Wild Plants In The Land Of Israel:

Wild Plants in the Land of Israel Naomi Feinbrun-Dothan, 1960 **Wild plants in the land of Israel** Naomi Feinbrun-Dothan, 1968 Medicinal and Aromatic Plants of the Middle-East Zohara Yaniv, Nativ Dudai, 2014-09-11 The current volume *Medicinal and Aromatic Plants of the Middle East* brings together chapters on selected unique medicinal plants of this region known to man since biblical times. Written by leading researchers and scientists, this volume covers both domesticated crops and wild plants with great potential for cultivation. Some of these plants are well known medicinally such as opium poppy and khat, while others such as apharesmon and citron have both ritual and medicinal uses. All have specific and valuable uses in modern society. As such, it is an important contribution to the growing field of medicinal and aromatic plants. This volume is intended to bring the latest research to the attention of the broad range of botanists, ethnopharmacists, biochemists, plant and animal physiologists, and others who will benefit from the information gathered therein. Plants know no political boundaries and bringing specific folklore to general medical awareness can only be for the benefit of all. *Ezekiel's Hierarchical World* Stephen L. Cook, Corrine L. Patton, 2004 Can we live with the God of Ezekiel? Can we relate to a God who has established a multilayered hierarchy that separates the divine from the human who creates boundaries that segregate people from the temple, the priesthood, and the glory of the Lord? In contrast to those who suggest that Ezekiel should no longer be read as an authoritative part of the canon, the essays in this volume engage Ezekiel's hierarchical world directly, neither dismissing it out of hand nor accepting it uncritically. By wedding theological interest and reflection with serious biblical exegesis and criticism, this work helps readers to understand Ezekiel's hierarchical theology, especially the book's views on creation, priesthood, and land. It thus equips readers to form their own evaluations of the relevance of Ezekiel's theology for today. Contributors include Daniel I. Block, Keith Carley, Stephen L. Cook, Kathryn Pfisterer, Darrin M. Duguid, Friedrich Fechter, Julie Galambush, Norman Habel, Risa Levitt Kohn, Corrine L. Patton, David L. Petersen, Baruch J. Schwartz, Daniel L. Smith, Christopher and Steven Shawn Tuell. Paperback edition is available from the Society of Biblical Literature, www.sbl-site.org. Ancient Jewish Food in Its Geographical and Cultural Contexts Susan Weingarten, 2025-03-25 This book is the first in-depth study of food in talmudic literature in its geographical and cultural contexts. It demonstrates the sharing of foods and foodways between Jews and their non-Jewish neighbours in the Near East in Late Antiquity. Using both ancient written sources and archaeological evidence, this book sets the foods of the Mishnah and Palestinian Talmud in their Graeco-Roman context and the foods of the Babylonian Talmud and the Geonim in their Persian and Arab contexts. It explores practices of food preparation and their contribution to the ancient diet, as well as analysing the relationships between food, status, and culture. The rabbinical authors of talmudic literature were more concerned with everyday food than were aristocratic Classical authors. By examining both talmudic sources and archaeological finds, this book paints a new picture of the diet, lifestyle, and culture of ordinary people. *Ancient Jewish Food in Its Geographical and Cultural Contexts* will interest
