**Pragmatic Nonviolence: Working toward a Better World** Andrew Fitz-Gibbon,2020-12-29 Written in dialogue format Andrew Fitz Gibbon s Pragmatic Nonviolence argues that nonviolence is the best hope for a better world Human violence in all its forms physical psychological and systemic cultural is perhaps the greatest obstacle to well being in personal and community life Nonviolence as a practice that whenever possible seeks the well being of the Other by refusing to use violence to solve problems and by acting according to loving kindness is the best antidote to human violence By drawing on the philosophy of nonviolence the American pragmatist tradition and recent empirical research Pragmatic Nonviolence demonstrates that rather than being merely theoretical nonviolence is a truly practical approach toward personal and community well being

**A Better Me a Better World** George J. Butorac,2023-08-10 Despite unprecedented technological developments and material bounty our nation and the rest of the world face ever growing moral quandaries We are still beset with continuous warfare and religious strife along with a litany of other past transgressions These are all exaggerated by our population growth along with the growing complexity of life In addition our technological progress has created even more severe morality quandaries than our ancestors ever imagined Brilliant figures of the past espoused many still admired moral goals for better living However they are mostly rhetoric because they didn t provide a rational approach for achieving them Thus we are now saddled with a morality that couldn t even cope with a far simpler age Fortunately an explosion of knowledge interrelating genetics evolution and human physiology has occurred in recent years that can be used to construct a more relevant moral code One based on reality that can lead us to a more equitable and prosperous future A Better Me A Better World integrates these recent discoveries into a clearer image of reality than any of our revered philosophers could imagine based on their mystical conjectures Three valid purposes of life are derived from a careful examination of these new discoveries They are survival evolution being the best we can be and enjoyment The acronym SEE encapsulates this finding Next a physiological morality that guides all human behavior was found It uses the classic pain pleasure principle to guide personal behavior toward compliance with the three purposes of life Next it was found that the body has always used servo controls to guide all body functions Servo means using continuous feedback to help control all body actions The concept was first instituted by man in WWII being used to guide missiles against targets Servos are universally applicable For example applying them to all laws enacted would eliminate all the out of control outcomes we now routinely accept We will dramatically improve ourselves and the world around us by adopting moral guidelines based on these principles We are truly living in a time of discovery if we will only open our eyes and SEE

*Better Law for a Better World* Liz Curran,2021-04-19 How as a society can we find ways of ensuring the people who are the most vulnerable or have little voice can avail themselves of the protection in law to improve their social cultural health and economic outcomes as befits civilised society Better Law for a Better World answers this question by looking at innovative practices and developments emerging within

law practice and education and shares the skills and techniques that could lead to confidence in the law and its ability to respond. Using recent research from Australia, practice initiatives and information, the book breaks down ways for law students, legal educators and law practitioners including judicial officers, law administrators, legislators and policy makers to enhance access to justice and improve outcomes through new approaches to lawyering. These can include Multi-Disciplinary Practice including health justice partnerships, integrated justice practice, restorative practice, empowerment modes, community client-centred approaches and collaborative interdisciplinary practice informed by practical experience. The book contains critical information on what such practice might look like and the elements that will be required in the development of the essential skills and criteria for such practice. It seeks to open up a dialogue about how we can make the law better. This includes making the community more central to the operation of the law and improving client-centred practice so that the Rule of Law can deliver on its claims to serve, protect and ensure equality before the law. It explores practical ways that emerging lawyers can be trained differently to ensure improved communication, collaboration, problem-solving, partnership and interpersonal skills. The book explores the challenges of such work. It also gives suggestions on how to reduce professional barriers and variations in practice to effectively, humanely and efficiently make a difference in people's lives. The book builds essential skills and new approaches to lawyering for law students, legal educators, new lawyers and seasoned lawyers, judicial members and law administrators to equip them to better respond to community need. It looks at the law in context by also exploring the role of the law in improving the social determinants of health and socially just outcomes.

Forests for a better world Food and Agriculture Organization of the United Nations, 2022-12-13 To coincide with the 50th anniversary of FAO's Committee on Forestry, this edition of *Unasylva* showcases ways in which forests are delivering the four betters and underscores how forests are crucial for resilient and sustainable agrifood systems in a changing climate. As FAO's longest running periodical, *Unasylva* focuses on issues and themes relevant to forestry and forest industries and aims to bring globally significant developments in forestry to policy makers, forest managers, technicians, researchers, students and teachers around the globe.

**Live More, Work Better** Gayle Hilgendorff, 2015-07-21 Gayle Hilgendorff had it all and the workaholic stress and anxiety to prove it. After twenty-one years in Human Resources for a Fortune 500 company, she realized that her work-life balance leaned more toward work than life. So she did something about it not by giving it all up but by finding a way to have more. Do you worry constantly about how others perceive your performance? Does the idea of taking time off stress you out more than relax you? Have you lost yourself in your work, family obligations and forgotten YOU? If any of those sound familiar, Gayle is here to help you start on your work-life detox. This is not the story of someone who woke up one morning and turned her back on all she had earned. Gayle simply made small changes on a daily basis to create a true balance while still keeping the power and prestige she had worked so hard to gain. And now she wants to help you do the same. The pragmatic tips and suggestions combined with the wit of someone who has gone through exactly what you're going through right now.
