Willful Blindness A Memoir Of The Jihad:

Willful Blindness Andrew C. McCarthy, 2010-03-29 Long before the devastation of September 11 2001 the war on terror raged The problem was that only one side radical Islam was fighting it as a war For the United States the frontline was the courtroom So while a diffident American government prosecuted a relative handful of defendants committed militants waged a campaign of jihad holy war boldly targeting America s greatest city and American society itself for annihilation The jihad continues to this day But now fifteen years after radical Islam first declared war by detonating a complex chemical bomb in the heart of the global financial system former federal prosecutor Andrew C McCarthy provides a unique insider s perspective on America s first response McCarthy led the historic prosecution against the jihad organization that carried out the World Trade Center attack the battalions of Islam inspired by Omar Abdel Rahman the notorious Blind Sheikh In **Willful Blindness** he unfolds the troubled history of modern American counterterrorism It is a portrait of stark contrast a zealous international network of warriors dead certain despite long odds that history and Allah are on their side pitted against the world s lone superpower unsure of what it knows of what it fights and of whether it has the will to win It is the story of a nation and its government consciously avoiding Islam s animating role in Islamic terror From the start it led top U S law enforcement and intelligence agencies to underestimate ignore and even abet zealots determined to massacre Americans Even today after thousands of innocent lives have been lost the United States averts its eyes from this harsh reality

Stealth Jihad Robert Spencer, 2008-10-28 Exposes a plot by Islamic jihadists to overtake America from within through less terrorism and more stealth jihad ultimately aiming to establish Islamic law worldwide and explains what steps must be taken to preserve American culture

Jihad Joe J. M. Berger, 2011-04-30 They are Americans and they are mujahideen Hundreds of men from every imaginable background have walked away from the traditional American dream to volunteer for battle in the name of Islam Some have taken part in foreign wars that aligned with U S interests while others have carried out violence against Western interests abroad fought against the U S military and even plotted terrorist attacks on American soil This story plays out over decades and continents from the Americans who took part in the siege of Mecca in 1979 through conflicts in Lebanon Afghanistan and Bosnia and continuing today in Afghanistan and Somalia Investigative journalist J M Berger profiles numerous fighters including some who joined al Qaeda and others who chose a different path In these pages he portrays among others Abdullah Rashid who fought the Soviets in Afghanistan Mohammed Loay Bayazid who was present at the founding of al Qaeda Ismail Royer who fought in Bosnia and Kashmir then returned to run training camps in the United States Adam Gadahn a California Jew who is now al Qaeda s chief spokesman and Anwar Awlaki the Yemeni American imam with links to 9 11 who is now considered one of the biggest threats to America s security **Shadow World** Robert Chandler, 2008-08-05 THE SECRET WAR AGAINST AMERICA America is at war and the stakes are huge The fight is not just in Iraq and Afghanistan it is a global contest between the United States radical Islam a resurgent Russia and

a virulent New Left that is coming to power in Latin America and stalking the corridors of power around the world including the United States These three enemies of America are separate but they cooperate and in his stunning new book *Shadow World* Robert Chandler shows how In *Shadow World* you ll learn Why post Communist Russia is not really post Communist at all but represents an insidious new strategic threat to the United States How cultural communism has rejuvenated the radical Left s prospects around the world Why American style democracy is losing out to Castro and Hugo Chavez style communism in Latin America How radical Islam has allied itself to the New Left and why this makes radical Islam even more dangerous than before *Shadow World* reveals in a way no other book has done the new strategic realities of the post Cold War post 9 11 world Provocative insightful thorough it is essential reading for those who want to see the 21st century as America s century and not the century of her enemies

Detained Daniel Livermore, 2018-10-08 After the terrorist attacks of September 11 2001 Canadian agencies willingly collaborated in the War on Terror launched by the United States to destroy Al Qaeda This partnership went seriously astray however amid a series of fundamental errors by Canadian agencies and their misplaced trust in American willingness to abide by both international and US laws against torture As a result numerous Canadian citizens and residents were illicitly detained abroad and subjected to suffering and mistreatment In *Detained* Daniel Livermore analyzes the emergence of Islamic fundamentalist extremism and its Canadian implications including the erroneous investigations that targeted Canadians and led to their detentions in Syria Egypt Pakistan Libya Tunisia and Sudan Scrutinizing the most prominent cases he details the role of Canadian agencies in the imprisonments and relates how subsequent court cases brought the situations to light resulting in settlements and apologies to Ahmad Abou El Maati Abdullah Almalki and Maher Arar among others Drawing on his experience in Canada s foreign ministry Livermore explains how an essentially misguided War on Terror emerged and how Canadian American cooperation went wrong A gripping blend of memoir and meticulous research *Detained* urges a more mature and rational discussion of security and intelligence issues in Canada and greater understanding of the failures of security cooperation in the decade after 9 11

