Words Of Fire An Anthology Of African American Feminist Thought:

Words of Fire Beverly Guy-Sheftall, 2011-07-26 In this pathbreaking collection of articles Dr Beverly Guy Sheftall has taken us from the early 1830s to contemporary times Only since the seventies have black women used the term feminism And yet it is that concept that she uses to bring into the same frame the ideas and analyses of Maria Stewart Sojourner Truth and Frances W E Harper of the early nineteenth century and the work of women such as the late Audre Lorde Barbara Smith and bell hooks who stand on the threshold of the twenty first century She has refused to cut off contemporary African American women from the long line of sisters who have righteously struggled for the liberation of African American women from the dual oppressions of racism and sexism From the epilogue by Johnnetta B Cole President Spelman College The indefatigable Beverly Guy Sheftall has put together a breathtaking sweep of African American feminist thought in one indispensable volume Elizabeth Spelman Professor of Philosophy Smith College

Identifying Race and Transforming Whiteness in the Classroom Virginia Lea, Judy Helfand, 2004 As educators how do we challenge and interrupt the social construction of whiteness in ourselves in the classroom in schools and in the wider society Coming from diverse backgrounds the contributors in this volume draw on their own well examined experiences of race racism and whiteness in developing effective antiracist pedagogies and classroom activities that interrupt and contest whiteness They have explored their own lives from the selective position of their own memories and have traced the ways in which their assumptions which they use to mediate and interpret the world around them have been constituted by public ideological forces They have collaborated with others in building alternative pedagogies and support systems enabling them to teach and at the same time reflect on the assumptions behind and the effects of their teaching The result is the work collected here

This Present Darkness Kristen Welch, 2021-08-17 As a Christian as a college student do you want to be a feminist Why would anybody want to be a feminist And what if anything have Christians done to advance women s rights The answers lie in this book where the history of women preachers the rise of the publishing industry the creation of eighteenth and nineteenth century female seminaries and academies and the work of feminist theologians is explored This book introduces the Christian college student to a coherent story of First Second and Third Wave Feminism and how these interlocking histories overlap with Christian faith and practice Designed for the student who has little or no knowledge of feminist histories theories and practices this book offers timelines reading lists and glossaries to help orient the student in a field of study often filled with irony and contradictions Furthermore the influence of anti feminists and the impact of visual culture tell a story of how power is made and how it is challenged Throughout this book students are invited to consider their relationship with feminism and to critically reflect on a position that holds true to their faith as they are experiencing it in the twenty first century

Katz, 2013-12 First published in 1989 The Undeserving Poor was a critically acclaimed and enormously influential account of America's enduring debate about poverty Taking stock of the last quarter century Michael B Katz's new edition of this classic is virtually a new book As the first did it will force all concerned Americans to reconsider the foundations of our policies toward the poor especially in the wake of the Great Recession that began in 2008 Katz highlights how throughout American history the poor have been regarded as undeserving people who do not deserve sympathy because they brought their poverty on themselves either through laziness and immorality or because they are culturally or mentally deficient This long dominant view sees poverty as a personal failure serving to justify America's mean spirited treatment of the poor Katz reminds us however that there are other explanations of poverty besides personal failure Poverty has been written about as a problem of place of resources of political economy of power and of market failure Katz looks at each idea in turn showing how they suggest more effective approaches to our struggle against poverty The Second Edition includes important new material It now sheds light on the revival of the idea of culture in poverty research the rehabilitation of Daniel Patrick Moynihan the resurgent role of biology in discussions of the causes of poverty such as in *The Bell Curve* and the human rights movement's intensified focus on alleviating world poverty It emphasizes the successes of the War on Poverty and Great Society especially at the grassroots level It is also the first book to chart the rise and fall of the underclass as a concept driving public policy A major revision of a landmark study *The Undeserving Poor* helps readers to see poverty and our efforts to combat it in a new light

