

The WordPress Dashboard Menu

DASHBOARD

The Dashboard is the “control center” for your WordPress site. From here you can manage every part of your WordPress site.

POSTS

This is where you can create a new Blog Post. You can also update your Categories and Post Tags.

MEDIA

This is where all your uploaded images, documents or files are stored. You can browse through your Media library, as well as edit and update the files.

PAGES

WordPress pages are used for common content such as “about us”, “contact us”, etc... WordPress pages are what allows WP to act as a website instead of just a blog.

COMMENTS

If you allow comments on your site, you will be able to manage them in this section. You can approve, delete, or modify comments that come into your blog. Of course in the “settings” area, you can disable comments on your site.

APPEARANCE

Appearance is where you make changes to your themes, widgets, etc... You’ll be spending a good amount of time interfacing with this tab when you want to change the way your site looks, or layout changes.

PLUGINS

Plugins are like “apps” for your WordPress site. They are miniature programs that add or extend the functionality of WordPress. An example might be a contact form plugin that allows your visitors to send you an email.

TOOLS

This is essentially the “utilities” area of WordPress – it allows you to import and export various data as well as other site features.

COLLAPSE MENU

The left-facing arrow at the bottom of the menu will “collapse” the menu. Instead of the full wording, you’ll only see the icons. Clicking this again will give you the full menu again.

USERS

This is a list of all of the users/(people who have a login)- on the site. WordPress has various “user roles” that allow permissions for each user.

SETTINGS

This section mainly contains the “global settings” for your site. This area contains things such as your site title, URL, and other important settings.

“ The WordPress Menu will have more entries added as you install plugins. As we’ll learn later, plugins are like “apps” for your WordPress site. Various plugins, such as contact form plugins, will place an additional icon on the dashboard