Western Jihadism Jytte Klausen, 2021-08-04 This book tells the story of how Al Qaeda grew in the West In forensic and compelling detail Jytte Klausen traces how Islamist revolutionaries exiled in Europe and North America in the 1990s helped create and control one of the world s most impactful terrorist movements and how after the near obliteration of the organization during the aftermath of the 9 11 attacks they helped build it again She shows how the diffusion of Islamist terrorism to Europe and North America has been driven not by local grievances of Western Muslims but by the strategic priorities of the international Salafi jihadist revolutionary movement That movement has adapted to Western repertoires of protest agitating for armed insurrection and religious revivalism in the name of a warped version of Islam The jihadists Al Qaeda and the Islamic State and their many affiliates and associates also proved to be amazingly resilient Again and again the movement recovered from major setbacks Appealing to disaffected Muslims of immigrant origin and alienated converts to

Islam Jihadist groups continue to recruit new adherents in Europe and North America street side in neighborhoods in jails and online through increasingly clandestine platforms Taking a comparative and historical approach deploying cutting edge analytical tools and drawing on her unparalleled database of up to 6 500 Western jihadist extremists and their networks Klausen has produced the most comprehensive account yet of the origins of Western jihadism and its role in the global movement The Muslim Discovery of America Frederick William Dame,2013 Some so called authorities claim that Muslims came to America hundreds of years before Columbus arrived in the New World Are the claims true Columbus expedition represents the first major discovery of the Americas and the first appearance of non Native Americans The conventional wisdom is that Columbus ended tens of thousands of years of near total isolation for the Native Americans Since the Americas had been initially populated probably between 13 000 BC and 11 000 BC there had been no engagement with peoples from any other continent save small ventures by the Norse into Northeastern Canada Did Muslims come to the Americas possibly as early as the 700s These researchers argue that Muslims came from Islamic Spain particularly the port of Delba Pelos during the rule of Caliph Abdullah Ibn Mohammed 888 912 A Muslim historian Abul Hassan Al Masudi c 895 957 added a map of the world to his book one that contained a large area in the ocean of darkness and fog the Atlantic ocean which he referred to as the unknown territory the Americas This book demonstrates that this assertion is important for Muslims because in conjunction with the relevant verses from the Koran and quotes from Mohammed it establishes the claim of Muslims that Allah intended America to be Islamic The book also investigates the lives of selected Muslims in America and organizations from the eighteenth century into the twenty first century It reveals that there was nothing more than a continuation of typical Islamic deception and subversive jihad It also documents the lie of the Islamic claim that hundreds of place names in the United States of America and Canada derive from Arabic Islamic roots Finally the book exposes the rewriting of American history by Islamic and pro Islamic media This book is alarming informative interesting and true

Oversight of the U.S. Department of Justice United States. Congress. Senate. Peacock,2009-12-30 Freedom and the Rule of Law takes a critical look at the historical beginnings of law in the United States and how that history has influenced current trends regarding law and freedom Anthony Peacock has compiled articles that examine the relationship between freedom and the rule of law in America Although this is a theme that has been a perennial one since America s founding it is also one of particular importance today and this book explains how history makes this apparent The rule of law is fundamental to all liberal constitutional regimes whose political orders recognize the equal natural rights of all and whose purpose is to protect those natural rights in addition to the general welfare The rule of law was essential to achieving both of these ends and to reconciling them where necessary But just how free is America today It was certainly within the contemplation of the Founders that the federal judiciary would have a significant role in interpreting the Constitution federal laws and treaties but it would be difficult to argue that those who framed and ratified the Constitution contemplated a role for the courts particularly for the United States Supreme Court of the magnitude they have today The writers take the reader far back into history to the very roots of American Law by examining the English common law roots that provided the foundation for the rule of law in America This book explores these phenomena and other recent developments in American freedom through history *The Control Factor* Bill Siegel,2012-01-12 The control factor explores the psychological maneuvers fantasies and entanglements we engage in to avoid clearly seeing the Islamic threat that confronts us The prerequisite for developing necessary strategies to ensure our survival is taking responsibility for our perceptions and actions and holding our enemy responsible for theirs p 4 of cover Debating Terrorism and Counterterrorism Stuart Gottlieb,2013-04-02 Debate is an important part of the classroom experience However most debate style readers do a disservice to students by selecting readings from disparate sources that end up talking past one another As a part of the Debating Politics series from CQ Press this reader is different Featuring paired pro con pieces written specifically for this volume Debating Terrorism encourages students to actively grapple with the central debates and questions surrounding the subject of terrorism and counterterrorism With topics ranging from the root causes of terrorism the role of religion in terrorism whether suicide terrorism is ever justified whether the spread of democracy can help defeat terrorism and what trade offs if any should exist between security and civil liberties Gottlieb s outstanding cast of

contributors returns in this edition compelling students to wrestle with the conflicting perspectives that define the field

