

A muscular man is shown from the back, his torso and arms highly defined. A woman is embracing him from behind, her hands resting on his shoulders and waist. They are in a vast, open landscape under a dramatic, colorful sky with shades of orange, red, and purple, suggesting a sunset or sunrise. The overall mood is romantic and sensual.

Fire and Flood Eugene Linden, 2022-04-05 Winner of the American Meteorological Society's Louis J. Batton Book of the Year Award From a writer and expert who has been at the center of the fight for more than thirty years a brilliant big picture reckoning with our shocking failure to address climate change *Fire and Flood* focuses on the malign power of key business interests arguing that those same interests could flip the story very quickly if they can get ahead of a looming economic catastrophe Eugene Linden wrote his first story on climate change for *Time* magazine in 1988 it was just the beginning of his investigative work exploring all ramifications of this impending disaster *Fire and Flood* represents his definitive case for the prosecution as to how and why we have arrived at our current dire pass closing with his argument that the same forces that have confused the public's mind and slowed the policy response are poised to pivot with astonishing speed as long term risks have become present day realities and the cliff's edge is now within view Starting with the 1980s Linden tells the story decade by decade by looking at four clocks that move at different speeds the reality of climate change itself the scientific consensus about it which always lags reality public opinion and political will which lag further still and perhaps most important business and finance Reality marches on at its own pace but the public will and even the science are downstream from the money and *Fire and Flood* shows how devilishly effective moneyed climate change deniers have been at slowing and even reversing the progress of our collective awakening When a threat means certain but future disaster but addressing it means losing present tense profit capitalism's response has been sadly predictable Now however the seasons of fire and flood have crossed the threshold into plain view Linden focuses on the insurance industry as one loud canary in the coal mine fire and flood zones in Florida and California among other regions are now seeing what many call climate redlining The whole system is teetering on the brink and the odds of another housing collapse for starters are much higher than most people understand There is a path back from the cliff but we must pick up the pace *Fire and Flood* shows us why and how **Burnt River** Karin Salvalaggio, 2015-05-12 When Detective Macy Greeley is called to Wilmington Creek a sleepy ranching community in northern Montana she expects an open and shut high profile murder case What greets her is anything but John Dalton a soldier returned home from serving in Afghanistan has been shot dead in an alleyway outside a local bar Macy can't see any obvious motive for the attack but John's closest friends and his twin sister Jessie have been keeping secrets With a series of wildfires pushing the area's resources to the limit and Darby Lake's water level dropping to a record low Jessie is becoming increasingly anxious about what may be uncovered if the rains don't return to the valley soon Haunted by what's hidden beneath the still waters she doesn't know whether to help or hinder Macy's investigation And Macy herself is increasingly uneasy about what she discovers as she navigates the politics of a small town and the Dalton family clan as well as her own complicated relationship with the father of her young son Macy Greeley returns in another taut and intimate mystery from acclaimed *Bone Dust White* author Karin Salvalaggio Of Fire And Flame Donna Grant, 2021-03-22 Return to

New York Times bestselling author Donna Grant's *Dark Kings* world for a special prequel novella *Three extraordinary beings one tangled Fate Untold* power requires unfathomable responsibility But it also brings danger sacrifice heartache and many tough decisions One fateful day and the choices and actions therein have the power to ripple across time affecting more people than ever imagined Destiny brought them together Fate tore them apart But time may heal all wounds **Keeping Faith with Nature** Robert B. Keiter, 2008-10-01 As the twenty first century dawns public land policy is entering a new era This timely book examines the historical scientific political legal and institutional developments that are changing management priorities and policies developments that compel us to view the public lands as an integrated ecological entity and a key biodiversity stronghold Once the background is set each chapter opens with a specific natural resource controversy ranging from the Pacific Northwest's spotted owl imbroglio to the struggle over southern Utah's Colorado Plateau country Robert Keiter uses these case histories to analyze the ideas forces and institutions that are both fomenting and retarding change Although Congress has the final say in how the public domain is managed the public land agencies federal courts and western communities are each playing important roles in the transformation to an ecological management regime At the same time a newly emergent and homegrown collaborative process movement has given the public land constituencies a greater role in administering these lands Arguing that we must integrate the new imperatives of ecosystem science with our devolutionary political tendencies Keiter outlines a coherent new approach to natural resources policy

