Alison Stone,2023 Many women wrote philosophy in nineteenth century Britain and they wrote across the full range of philosophical topics Yet these important women thinkers have been left out of the philosophical canon and many of them are barely known today The aim of this book is to put them back on the map It introduces twelve women philosophers Mary Shepherd Harriet Martineau Ada Lovelace George Eliot Frances Power Cobbe Helena Blavatsky Julia Wedgwood Victoria Welby Arabella Buckley Annie Besant Vernon Lee and Constance Naden Alison Stone looks at their views on naturalism philosophy of mind evolution morality and religion and progress in history She shows how these women interacted and developed their philosophical views in conversation with one another not only with their male contemporaries The rich print and periodical culture of the period enabled these women to publish philosophy in forms accessible to a general readership despite the restrictions women faced such as having limited or no access to university education Stone explains how these women became excluded from the history of philosophy because there was a cultural shift at the end of the nineteenth century towards specialised forms of philosophical writing which depended on academic credentials that were still largely unavailable to women

Sex, Time, and Power Leonard Shlain, 2004-08-03 As in the bestselling *The Alphabet Versus the Goddess*, Leonard Shlain's provocative new book promises to change the way readers view themselves and where they came from. *Sex, Time, and Power* offers a tantalizing answer to an age-old question: Why did big-brained Homo sapiens suddenly emerge some 150,000 years ago? The key, according to Shlain, is female sexuality. Drawing on an awesome breadth of research, he shows how long ago the narrowness of the newly bipedal human female's pelvis and the increasing size of infants' heads precipitated a crisis for the species. Natural selection allowed for the adaptation of the human female to this environmental stress by reconfiguring her hormonal cycles, entraining them

with the periodicity of the moon The results however did much more than ensure our existence they imbued women with the concept of time and gave them control over sex a power that males sought to reclaim And the possibility of achieving immortality through heirs drove men to construct patriarchal cultures that went on to dominate so much of human history From the nature of courtship to the evolution of language Shlain's brilliant and wide ranging exploration stimulates new thinking about very old matters *Refresh Me, Lord!* Anne Costa, 2008-06-01 These short meditations are a perfect way for Catholic women of any age to start or end their days Anne Costa helps us to see beyond the daily clutter of our lives to our real purpose fulfilling the great calling God has given to women whose unique gifts can change the world While acknowledging the struggles and temptations that women face Costa always leaves them with hope that they can be renewed in Christ and become people who bring many blessings to others Each meditation features An opening Scripture verse A concise hope filled meditation A closing prayer An action we can take called Just for Today This pocket sized book can fit into a purse brief case or glove compartment so busy women can still carve out a few minutes each day to read and pray through the meditations no matter where they are **Weaving the Sermon** Christine M. Smith, 1989-01-01 Using images connected with the art and craft of weaving Christine Smith discusses the special vision that women bring to the task of preaching She looks at the significance of feminist theology psychology and philosophy in terms of their impact on the preaching of all men and women Among other topics she considers the authority of the preacher God language and global feminism **Healing Magic, 10th Anniversary Edition** Robin Rose Bennett, 2014-10-28 The green witch's down to earth and inspiring guide to over 100 methods for magical healing including herbal infusions and home remedies spells and enchantments and much more Rosemary Gladstar Filled with stories songs rituals recipes meditations and trance journeys that outline more than 100 ways to practice the art of magical healing this guidebook to conscious living by renowned herbalist Robin Rose Bennett makes it easy to follow the path to physical and spiritual health In the tradition of natural witchcraft Healing Magic 10th Anniversary Edition presents step by step instructions for conducting earth centered rituals preparing herbal remedies and casting spells to enchant and heal as well as advice on cooking everyday meals incorporating health enhancing herbs and home remedies Find out how to reconnect with the earth and draw on its energy Interact with the power of the 7 chakras of the body Build an altar Make use of moon magic and women's wisdom Prepare herbal infusions and baths Work with the medicine wheel Cast spells for love and wealth No matter what your beliefs this guidebook will open your heart and mind to everyday magic and the joys of living in tune with the energies of nature **Opera, Or, The Undoing of Women** Catherine Clement, 1988 This was the first work to have applied a systematised feminist theory to opera It concentrates on the stories text of opera that perhaps have more relevance today in a growing literature than it had when it was the sacrilegious pioneering work
