Unhooking from Whiteness Cleveland Hayes, Nicholas D. Hartlep, 2013-11-19 The purpose of *Unhooking from Whiteness* The Key to Dismantling Racism in the United States is to reconsider the ways and strategies in which antiracist scholars do their work as well as to provide pragmatic ways in which people White and of color can build cross racial cross communal and cross institutional coalitions to fight White supremacy Employing the methodology of autoethnography each chapter in this book illustrates the individual journey that the chapter contributor took to unhook him or herself from Whiteness *Unhooking from Whiteness* explains Whiteness in ways never conceptualized before The chapters suggest

approaches to unhooking from Whiteness while sharing the authors continual struggles to identify and eradicate the role of Whiteness in education and society in the United States The contributors to Unhooking from Whiteness offer us the invaluable gift of their stories humble reflections on commitments to racial justice and complicities with racial injustice But they aren't merely stories and this is the brilliance of the book they are invitations into a reconsideration of the common sense discussions about the nature of white privilege the possibility of white anti racism and the pervasive tug of whiteness This is the rare book that shifts the angle and changes the conversation Paul Gorski Coordinator of the Social Justice Concentration George Mason University *Affirming Language Diversity in Schools and Society* Pierre Orelus, 2014-01-10 Language is perhaps the most common issue that surfaces in debates over school reform and plays a vital role in virtually everything we are involved This edited volume explores linguistic apartheid or the disappearance of certain languages through cultural genocide by dominant European colonizers and American neoconservative groups These groups have historically imposed hegemonic languages such as English and French on colonized people at the expense of the native languages of the latter The book traces this form of apartheid from the colonial era to the English only movement in the United States and proposes alternative ways to counter linguistic apartheid that minority groups and students have faced in schools and society at large Contributors to this volume provide a historical overview of the way many languages labeled as inferior minority or simply savage have been attacked and pushed to the margins discriminating against and attempting to silence the voice of those who spoke and continue to speak these languages Further they demonstrate the way and the extent to which such actions have affected the cultural life learning process identity and the subjective and material conditions of linguistically and historically marginalized groups including students Teaching, Learning, and Schooling in Film Daniel P. Liston, Ian Renga, 2014-12-05 Films about education provide many of the most popular interpretations of what teaching and learning mean in schools An analysis of this medium reveals much about the historical cultural political and philosophical dimensions of education Timely and engaging this book fills a gap for scholarly and informed public commentary on the portrayal of education in film offering a wide range of conceptual and interpretive perspectives Teaching Learning and Schooling in Film explores several key questions including What does it mean to be a good teacher How do these good teachers instruct When is and what makes teaching complex What constitutes learning Do educational reforms work The book's interdisciplinary group of contributors answers these important questions in essays highlighting Hollywood independent and documentary films Prospective and practicing teachers will engage with the thought provoking educational issues raised in this book and gain insight into the complexities of teaching and learning portrayed in film *Latina Teachers* Glenda M. Leadership for Social Change Marcia Venegas-García, 2021 An examination of the literature in the field of Leadership Studies exposes a void in understanding activism as leadership among Latinas Chicanas The contemporary theories of scholars including James MacGregor Burns 1978 and Joseph C Rost 1993 suggest there may be shared qualities between specific concepts of leadership and the everyday working practices of Latina Chicana activist educators Yet academics within the field of Leadership Studies have little knowledge of this relationship or the unique ways in which Latina Chicana educators engage as leaders activists and agents for change specifically in educational communities Research into women s studies ethnic studies and Chicana feminist studies alert us to the complex and important role that social context and the intersectionality of gender ethnicity race and class play in the development of these educators leadership styles This qualitative research project uses a grounded theory approach Charmaz 2006 to a reveal Latinas Chicanas perspective of activism and its relationship to leadership b understand how their perceptions and actions are influenced by gender ethnicity race and class and c expose the influence of cultural social and educational context in shaping their activism and leadership

In depth interviews were conducted with seven Latinas Chicanas from various educational settings in San Diego County. Patterns and themes emerging from rich interview data were examined to construct an analysis of the meaning and relevance of activism in their lives and to discover how their activism was related to contemporary views of leadership. Findings show how the activist identity of the Latinas Chicanas in this study was the result of a process of individual development that was shaped by circumstances resulting from their social location, support from familial and community mentors, models, significant life events, and educational experiences. Their heightened and evolving consciousness and social justice identity fueled their activism and leadership. The stories of their experiences demonstrate a theory of action that emphasizes a transformational and socially responsible leadership style, one that is focused on advocacy for students without privilege and status and closely tied to the social issues of their community.

Chicana/o Struggles for Education Guadalupe San Miguel, 2013-06-03. Much of the history of Mexican American educational reform efforts has focused on campaigns to eliminate discrimination in public schools. However, as historian Guadalupe San Miguel demonstrates in *Chicana/o Struggles for Education: Activism in the Community*, the story is much broader and more varied than that. While activists certainly challenged discrimination, they also worked for specific public school reforms and sought private schooling opportunities, utilizing new patterns of contestation and advocacy. In documenting and reviewing these additional strategies, San Miguel's nuanced overview and analysis offers enhanced insight into the quest for equal educational opportunity to new generations of students. San Miguel addresses questions such as what factors led to change in the 1960s and in later years, who the individuals and organizations were that led the movements in this period, and what motivated them to get involved and what strategies were pursued, how they were chosen, and how successful they were. He argues that while Chicana/o activists continued to challenge school segregation in the 1960s, as earlier generations had, they broadened their efforts to address new concerns such as school funding, testing, English-only curricula, the exclusion of undocumented immigrants, and school closings. They also advocated cultural pride and memory, inclusion of the Mexican American community in school governance, and opportunities to seek educational excellence in private religious, nationalist, and secular schools. The profusion of strategies has not erased patterns of de facto segregation and unequal academic achievement. San Miguel concludes but it has played a key role in expanding educational opportunities. The actions he describes have expanded, extended, and diversified the historic struggle for Mexican American education.

Transforming Educational Pathways for Chicana/o Students William Ayers, 2016-12-23. This book chronicles a 10-year journey to develop and sustain Adelante, a university-school-community partnership designed specifically to address public education's failure to meet the needs of students of color, particularly Chicana/o students. The authors examine the persistent barriers, mistakes, challenges, and successes that emerged in their community-based partnership with elementary school students, college students, teachers, parents, and educational leaders. Intertwining critical race theories with Chicana feminist theories, they propose a critical race feminist

praxis and provide real world examples of what this praxis can look like in the context of a racialized gendered and colonial landscape The book offers practical advice and theoretical insight to those interested in disrupting pervasive inequities that shape the mis education of marginalized students Book Features Fills a void about how to engage in activist scholarship by describing concrete strategies and practices employed by the authors Offers theoretical contributions through the braiding together of critical race and Chicana feminist theories Proposes a partnership model for working with communities of color that promotes pathways to higher education

Teaching with Conscience in an Imperfect World William Ayers, 2016 How do we see our schools and the project of education Is this the best we can do What would we like our schools to become How might we get there In this provocative book Bill Ayers invites us to dream of schools in which each child is of infinite and incalculable value Blending personal anecdotes with critique of the state of education this beautifully written little book is filled with big ideas that explore the challenges and opportunities for an education system that desperately needs repair Teaching with Conscience in an Imperfect World is an urgent call to action and a plan to help educators policymakers and parents to stretch toward something new and dramatically better schools that are more joyful and more just more balanced and more guided by the power of love Provided by publisher
