Workplace Or Womens Place:

Workplace/women's Place Paula Dubeck, Dana Dunn, 2006 The articles in this reader are highly accessible to undergraduates Paula J Dubeck and Dana Dunn's interdisciplinary approach offers a social science emphasis documenting important trends in women's work lives with quantitative and qualitative evidence from both scholarly and journalistic sources The new edition probes the continuing challenges that women face as they enter and participate in the world of work The new readings illuminate factors that influence women's preparation for work and the occupations they choose The articles also demonstrate the challenges women encounter in the workplace and in seeking to balance the demands of work and family life Work experiences of diverse groups of women highlight both their unique experiences and the similarity of experiences that cross cut racial and ethnic identity In addition this anthology provides an examination and assessment of a number of policies that have developed as a response to the changing labor force participation of women over the past three decades Reflecting the dynamic nature of the field nearly half of the readings are new pursuing math related careers In Unit Two issues surrounding the glass ceiling are examined from the divergent perspectives of CEOs and high achieving women showing how these competing perspectives are misaligned Unit Three includes a selection focusing on women who choose to leave high status high demand careers off ramping for family reasons In Unit Four the readings on employment experiences are updated and presented through the eyes of a broad array of women including African American Latina and immigrant women In Unit Five selections offer an assessment of policies that directly affect working women and their careers Major concepts are highlighted and explained in the introductions to the units which also provide background information Food for Thought and Application questions at the end of each reading are included to encourage the synthesis of information and to explore possible solutions to some of women's most vexing problems in today's workplace women and work including labor force participation rates earnings the wage gap occupational concentration and family work data *The Gender*

Communication Connection Teri Kwal Gamble, Michael W. Gamble, 2020-11-09 The third edition of this classic text helps readers consider the myriad ways gendered attitudes and practices influence communication in our personal and professional interactions Written in an engaging style with a wide array of exercises designed to challenge and interest readers in applying what they learn the book integrates research with examples from contemporary life related to gender and culture race class and media Among new topics covered in this edition are multiple genders gender activism and the MeToo movement and challenges of twenty first century masculinities and femininities including expanded coverage of contemporary male issues Fresh coverage is also afforded to each communication context particularly gender at work the legal and political spheres global cultures and the digital world including social media The book is ideally suited for undergraduate courses in gender and communication within communication studies sociology and business departments Online resources include lecture slides and an instructor's manual **Re-reading Spare Rib** Angela Smith, 2017-09-07

Spare Rib remains one of the most iconic symbols of Second Wave Feminism its influence far out living the span of its publication 1972-1993 This collection examines various aspects of the magazine based on the digitised publication by the British Library in 2015 in order to explore the ways in which it has influenced society in the twentieth and twenty first centuries as well as the lives of individual readers By analysing several articles from a modern post feminist perspective and using cross generational interviews of Spare Rib readers and reflective accounts of reading the publication the significance and endurance of the publication is demonstrated Written by both academics experienced researchers and independent scholars alike the inter disciplinary nature of the text results in a multi dimensional reading of Spare Rib suitable for both an academic and general readership interested in cultural and media studies

Handbook of the Sociology of Gender Janet Saltzman Chafetz, 2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapsychic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while incorporating some cross disciplinary material this volume focuses specifically on sociological theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines

Wittner,Kristin Blakely,2009 In *Gendered Worlds* the authors use the sociological imagination to explore gender relations throughout the world They look at how concrete forms of gender race class and sexual inequality operate transnationally examine the impact of globalization on local and everyday life experiences and identify how local actors re imagine social possibilities resist injustice and work toward change Integrating theory with empirical studies that are of particular interest to college students including research on violence sports and sexuality the authors make gender concepts

genuinely interesting and accessible They also demonstrate how students can think critically about gender both within and beyond the classroom Each chapter begins with an opening scenario about an individual experience of gender and then traces how macro level factors shape that micro experience A section entitled *Gender Matters* follows each chapter to summarize the micro macro connection **Difference Matters** Brenda J. Allen,2004 Aimed at students of organizational

communications this text separates the concept of socially constructed identity from its theoretical underpinnings to discuss communications between different categories of identity Allen U of Colorado Denver takes categories of difference gender race class sexuality age and ability in turn to remind her students that each matters despite the traditions of prejudice Each chapter includes questions for reflection Annotation 2004 Book News Inc Portland OR booknews com **Harvard Women's**
