American Literature and the Culture of Reprinting, 1834-1853 Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s American Literature and the Culture of Reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights Faust E. A. Bucchianeri, 2008 A comprehensive exploration of Dr Faust the man who sold his soul to the devil and those who lived to tell his tale Volume I includes New insights into the life and times of the historical Dr Faustus the notorious occultist and charlatan who reputedly declared the devil was his brother in law A detailed study of the first Faust books and the popular Faustian folk tales Original discussions on Christopher Marlowes famous drama and his atheistic rendition of the Faustian myth including a unique and controversial analysis of the A and B texts The days of the Faust puppet plays Gotthold Ephraim Lessings unfinished Faust drama Volume II features A unique in depth account of Johann Wolfgang von Goethes masterpiece Faust Parts One and Two An examination of the early sketches of his classic drama Includes detailed explanations of Goethes hidden symbolism in the text his interest in history and science the occult alchemy Freemasonry and his warnings to future generations **They Who Endure to the End** Everett Berry, 2020-07-30 Is it possible for a true believer in Christ to apostatize If so how Also how can professing believers know if they are truly born again What assurance can they have that they will never renounce their faith These questions have been asked for centuries as Christians have wrestled with what Scripture says about these matters The search for answers has instilled strong disagreements among Christian traditions In this book we navigate the terrain of this debate by examining the pertinent biblical data surveying the history of major views that have been advocated by various denominations and offering a synthesis of all this material in the hopes that readers can see how Scripture assures believers of their security in Christ **List of Works on Corea, Japan, and China** Boston