Handbook

of Contemporary Sociological Theory Seth Abrutyn, 2016-06-22 This Handbook provides the hidden common threads that tie sociological inquiry together and featuring eminent scholars it separates itself from its predecessors in substance and organization Rather than rehashing old debates or longingly gazing at the past this book presents sociologists with new ways of conceptualizing the organization and presentation of sociological theory At the heart of this Handbook's vision is the twin goals of making theory a viable enterprise by reconceptualizing how we teach theory and keeping theory closely tied to its empirical applications Three strategies are offered 1 Elucidating how classic issues like integration or interaction are interrogated today 2 Presenting a coherent vision of the social levels of reality that theorists work on such as communities groups and the self as well as how the coherence of these levels speaks to the macro micro link and 3 Theorizing the social world rather than celebrating theorists or theories that is one can look at how theory is used holistically to understand the constraints the social world places on our lived experience or the dynamics of social change Hence in the second decade of the 21st century it has become clear that sociology is at a crossroads as the number of theorists and amount of theory available is increasingly unmanageable and unknowable by the vast majority of professionals and students As such this Handbook of Contemporary Sociological Theory presents the novice and the expert with the a roadmap for traversing this crossroad and building a more coherent robust and cumulative sociology

Black Women, Agency, and the New Black Feminism Maria del Guadalupe Davidson, 2017-02-17 The powerful Beyonc formidable Rihanna and the incalculable Nikki Minaj Their images lead one to wonder are they a new incarnation of black feminism and black women's agency or are they only pure fantasy in which instead of having agency they are in fact the products of the forces of patriarchy and commercialism More broadly one can ask whether black women in general are only being led to believe that they have power but are really being drawn back into more complicated systems of exploitation and oppression Or are black women subverting patriarchy by challenging notions of their subordinate and exploitable sexuality In other words who is playing who Black Women Agency and the New Black Feminism identifies a generational divide between traditional black feminists and younger black women While traditional black feminists may see for example sexualized images of black women negatively and as an impediment to progress younger black women tend to embrace these new images and see them in a positive light After carefully setting up this divide this enlightening book will suggest that a more complex understanding of black feminist agency needs to be developed one that is adapted to the complexities faced by the younger generation in today's world Arguing the concept of agency as an important theme for black feminism this innovative title will appeal to scholars teachers and students interested in black feminist and feminist philosophy identity construction subjectivity and agency race gender and class

Black Matrilineage, Photography, and Representation Lesly Deschler Canossi, Zoraida Lopez-Diago, 2022-10-03

Black Matrilineage: Photography and Representation Another Way of Knowing questions how the Black female body, specifically the Black maternal body, navigates interlocking structures that place a false narrative on her body and that of her maternal ancestors. This volume, which includes a curated selection of images, addresses the complicated relationship between Blackness and photography and, in particular, its gendered dimension, its relationship to health, sexuality, and digital culture, primarily in the context of racialized heteronormativity. With over forty contributors, this volume draws on scholarly inquiry ranging from academic essays, interviews, poetry, to documentary practice and on contemporary art. *Black Matrilineage: Photography and Representation Another Way of Knowing* thus offers a cross-section of analysis on the topic of Black motherhood, mothering, and the participation of photography in the process. This collection challenges racist images and discourses, both historically and in its persistence in contemporary society, while reclaiming the innate brilliance of Black women through personal narratives, political acts, connections to place, moments of pleasure, and communal celebration. It serves as a reflection of the past, a portal to the future, and contributes to recent scholarship on the complexities of Black life and Black joy.

We Heal from Memory C. Steele, 2016-04-30

Through an examination of the poetry of Anne Sexton, Audre Lorde, and Gloria Anzaldá, *We Heal From Memory* paints a vivid picture of how our culture carries a history of traumatic violence: child sexual abuse, the ownership and enforcement of women's sexuality under slavery, the transmission of violence through generations, and the destruction of non-white cultures and their histories through colonization. According to Cassie Premo Steele, the poetry of Sexton, Lorde, and Anzaldá allows us to witness and to heal from such disparate traumatic events.
