deepest self **Willa Cather and Modern Cultures** Melissa J. Homestead, Guy J. Reynolds, 2011-10-01 Linking Willa Cather to the modern or modernism still seems an eccentric proposition to some people Born in 1873 Cather felt tied to the past when she witnessed the emergence of twentieth century modern culture and the clean classical sentences in her fiction contrast starkly with the radically experimental prose of prominent modernists Nevertheless her representations of place in the modern world reveal Cather as a writer able to imagine a startling range of different cultures Divided into two sections the essays in Cather Studies Volume 9 examine Willa Cather as an author with an innovative receptivity to modern cultures and a powerful affinity with the visual and musical arts From the interplay between modern and antimodern in her representations of native culture to the music and visual arts that animated her imagination the essays are unified by an understanding of Cather as a writer of transition whose fiction meditates on the cultural movement from Victorianism into the twentieth century **Willa Cather's The Song of the Lark: the 1937 Revisions and Their Significance** Patricia Robin Roney Heyeck, 1965 **Violence, the Arts, and Willa Cather** Joseph R. Urgo, Merrill Maguire Skaggs, 2007 Willa Cather was devoted to making art in the face of violence Here she emerges as a resource for survival in an age of terror an artist who encourages her readers to feel at home in the nexus of creativity and terror and to seek creative responses to the horror of human life **New Essays on My Ántonia** Sharon O'Brien, 1999 A collection of essays on Willa Cather's most famous novel My Ántonia **Mountains Figured and Disfigured in the English-Speaking World** Françoise Besson, 2020-06-01 The essays in this book written by poets novelists mountain climbers and academics from all over the world evoke the representation of mountains in the English speaking world as artists writers philosophers or mountain climbers have represented them from the sixteenth to the twenty first centuries From the Alps to the Pyrenees from Mount Fuji to Mount Shasta from the Himalayas to the Scottish Highlands from Ikere in Nigeria to Devil's Tower in the United States from Uluru in Australia to the most northern mountain of the Arctic the shapes of the world speak the same language and tell the world its own story This interdisciplinary book weaving together mountaineering literature philosophy painting cinema ecology history palaeontology geography geopolitics toponymy law religion and myth invites people to an innovative reading of mountains it reveals the close relationship existing between the shapes of the world and all forms of writing and at the same time it shows how the representations of the imagination may be instrumental in protecting the natural world The story told by the landscape inscribes a broken line in the shapes of the world tearing the landscape like a fragile page whenever historical and political events wars mining or deforestation leave scars in the landscape but writers and artists representations of mountains constitute a path to awareness as they are not only a painting of beauty but an image of our link to nature and a warning as well For centuries the image of the mountain has conveyed a symbolism telling the story of human thought and this book shows to what extent literature and art play an essential part in our awareness of nature

Cather Studies, Volume 14 Marilee Lindemann, *Modern Sentimentalism* Lisa Mendelman, 2019-12-17 Modern

Sentimentalism examines how American female novelists reinvented sentimentalism in the modernist period Just as the birth of the modern woman has long been imagined as the death of sentimental feeling modernist literary innovation has been understood to reject sentimental aesthetics Modern Sentimentalism reframes these perceptions of cultural evolution Taking up icons such as the New Woman the flapper the free lover the New Negro woman and the divorcee this book argues that these figures embody aspects of a traditional sentimentality while also recognizing sentiment as incompatible with ideals of modern selfhood These double binds equally beleaguer the protagonists and shape the styles of writers like Willa Cather Edith Wharton Anita Loos and Jessie Fauset Modern sentimentalism thus translates nineteenth century conventions of sincerity and emotional fulfillment into the skeptical self-conscious modes of interwar cultural production Reading canonical and under examined novels in concert with legal briefs scientific treatises and other transatlantic period discourse and combining traditional and quantitative methods of archival research Modern Sentimentalism demonstrates that feminine feeling far from being peripheral to twentieth century modernism animates its central principles and preoccupations

