2006-10-30 The Civil War devastated the South and the end of slavery turned Southern society upside down How did the South regain social economic and political stability in the wake of emancipation and wartime destruction and how did the South come together with its former enemies in the North Why did the South not slip back into chaos This book holds the keys to the answers to these tantalizing questions Author Joseph Ranney explodes the myth of a unified South and exposes just how complex and fragile the postwar recovery was The end of slavery and the emergence of a radically new social order raised a host of thorny legal issues What place should newly freed slaves have in Southern society What was the proper balance between states rights and a newly powerful federal government How could postwar economic distress be eased without destroying property rights Should new civil rights be extended to women as well as blacks Southern states addressed these issues in surprisingly different ways Ranney also shatters the popular myth that a new legal system was imposed upon the South by the victorious North during Reconstruction Southern states took an active hand in shaping postwar changes and Southern courts often defended civil rights and national reunification against hostile Southern legislators How did that come about Ranney provides some surprising answers He also profiles judges and other lawmakers who shaped Southern law during and after Reconstruction including heretofore little known black leaders in the South These extraordinary individuals created a legal heritage that assisted leaders of the second civil rights revolution a century after Reconstruction ended This book adds immeasurably to our knowledge not only of Southern history but also of American legal and social history

We Were Still Ladies Coreen Derifield, 2025-07-08 Following World War II women living in small towns and on farms across the Midwest woke every morning packed their lunches and headed out for a long day of work in a nearby factory Many of these women never envisioned themselves as industrial workers but the political and economic changes after World War II offered new opportunities and experiences for hundreds of women How did this transition into industrial work affect a woman s sense of self How did this new workforce change the dynamic of families and communities While women choosing to work outside of the home may seem to have been a mundane decision it caused tremendous change within families and with household roles These alterations in daily life rippled throughout midwestern culture and society even changing the landscape of small towns into decentralized industrial centers

Bleeding Borders Kristen Tegtmeier Oertel, 2009-04-01 In *Bleeding Borders* Kristen Tegtmeier Oertel offers a fresh multifaceted interpretation of the quintessential sectional conflict in pre Civil War Kansas Instead of focusing on the white male politicians and settlers who vied for control of the Kansas territorial legislature Oertel explores the crucial roles Native Americans African Americans and white women played in the literal and rhetorical battle between proslavery and antislavery settlers in the region She brings attention to the local debates and the diverse peoples who participated in them during that contentious period Oertel begins by detailing the settlement of eastern Kansas by emigrant Indian tribes and explores their interaction with the growing number of white settlers in the region She analyzes the attempts by southerners to plant slavery in Kansas and the ultimately

successful resistance of slaves and abolitionists Oertel then considers how crude frontier living conditions Indian conflict political upheaval and sectional violence reshaped traditional Victorian gender roles in Kansas and explores women's participation in the political and physical conflicts between proslavery and antislavery settlers Oertel goes on to examine northern and southern definitions of true manhood and how competing ideas of masculinity infused political and sectional tensions She concludes with an analysis of miscegenation not only how racial mixing between Indians slaves and whites influenced events in territorial Kansas but more importantly how the fear of miscegenation fueled both proslavery and antislavery arguments about the need for civil war As Oertel demonstrates the players in Bleeding Kansas used weapons other than their Sharps rifles and Bowie knives to wage war over the extension of slavery they attacked each other's cultural values and struggled to assert their own political wills They jealously guarded ideals of manhood womanhood and whiteness even as the presence of Indians and blacks and the debate over slavery raised serious questions about the efficacy of these principles Oertel argues that ultimately many Native Americans blacks and women shaped the political and cultural terrain in ways that ensured the destruction of slavery but they along with their white male counterparts failed to defeat the resilient power of white supremacy Moving beyond a conventional political history of Bleeding Kansas *Bleeding Borders* breaks new ground by revealing how the struggles of this highly diverse region contributed to the national move toward disunion and how the ideologies that governed race and gender relations were challenged as North South and West converged on the border between slavery and freedom

A Store Almost in Sight Jeff Bremer, 2014-04-01 *A Store Almost in Sight* tells the story of commercial development in central Missouri from the early days of American settlement following the Louisiana Purchase to the Civil War Focusing on those counties near or on the Missouri River historian Jeff Bremer confirms that the history of the frontier is also the history of the spread of capitalist values The letters journals diaries and travel accounts of Missouri settlers and visitors reveal how small decisions made by Missouri's rural white settlers ranging from how much of a certain crop to plant to how many eggs to take to the local store contributed to the establishment of a market economy in the state Most Missourians welcomed the opportunity to take part in commercial markets Farmwomen sold eggs or butter to peddlers and in nearby towns while men took surplus corn or pork to stores for credit Immigrants searched for the most fertile land closest to waterways to ensure they would have large harvests and an easy way to ship them to market Families floated farm goods downriver until steamboats transformed rural life by drastically reducing the cost of transportation and boosting farm production and consumption Traders also trekked west across the plains to trade at the inland entrepôt of Santa Fe The waves of migrants headed for Oregon and California in the 1840s and 1850s further encouraged commercial development However most white settlers lacked the necessary financial means to be capitalists in a technical sense seeking instead a competency or comfortable independence This fresh reinterpretation of the American frontier will interest anyone who wants to understand the economic and social significance of westward migration in U S

history It gives the reader a gritty grassroots sense of how ordinary people made their livings and built communities in the lands newly opened to American settlement **Journal of Women's History** ,2004
