Worker Resistance Under Stalin Jeffrey J. Rossman, 2005-11-30 Challenging the claim that workers supported Stalin's revolution from above as well as the assumption that working class opposition to a workers state was impossible Jeffrey Rossman shows how a crucial segment of the Soviet population opposed the authorities during the critical industrializing period of the First Five Year Plan Marshaling an impressive range of archival evidence Rossman recounts in vivid detail myriad individual and collective acts of protest including mass demonstrations food riots strikes slowdowns violent attacks against officials and subversive letters to the authorities Male and female workers in one of Russia's oldest largest and reddest manufacturing centers the textile plants of the Ivanovo Industrial Region actively resisted Stalinist policies that consigned them to poverty illness and hunger In April 1932 20 000 mill workers across the region participated in a wave of strikes Seeing the event as a rebuke to his leadership Stalin dispatched Lazar Kaganovich to quash the rebellion resulting in bloodshed and repression Moscow was forced to respond to the crisis on the nation's shop floors with a series of important reforms Rossman uncovers a new dimension to the relationship between the Soviet leadership and working class and makes an important contribution to the debate about the nature of resistance to the Stalinist regime **Worker Resistance**

Under Stalin Jeffrey John Rossman, 1997 Revolution and the People in Russia and China S. A. Smith, 2008-04-24 A unique comparative account of the roots of Communist revolution in Russia and China Steve Smith examines the changing social identities of peasants who settled in St Petersburg from the 1880s to 1917 and in Shanghai from the 1900s to the 1940s Russia and China though very different societies were both dynastic empires with backward agrarian economies that suddenly experienced the impact of capitalist modernity This book argues that far more happened to these migrants than simply being transformed from peasants into workers It explores the migrants identification with their native homes how they acquired new understandings of themselves as individuals and new gender and national identities It asks how these identity transformations fed into the wider political social and cultural processes that culminated in the revolutionary crises in Russia and China and how the Communist regimes that emerged viewed these transformations in the working classes they claimed to represent *A Dream Deferred* Donald A. Filtzer, 2008 This volume brings together the latest work in Russian labour history based on exciting materials from previously closed archives and collections Sixteen essays focusing on peasants and workers explore the lives and struggles of working people Ranging over a century of dramatic upheaval from the late 1800s to the present the essays are organized around three broad themes workers politics incentives and coercion within industrial and rural workplaces and household strategies The volume explores the relationship between the peasantry and the working class a nexus that has been central to state policy oppositional politics economic development and household configuration It profiles a working class rent by divisions and defined not only by its relationship to the workplace or the state but also by its household strategies for daily survival The essays explore many topics accessible for the first time

including the motivations of women workers roots of revolutionary activism the revolutionary movement outside the great cities socialist opposition to the Soviet regime reactions of workers to Stalinist terror socialist tourism peasant families in forced exile and work discipline on the collective farms **Popular Opinion in Totalitarian Regimes** Paul Corner,2009-10 A team of internationally acknowledged experts examines the question of popular opinion in totalitarian regimes looking at the ways in which ordinary people experienced everyday life in the Soviet Union Nazi Germany and Fascist Italy with consideration also of Poland and East Germany between 1945 and 1989 *Stalin's Defectors* Mark Edele,2017 The first systematic study of the phenomenon of frontline surrender to the Germans in the Soviet Union s Great Patriotic War against the Nazis in 1941-1945 showing that while people were disgruntled with Stalin s rule most attempts to cross the frontline stemmed from a wish to survive this war rather than a desire to support Hitler s regime **Protest, Reform and Repression in Khrushchev's Soviet Union** Robert Hornsby,2013-02-14 Protest Reform and Repression in Khrushchev s Soviet Union explores the nature of political protest in the USSR during the decade following the death of Stalin Using sources drawn from the archives of the Soviet Procurator s office the Communist Party the Komsomol and elsewhere Hornsby examines the emergence of underground groups mass riots and public attacks on authority as well as the ways in which the Soviet regime under Khrushchev viewed and responded to these challenges including deeper KGB penetration of society and the use of labour camps and psychiatric repression He sheds important new light on the progress and implications of de Stalinization the relationship between citizens and authority and the emergence of an increasingly materialistic social order inside the USSR This is a fascinating study which significantly revises our understanding of the nature of Soviet power following the abandonment of mass terror **Kritika** ,2008 **Left History** ,2006 The Soviet Dream World of Retail Trade and Consumption in the 1930s A. Randall,2008-10 This is a social and cultural history of the Stalinist campaign to establish Soviet retail trade exploring how societies in the interwar era responded to the challenges of mass distribution and consumption The Soviet Union at War, 1941-1945 David R. Stone,2010 Chapters explore key aspects of the Soviet organization of the war and shed fresh light on the transformation achieved by Stalin and his generals who faced the prospect of utter defeat in 1941 The structure tactics and operation of the Red Army through the war years are examined in close detail The real impact of partisans and resistance fighters is reconsidered as is the role of women and the influence of propaganda And the authors explore the economic and industrial policies and achievements that made victory on the battlefields possible Jacket *Factory and Community in Stalin's Russia* Kenneth M. Straus,1997 Was there social support for the Stalin regime among the Soviet working class during the 1930s and if so why Addressing this question the author of this book argues that the keys for interpreting Stalinism lie in occupational specialization and community organization **Bulletin** ,1998 *Everyday Life and the "reconstruction" of Soviet Russia During and After the Great Patriotic War, 1943-1948* Jeffrey W. Jones,2008 **Stalin's Police** Paul Hagenloh,2009-05-15 Stalin s Police offers a new

interpretation of the mass repressions associated with the Stalinist terror of the late 1930s This pioneering study traces the development of professional policing from its pre revolutionary origins through the late 1930s and early 1940s Paul Hagenloh argues that the policing methods employed in the late 1930s were the culmination of a set of ideologically driven policies dating back to the previous decade Hagenloh s vivid and monumental account is the first to show how Stalin s peculiar brand of policing in which criminals juvenile delinquents and other marginalized population groups were seen increasingly as threats to the political and social order supplied the core mechanism of the Great Terror **Stalin's Railroad** Matthew J. Payne,2001-11-15 Matthew Payne details the building and impact of the Turkestan Siberian Railroad one of the major construction projects of Stalin s first Five Year Plan *Program of the Annual Meeting - American Historical Association* American Historical Association,2006 Some programs include also the programs of societies meeting concurrently with the association **Property of Communists** Mark B. Smith,2010 This groundbreaking book s analysis of the dual impact of World War II and the death of Stalin on the USSR its reappraisal of the status of property and ownership in the first communist society and its anchoring in comparative history will appeal to a broad audience of scholars and students of European and Soviet history a like Book Jacket **Revision in History** ,2007 *International Labor and Working Class History* ,1999
