Wordweaving Wordweaving:

Wordweaving Trevor Silvester, 2003 This text presents a new approach to the use of hypnotic suggestion For years hypnotherapists have used scripts which are aimed at a particular problem like smoking or weight loss rather than aiming at the client who smokes or has weight issues Trevor Silvester suggests that it is not the problem that is the problem it s the client s unique relationship with the problem that s the problem The book aims to free you from the constraints of scripts and enable you to use your creative skill to weave subtle spells that empower your clients by changing their model of reality It presents the science behind suggestion and the means of using that science to create magical ways of influencing others

Wordweaving Trevor Silvester, 2012 Textiles and Textile Imagery in Early Medieval English Literature Maren Clegg Hyer, 2025-04-22 Identifies and analyses a wide range of textile metaphors and imagery from peace weaving in Beowulf to word crafting in Elene Textile metaphors or metaphors involving the process and product of cloth making occur widely in literary traditions around the world The same phenomenon holds true among the peoples of early medieval England As close observers of a long and culturally significant textile tradition pre Conquest English writers drew upon their close familiarity with spinning and weaving to create a wide range of metaphorical textile images in both Old English and Anglo Latin literature This book examines early medieval English textile imagery in close detail situating it within its cultural and material contexts and addressing the ways in which lived experience informed these metaphors whether inherited invented or both It explores imagery linked to themes of creation peace death magic and fate in a comprehensive variety of texts including Beowulf and Elene Anglo Latin letters and riddles the Exeter Book riddles prognostics penitentials hagiographic and homiletic texts medical collections and glosses Overall it demonstrates how an understanding of this important body of textile metaphors alters and shapes the ways in which we read the literature of this period Textiles, Text, Intertext Maren Clegg Hyer, Jill Frederick, 2016 The theme of weaving a powerful metaphor within Anglo Saxon studies and Old English literature itself unites the essays collected here They range from consideration of interwoven sources in homiletic prose and a word weaving poet to woven riddles and iconographical textures in medieval art and show how weaving has the power to represent textiles texts and textures both literal and metaphorical in the early medieval period They thus form an appropriate tribute to Professor Gale R Owen Crocker whose own scholarship has focussed on exploring woven works of textile and dress manuscripts and text and other arts of the Anglo Saxon peoples **Word Weaving** David M. Johnson, 1990 A textbook introducing the essential nature of poetry and providing sample poems and suggestions for the writing of poetry

Hesychasm, Word-weaving, and Slavic Hagiography Maurice LaBauve Hébert, 1993 **Wordweaving** Trevor Silvester, 2015 Wordweaving presents a radical new approach to the use of hypnotic suggestion For years hypnotherapists have used scripts which are aimed at a particular problem like smoking or weight loss rather than aiming at the client who smokes or has weight issues This book suggests that it is not the problem that is the problem it s the client s unique

relationship with the problem that is the problem Mastering this book will free you from the constraints of scripts and enable you to use your creative skill to weave subtle spells that empower your clients by changing their model of reality It presents the science behind suggestion and the means of using that science to create magical ways of influencing others Using the latest research from neuroscience evolutionary psychology and NLP this book describes How past learning guides us now and how misinterpretation of our childhood experiences can shape our present How much of our behaviour is unconscious and often not in our direct control The matrix model of behaviour that can accurately map the process of a problem How our neurological levels organise our version of reality Wordweaving takes this knowledge and integrates it into a modern understanding of hypnosis to form the most complete step by step method for learning powerful hypnotic language The Wordweaving system teaches you how to Aim suggestions specifically at the key points of the client's problem Resolve problems by using the natural trance states we experience while experiencing the problem Linguistically frame the suggestion using the elegant and subtle language patterns from NLP to give it maximum impact Wordweaving is the most significant advance in hypnotic language since the Structure of Magic by Bandler and Grinder in the 70s Dr Shaun Brookhouse I would recommend this book unreservedly to anyone involved in the process of change whether assisting others therapeutically or simply for personal growth It will prove invaluable Fiona Biddle Executive Director National Council for Hypnotherapy

Wordweaving Trevor Silvester, 2012 **Wordweaving, Volume II** Trevor Silvester, 2010-06 Modern Hypnotherapy involves far more than reading problem related scripts to clients it involves understanding the client and using their way of seeing the world to help them with their issue In The Question is the Answer Trevor Silvester shows you how to ask the questions that provide you with the information you need to create hypnotic language patterns specifically for each client and guide them to finding their own answers to life's problems Building on the model introduced in Wordweaving The Science of Suggestion you will be able to integrate your suggestions into a model of therapy that guides you from the first appointment to the last maintaining your focus on the client's outcome and adapting to the changing situation as it evolves Using a questioning model developed by his observation of the great Gil Boyne the author shows you how three simple questions can uncover the pattern of a client's issue and also create their evidence for recovery How we imagine our future is a key to how we create it and provides a script based on scientific research that has been proven to increase how lucky we feel The Question is the Answer is aimed at therapists and counsellors who want to improve their ability to ethically influence develop amazing hypnotic language skills and have a therapeutic framework that provides the maximum opportunity for creativity without sacrificing clarity of purpose Eternity and Time Per-Arne Bodin, 2007 Bait and Switch Darlene Gardner, 2002 To catch a criminal and save his brother Mitch a cop agrees to switch places with his twin However nothing prepares him for Peyton a gorgeous knockout who is spittin mad at his brother Mitch must win back his brother's girlfriend and wooing the funny smart and caring Peyton is no hardship But when his heart is ensnared he must ask if Peyton has fallen
