going on to explain the built in features to show the breadth of NetSuite ERP's product and its ease of use. We then discuss business aspects focusing on the most important processes in NetSuite. Then you'll understand the implementation aspects that are generic enough to cover all the features. The focus then shifts to specific skills that you will need to administer for any system such as roles, permissions, customization, and data imports. Moving on, you'll learn how to centralize the creation of search templates and give users the tools to pivot the data and expose it to the user in useful ways such as on the dashboard. The book ends with checklists providing actionable steps that you as an administrator can take to do your job and support the application through new releases and troubleshooting problems. What you will learn: Provide executives with meaningful insights into the business. A Framework to streamline the implementation of new and existing features. Leverage built-in tools to optimize your efficiency and effectiveness. Test configuration to check the implementation of role-specific permissions. Understand how to optimize the amount of data to be shared with users. Import data like new leads and employ current data like pricing updates. Perform on-going maintenance and troubleshoot issues. Who this book is for: This book is for administrators, consultants, and Project Managers who would like to improve their skills in the areas of configuration and system management. Basic experience implementing NetSuite is assumed.

Assistive Technologies and Environmental Interventions in Healthcare Lynn Gitlow, Kathleen Flecky, 2019-10-07. Providing a holistic and client-centered approach, *Assistive Technologies and Environmental Interventions in Healthcare* explores the individual's needs within the environment, examines the relationship between disability and a variety of traditional and cutting-edge technologies, and presents a humanistic discussion of Technology Environment Intervention (TEI). Written by a multidisciplinary team of authors, this text introduces readers to a variety of conceptual practice models and the clinical reasoning perspectives. It also provides insight into how designers go about solving human-tech problems, discusses best practices for both face-to-face and virtual teams, and looks at the psychological, sociocultural, and cognitive factors behind the development and provision of assistive technologies. Examines a wide range of technologies and environmental interventions. Demonstrates how a better understanding of the complexity of human interaction with both the physical and social environment can lead to better use of technology. Explores the future of technology and research in TEI. Complete with a range of learning features such as keywords, case studies, and review questions, this book is ideal for undergraduate and graduate students in occupational therapy and other related health professions, as well as those undertaking certification and board examinations.