Gottlieb frames the complexity and sophistication of these issues with incisive chapter headnotes providing students with the requisite context and preparing them to read each argument critically allowing them to understand the past present and future of terrorism and counterterrorism Each of the selections has been thoroughly updated to account for recent world events policy changes and new scholarship New to the reader and by reviewer request is a chapter Can Global Institutions Make a Difference in Fighting Terrorism

The Link Louis Fairmont, 2008-12-04 This book provides new evidence that there was a direct operational link between Saddam Hussein and al Qaida The Link is primarily sourced from the Pentagon Report on Saddam that was released March 2008 The Pentagon report includes some of the actual sourced Iraqi documents memos and transcripts retrieved by the U S Military during Operation Iraqi Freedom The Link provides new evidence regarding Saddam and al Qaida were working together since 1990 al Qaida was located in Iraq since 1995 Saddam in his own words says he gave the order for the 1993 World Trade Center attack An Iraqi agent met with a 9 11 hijacker prior to the 9 11 attack WMDs were in Iraq up until Operation Iraqi Freedom Read the truth that has been suppressed until now This release is a paperback sized 6 x 9 and is sized for distribution on Amazon

Spring Fever Andrew C McCarthy, 2012-09-18 The first fundamental truth about the Arab Spring is that there never was one The salient fact of the Middle East the only one is Islam The Islam that shapes the Middle East inculcates in Muslims the self perception that they are members of a civilization implacably hostile to the West The United States is a competitor to be overcome not the herald of a culture to be embraced Is this self perception based on objective truth Does it reflect an accurate construction of Islam It is over these questions that American officials and Western intellectuals obsess Yet the questions are irrelevant This is not a

matter of right or wrong of some posture or policy whose subtle tweaking or outright reversal would change the facts on the ground This is simply starkly the way it is Every human heart does not yearn for freedom In the Islam of the Middle East freedom means something very nearly the opposite of what the concept connotes to Westerners it is the freedom that lies in total submission to Allah and His law That law sharia is diametrically opposed to core components of freedom as understood in the West beginning with the very idea that man is free to make law for himself irrespective of what Allah has ordained It is thus delusional to believe as the West's Arab Spring fable insists that the region teems with Jamal al Madisons holding aloft the lamp of liberty Do such revolutionary reformers exist Of course they do but in numbers barely enough to weave a fictional cover story When push came to shove and worse the reformers were overwhelmed swept away by a tide of Islamic supremacism the dynamic consequential mass movement that beckons endless winter That is the real story of the Arab Spring that and the Pandora's Box that opens when an American administration aligns with that movement whose stated goal is to destroy America

Confronting Terror Dean Reuter, John Yoo, 2011 Presents new essays dealing with the September 2001 terror attacks and the subsequent anti terror laws and policies featuring authors with a wide variety of viewpoints on the matter

Terrorism Joseba Zulaika, 2009-12-15 In counterterrorism circles the standard response to questions about the possibility of future attacks is the terse one liner Not if but when This mantra supposedly conveys a realistic approach to the problem but as Joseba Zulaika argues in Terrorism it functions as a self fulfilling prophecy By distorting reality to fit their own worldview the architects of the War on Terror prompt the behavior they seek to prevent a twisted logic that has already played out horrifically in Iraq In short Zulaika contends counterterrorism has become pivotal in promoting terrorism Exploring the blind spots of counterterrorist doctrine Zulaika takes readers on a remarkable intellectual journey He contrasts the psychological insight of Truman Capote's In Cold Blood with The 9 11 Commission Report plumbs the mindset of terrorists in works by Orianna Fallaci and Jean Genet maps the continuities between the cold war and the fight against terrorism and analyzes the case of a Basque terrorist who tried to return to civilian life Zulaika's argument is powerful inventive and rich with insights and ideas that provide a new and sophisticated perspective on the War on Terror

American Spies Michael J. Sulick, 2020-09-01 American Spies presents the stunning histories of more than forty Americans who spied against their country during the past six decades offering insight into America's vulnerability to espionage along the way Now available in paperback with a new preface that brings the conversation up to the present American Spies is as relevant as ever

Islam William Russell, 2017-03-24 Civilization Suffers Where Islam Rules When the terrible events of 9 11 struck New York City I was astonished that there were such a large number of people in the Islamic countries of the Middle East who hate us who danced in the streets and burned our flag shouting Death to America when they heard the tragic news The fact that our sovereign country was invaded property destroyed and thousands of innocent Americans were murdered by this sneak attack this act of war stirred me to find out who did it and why When we learned

that 11 university educated Muslim men 4 with PHD S performed this evil act simply because their God Allah the God of Islam told them to do it was disturbing enough but when further study revealed the fundamental objective of these Muslim fanatics is to take over the world with their philosophies energized me to learn more about Islam and write this book