The Sound Of Silence Akanksha G Mittal, All the things that make you strong Come only once life has broken you Like the sky with colours right or wrong Shall best be known for its shades of blue *The Sound of Silence* Akanksha G Mittal's debut collection of poems is a poignant exploration of themes including love longing loss melancholy liberation and euphoria Thoughtfully crafted each poem weaves a cautionary tale for the wandering heart while it upholds a fragile yet tenacious belief in life and light With its evocative imagery *The Sound of Silence* presents an ever shifting kaleidoscope of emotions in the course of a sinuous journey called Life **Lessons of the Heart** Helen Hardt, 2016-03-23 Editorial Reviews The main characters had such dynamic emotional personalities it seemed as if they were destined to find each other However a happily ever after was not simply reached The style of Hardt's book grabbed my attention Hardt is an author whom I expect to see more and more of in the future *The Romance Studio* This story is one of the best I've read Stories like this one don't come along very often The writing is excellent the flow is perfect the characters are likable loveable even when there's the chance these two won't wind up together Long and Short Reviews Synopsis Spinster schoolteacher Ruth Blackburn has accepted her fate She's not meant for love especially not with ill mannered though excruciatingly handsome Garth Mackenzie the widowed father of one of her students She'll just have to ignore the fact that he makes her skin heat Garth Mackenzie is used to loss The Civil War cost him his best friend and his ability to sleep through the night and illness stole his wife and son To avoid the pain of losing his daughter he keeps her at arm's length much to her teacher's dismay Ruth Blackburn is independent and

opinionated just what Garth doesn't need But her vibrant beauty and energy awaken feelings in him he thought long dead

Fabulous Vernacular Victoria Kirkham, 2001 An exploration of Boccaccio's Filocolo its cultural and historical context and a defense against modern criticism Shamanic and Mythic Cultures of Ethnic Peoples in Northern China Fu Yuguang, 2021-04-14 Based on first hand materials gathered through decades of field research and fleshed out with the author's insightful religious cultural and historical observations extending back to Qing Dynasty times ancient archaeological discoveries and the legacy of Siberian peoples this two volume ethnological study investigates shamanic rituals myths and lore in northern China and explores the common ideology underlying the origins of the region's cultures The two volumes discuss the spiritual world of northern Shamanism and investigates the various shamanic rituals divination spirit idols and myths illuminating how worship and ideas are imbedded in and interweave with the indigenous environment culture and history of people in northern China This mythic heritage embodies the peoples understanding of the natural world the creation of humankind social life and history as well as their interaction with their surroundings It is shown that shamanic spirituality in northern China is characterised by functionality and practicality in daily life situations in contrast to the received wisdom that defines shamanic praxis as a pure supernatural spirit journey The set will be of great value for scholars of religion and anthropologists as well as ethnologists in the fields of Shamanism studies Northeast Asian folklore and Manchu studies *Forest and Stream*, 1906 Firestorm Edward Struzik, 2017-10-05 Frightening Firestorm comes alive when Struzik discusses the work of offbeat scientists New York Times Book Review Comprehensive and compelling Booklist A powerful message Kirkus Should be required reading Library Journal For two months in the spring of 2016 the world watched as wildfire ravaged the Canadian town of Fort McMurray Firefighters named the fire the Beast It acted like a mythical animal alive with destructive energy and they hoped never to see anything like it again Yet it's not a stretch to imagine we will all soon live in a world in which fires like the Beast are commonplace A glance at international headlines shows a remarkable increase in higher temperatures stronger winds and drier lands a trifecta for igniting wildfires like we've rarely seen before This change is particularly noticeable in the northern forests of the United States and Canada These forests require fire to maintain healthy ecosystems but as the human population grows and as changes in climate animal and insect species and disease cause further destabilization wildfires have turned into a potentially uncontrollable threat to human lives and livelihoods Our understanding of the role fire plays in healthy forests has come a long way in the past century Despite this we are not prepared to deal with an escalation of fire during periods of intense drought and shorter winters earlier springs potentially more lightning strikes and hotter summers There is too much fuel on the ground too many people and assets to protect and no plan in place to deal with these challenges In *Firestorm* journalist Edward Struzik visits scorched earth from Alaska to Maine and introduces the scientists firefighters and resource managers making the case for a radically different approach to managing wildfire in the 21st century Wildfires can no longer be treated as avoidable events

because the risk and dangers are becoming too great and costly Struzik weaves a heart pumping narrative of science economics politics and human determination and points to the ways that we and the wilder inhabitants of the forests around our cities and towns might yet flourish in an age of growing megafires
