Women Of The Tang Dynasty:

Women of the Tang Dynasty May Holdsworth, 2000-02-01 Women in Tang society enjoyed experimenting with ways to enhance their charms Not only enthusiastically adopting fashion styles of foreigners who thronged the capital of Chang'an they were also some of the earliest cross dressers in history Through a close up look at excavated pottery figures and surviving gold and silver objects a picture emerges of a remarkably open society in which women took an active part The Close Up series is the very first of its kind to give you a fascinating concise introduction to individual aspects of China and its peoples past and present Each topic is presented by chosen experts in their fields who write with brevity for the intelligent reader Illuminating text is supported by the work of international photographers and with maps and diagrams to give a picture that satisfies curiosity and encourages further reading *Women of the Tang Dynasty* May Holdsworth, Wei Li, 1995

images of beautiful half dressed oriental women lounging in some stately pleasure dome waiting for the opportunity to satisfy their masters And in some ways this was not far from the truth Tang Dynasty Emperor Xuanzong had 40 000 women in his harem while the Qing emperors would fill their harem with the most eligible girls in the country for both pleasure and procreation Some emperors were blessed with empresses who led their dynasties to prosperity and stability Many emperors however found out that they had taken on more than they expected with the arrival of talented ruthless and ambitious beauties Wu Zetian was one such woman Arriving in the harem of Tang Emperor Taizong as a sweet faced 14 year old she went on through treachery and murder to become empress This book tells the stories of the outstanding the outrageous the glorious as well as the tragic empresses and concubines of the Chinese palace **Notable Women of China**, This text

China's Cosmopolitan Empire Mark Edward Lewis, 2009-06-30 The Tang dynasty is often called China's golden age a period of commercial religious and cultural connections from Korea and Japan to the Persian Gulf and a time of unsurpassed literary creativity Mark Lewis captures a dynamic era in which the empire reached its greatest geographical extent under Chinese rule painting and ceramic arts flourished women played a major role both as rulers and in the economy and China produced its finest lyric poets in Wang Wei Li Bo and Du Fu The Chinese engaged in extensive trade on sea and land Merchants from Inner Asia settled in the capital while Chinese entrepreneurs set off for the wider world the beginning of a global diaspora The emergence of an economically and culturally dominant south that was controlled from a northern capital set a pattern for the rest of Chinese imperial history Poems celebrated the glories of the capital meditated on individual loneliness in its midst and described heroic young men and beautiful women who filled city streets and bars Despite the romantic aura attached to the Tang it was not a time of unending peace In 756 General An Lushan led a revolt that shook the country to its core weakening the government to such a degree that by the early tenth century regional warlordism gripped many areas heralding the decline of the Great Tang

Goddess Lost Rachel S. McCoppin, 2023-02-03 Drawing upon historical archaeological and mythical examples from around the world this book reveals how societal views of female empowerment and authority can be directly traced to the reverence once directed towards female warriors priestesses healers queens pharaohs and goddesses Communities which revered women as sacred idols of their belief systems were far more likely to place women in prominent positions of social or political influence since their members were quite used to envisioning power in the hands of a strong or divine woman The book also explores how goddesses were purposefully devalued during the rise of patriarchal civilizations thus restricting the social importance of earthly women and their accompanying rights One such instance can be found in Greek mythology's Gaia once revered as a dominant earth mother she was replaced by a division of less powerful figures with more socially acceptable feminine roles such as Aphrodite the goddess of love typically held up as an object of male lust Hera the goddess of marriage and childbirth

often portrayed as obsessed with jealousy over the extramarital exploits of her husband and the mostly silent goddess of the hearth Hestia The devaluing of once revered goddesses appeared in quite distinct ways across different cultures thus this book breaks down its chapters by global region including Europe the Middle East the Mediterranean India Asia Africa the Americas and Oceania