Edith Wharton, Willa Cather, and the Place of Culture Julie Olin-Ammentorp, 2019-10-01 Edith Wharton and Willa Cather wrote many of the most enduring American novels from the first half of the twentieth century including Wharton's *The House of Mirth* *Ethan Frome* and *The Age of Innocence* and Cather's *O Pioneers!* *My Antonia* and *Death Comes for the Archbishop* Yet despite their perennial popularity and their status as major American novelists Wharton 1862-1937 and Cather 1873-1947 have rarely been studied together Indeed critics and scholars seem to have conspired to keep them at a distance Wharton is seen as our literary aristocrat an author who chronicles the lives of the East Coast Europe-bound elite while Cather is considered a prairie populist who describes the lives of rugged western pioneers These depictions though partially valid nonetheless rely on oversimplifications and neglect the striking and important ways the works of these two authors intersect The first comparative study of Edith Wharton and Willa Cather in thirty years this book combines biographical historical and literary analyses with a focus on place and aesthetics to reveal Wharton's and Cather's parallel experiences of dislocation their relationship to each other as writers and the profound similarities in their theories of fiction Julie Olin Ammentorp provides a new assessment of the affinities between Wharton and Cather by exploring the importance of literary and geographic place in their lives and works including the role of New York City the American West France and travel In doing so she reveals the two authors shared concern about the culture of place and the place of culture in the United States

Cather Studies, Volume 12 Cather Cather Studies, 2020-01-01 Over the five decades of her writing career Willa Cather responded to and entered into dialogue with shifts in the terrain of American life These cultural encounters informed her work as much as the historical past in which much of her writing is based Cather was a multifaceted cultural critic immersing herself in the arts broadly defined theater and opera art narrative craft production Willa Cather and the Arts shows that Cather repeatedly engaged with multiple forms of art and that even when writing about the past she was often addressing contemporary questions The essays in this volume are informed by new modes of contextualization including the increasingly popular view of Cather as a pivotal or transitional figure working between and across very different cultural periods and by the recent publication of Cather s correspondence The collection begins by exploring the ways Cather encountered and represented high and low cultures including Cather s use of racialized vernacular in Sapphira and the Slave Girl The next set of essays demonstrates how historical research often focusing on local features in Cather s fiction contributes to our understanding of American culture from musicological sources to the cultural development of Pittsburgh The final trio of essays highlights current Cather scholarship including a food studies approach to O Pioneers and an examination of Cather s use of ancient philosophy in The Professor s House Together the essays reassess Cather s lifelong encounter with and interpretation and reimagining of the arts

Willa Cather Janis P. Stout, 2000-12-29 Previous biographies of Willa Cather have either recycled the traditional view of a writer detached from social issues whose work supported a wholesome view of a vanished America or they have focused solely on revelations about her private life Challenging these narrow interpretations Janis P Stout presents a Cather whose life and quietly modernist work fully reflected the artistic and cultural tensions of her day A product of the South she was born in Virginia Cather went west with her family at an early age a participant in the aspirations of Manifest Destiny Known for her celebrations of immigrants on the prairie she in fact shared many of the ethnic suspicions of her contemporaries Loved by a popular audience for her pieties of family and religion she was in her youth a freethinker who resisted traditional patterns for women's lives cutting her hair like a boy's and dressing in men's clothing Seen by critics since the 1930s as a practitioner of an escapist formalism she was in Stout's view profoundly ambivalent about most of the important questions she faced Cather structured her writing to control her uncertainty and project a serenity she did not in fact feel Cather has at times been viewed as a writer preoccupied with the past whose literary project had little to do with the intellectual currents of her time On the contrary Stout argues Cather was a full participant in the doubts and conflicts of twentieth century modernity Only in recoil from her distress at these conflicts did she turn to overt celebrations of the past and construct a retiring crotchety persona The Cather that emerges from Stout's treatment is a modernist conservative in the mold of T S Eliot though more responsive to her time and simultaneously less assured in her pronouncements Cather's sexuality too is more complicated in Stout's version than previous biographers have allowed Willa Cather *The Writer and Her World* presents a woman and an artist who fully exemplifies the ambivalence the foreboding and above all the complexity that we associate with the twentieth century mind
