They Fought for the Motherland Laurie S. Stoff, 2006-11-15 Women have participated in war throughout history but their experience in Russia during the First World War was truly exceptional Between the war's beginning and the October Revolution of 1917 approximately 6 000 women answered their country's call as the army was faced with insubordination and desertion in the ranks while the provisional government prepared for a new offensive These courageous women became media stars throughout Europe and America but were brushed aside by Soviet chroniclers and until now have been largely neglected by history Laurie Stoff draws on deep archival research into previously unplumbed material including many first person accounts to examine the roots motivations and legacy of these women She reveals that Russia was the only nation in

World War I that systematically employed women in the military marking the first time that a government run by men had organized women for combat And although they were originally envisioned as propaganda promoting patriotism and citizenship to inspire the thousands of males who had been deserting or refusing to fight Russian women also proved themselves more than capable in combat Describing the formation provisioning and training of the units Stoff sheds light on their social and educational backgrounds while recounting a number of amazing individual stories She tells how Maria Bochkareva commander of the First Russian Women s Battalion of Death and her unit met its baptism of fire in combat and how Bochkareva later traveled to the U S and met President Wilson Within these pages we also meet Maria Bocharnikova who served with the First Petrograd Women s Battalion that defended the Winter Palace during the Bolshevik Revolution and whose detailed account of her experience dispels much of the misinformation concerning that storied event Stoff also chronicles the exploits of the Second Moscow Women s Battalion of Death Third Kuban Women s Shock Battalion and the First Women s Naval Detachment all within the context of Russian society the Revolution and the war itself Enhancing and informing this presentation are more than two dozen historic photos Stoff s remarkable account rescues from oblivion an important but still little known aspect of Russia s experience in World War I It also provides new insights into gender roles during a pivotal period of Russia s development and more broadly speaking resonates with the current debates over the role of women in warfare

[Women, Children, and the Collective Face of Conflict in Europe, 1900-1950](#) Nupur Chaudhuri,Sandra Trudgen Dawson,2023-10-17 Europe was in turmoil during the first half of the twentieth century The political stability that emanated from nineteenth century political liberalism began to break down reaching climaxes in the Great War the Spanish Civil War and the Second World War Revolutions in Russia and Spain threatened parliamentary governments and the Armenian genocide that began in 1915 foreshadowed the systematic destruction of European Jews in the 1930s and 1940s Dictators seized power and established authoritarian regimes that stymied democratic expression and censored the press Much of the scholarship on each of the conflicts has tended to focus on the military male and the civilian female binary Women and children experienced every conflict during this tumultuous period as civilians consumers victims exiles and combatants As histories of women and war

suggest there are exciting new areas of research and scholarship that resist simplistic binaries Women were not simply civilians or victims They were actors in the minutiae of wars revolutions dictatorships and genocides Children were present in these conflicts and not invisible as many histories suggest They too were actors and often politicized by propagandist literature and sectarian education through their own experiences and the politics of their families This collection seeks to complicate the child adult distinction and examine the experiences of women and children as lenses to view a more collective face of conflict While the volume brings to attention conflicts in Europe the editors acknowledge the global ramifications of the revolutions wars and genocides as well as the multitude of individual experiences This collection seeks to expand understanding of the personal as the political in European conflicts from 1900 1950 We believe the focus on women and children offers a diverse perspective on five tumultuous decades of European history Democracy Temma Kaplan, 2015 Focusing on local movements to achieve equal distribution of social economic and political rights and natural resources Democracy A World History examines how ordinary and extraordinary men and women of different cultural and religious backgrounds have formed and attempted to sustain institutions that would permit them to live together in equality and peace
