Smith, 2000 This is an innovative introduction to the issues of contemporary feminism with a truly global perspective It analyses the roots development and in some cases the conclusions of feminisms and how they have interacted Gender and Human Rights in a Global, Mobile Era Laura A. Hebert, 2022-06-15 Gender and Human Rights in a Global Mobile Era delves into feminist debates surrounding the relationship between gender and human rights through engaging feminist perspectives on the multifaceted issue of human trafficking Building on analyses of domestic servitude commercial sex and labor trafficking by military contractors and grounded in intersectional feminist cosmopolitanism and feminist theorizing on vulnerability precarity and ethical interdependence Laura Hebert makes several interrelated contributions As she explores how a feminist gender analysis illuminates the structures and norms enabling trafficking Hebert simultaneously considers the future of feminist rights advocacy Emphasizing the sociality of human rights she encourages feminist scholars and activists to look beyond states as the duty bearers of human rights and the assumption that human rights are made meaningful mainly through the establishment of legal rights at the national level She challenges the idea that feminism can be reduced to advocacy on behalf of women's rights She also encourages critical reflection on how divisions associated with feminist politics have impeded opportunities for the building of feminist solidarities across differences aimed at the realization of the human rights of all Strongly interdisciplinary Gender and Human Rights in a Global Mobile Era will be of interest to students and scholars throughout the social sciences and humanities

The Political Interpretation of Multilateral Treaties Shirley Scott,2004-07-01 States have engaged in an intensive process of multilateral treaty making since World War Two despite the fact that few multilateral treaties have fully solved the problems they were designed to address This inter disciplinary study of multilateral treaties offers a balanced assessment of the function of multilateral treaties in world politics that draws out the political as distinct from the legal meaning of a treaty text The treaty establishing a regime is regarded as an agreement to set some negotiated limits on pursuit of a common foreign policy goal so that full blown pursuit of that goal will not bring the States into conflict nor jeopardize any State s pursuit of that goal States are then able to continue pursuing that goal with if anything renewed vigour albeit within the agreed limits Theorising the relationship between a treaty text and its political context establishes a basis on which to critically reconceptualize regime effectiveness and on which to develop treaty strategy for use by political actors including international lawyers
