Wordsworth's Monastic Inheritance Jessica Fay,2018-05-03 This is the first extended study of Wordsworth s complex subtle and often conflicted engagement with the material and cultural legacies of monasticism It reveals that a set of topographical antiquarian and ecclesiastical sources consulted by Wordsworth between 1806 and 1822 provided extensive details of the routines structures landscapes and architecture of the medieval monastic system In addition to offering a new way of thinking about religious dimensions of Wordsworth s work and his views on Roman Catholicism the book offers original insights into a range of important issues in his poetry and prose including the historical resonances of the landscape local attachment and memorialization gardening and cultivation Quakerism and silence solitude and community pastoral retreat and national identity Wordsworth s interest in monastic history helps explain significant stylistic developments in his writing In this often neglected phase of his career Wordsworth undertakes a series of generic experiments in order to craft poems capable of reformulating and refining taste he adapts popular narrative forms and challenges pastoral conventions creating difficult austere poetry that he hopes will

encourage contemplation and subdue readers appetites for exciting narrative action This book thus argues for the significance and innovative qualities of some of Wordsworth s most marginalized writings It grants poems such as The White Doe of Rylstone The Excursion and Ecclesiastical Sketches the centrality Wordsworth believed they deserved and reveals how Wordsworth s engagement with the monastic history of his local region inflected his radical strategies for the creation of taste

Churchyard Poetics James Metcalf,2025-01-12 The familiar literary critical category of graveyard poetry has made the eighteenth century churchyard a commonplace in the period s cultural imaginary a location in which melancholy religious poets get lost in imaginative reveries or didactic visions of the afterlife By contrast Churchyard Poetics Landscape Labour and the Legacy of Genre shows how the churchyard takes on a new shape and a fresh importance for a counter tradition of women and labouring class poets for whom this landscape is a resting place with no closure In work by Mary Leapor Ann Yearsley Charlotte Smith and John Clare but also for Robert Blair Thomas Gray and William Wordsworth the churchyard emerges as a contested space of social life through a shared focus on the body as the instrument of labour Churchyard Poetics focuses on how these poets use genres like georgic pastoral topographical poetry and elegy to locate the churchyard in a broader terrain of laborious life disarranged in the press towards industrial capitalism Managing the material of their violently reordered world through genre and other aesthetic strategies these poets articulate the pressures on working bodies and the associated structures of feeling attendant on the experience of history at its sharpest edge The poems examined in Churchyard Poetics thus strain against without resolving the ideal the churchyard is made to express that collective life is reassuringly organised around places of burial and remembrance Declining continuity or consolation the poets at the centre of this book refigure the churchyard as a traumatised landscape and unearth from its wounded ground an

affective archive of social injury of bodies compelled into service by new regimes of labour and dispatched to the churchyard when their usefulness runs out **Critical Terms for Literary Study** Frank Lentricchia, Thomas McLaughlin, 2010-05-15

William Wordsworth John Williams, 2017-03-14. From the earliest reviews of his poetry readers were deeply divided on the merits of William Wordsworth's work. John Williams looks in detail at the major poems and discusses the critical issues that have dominated discussions of Wordsworth's compositions since they first began to appear in print after 1798. Beginning with a fresh assessment of the controversies that developed around *Lyrical Ballads* the chapters trace the evolution of both Wordsworth's poetry and his reputation through to his death in 1850. At each stage Williams investigates the possible reasons

why critics and readers responded as they did enraged by his revolutionary Jacobinism at the turn of the eighteenth century insulted by the simplicity of the Poems in Two Volumes of 1807 reassured by his commitment to Nature and his reverence for Church and State in the early Victorian period In the twentieth century Wordsworth has been subjected to a series of extensive critical reappraisals With reference to a wide range of the poetry Williams goes on to discuss the way Wordsworth has been variously reconstructed as a consequence of the main critical and theoretical initiatives of the last one hundred years He also examines the Wordsworth we have inherited for the twenty first century a poet many still feel has important things to say to the contemporary reader about human relationships nature the environment and our imaginative life

Wordsworth in Context Pauline Fletcher, John Murphy, 1992 Essays by several contributors represent a marriage between traditional textual scholarship and issues raised by contemporary theory and criticism Jonathan Wordsworth discusses the making and remaking of *The Prelude* along with other examples of the long poem in English he emphasizes the shifting nature of both the text and the self and questions traditional assumptions about authorial intention and the possibility of producing authoritative texts Pamela Woof brings an awareness of recent developments in feminist theory and gender studies to bear on her exploration of the role of Dorothy Wordsworth in the engendering of her brother's poetry while Jared Curtis uses close textual analysis of a poem that was originally drafted by William revised by Dorothy and published by Coleridge to raise issues of intertextuality and collective authorship Such accommodation between traditional scholarship and contemporary trends is by no means universal and the present volume closes with Helen Vendler's fierce attack on the New Historicism which she sees as hostile to the lyric impulse Academic revolutions as we know can generate violent debate but such debate should surely be welcomed as a guarantee of the continuing vitality of the discipline **BOOK JACKET**
