Scott Hahn, Jeffrey L. Morrow

Winckelmann And The Vatican's First Profane Museum:

Winckelmann and the Vatican's First Profane Museum L. Ruprecht, 2011-11-08 Offers the first ever historical descriptions of the foundation of the Museo Profano inside the Vatican in 1761 Using the palace records from the Vatican's Secret Archives Ruprecht demonstrates that the Vatican museum was the brainchild of J J Winckelmann the so called father of Art History

Quatremère de Quincy's Moral Considerations on the Place and Purpose of Works of Art, 2021-07-19 Antoine Chrysostome Quatremère de Quincy 1755-1849 was the most important Neoclassical art historian in the generation after Johann Joachim Winckelmann 1717-1768 It is difficult now to appreciate his importance due in part to the lack of translations of his 21 published books three were rendered into English in the 19th century and one in the 21st The Moral Considerations has long been considered the most shattering polemic against public museums ever written But I will show that Quatremère's polemic was aimed not against museums per se but rather against the imperialist and secularist curatorial purposes of Parisian museums in the age of Revolution His Neoclassical commitments maintained the centrality of religion and of incarnation to any proper understanding of the place and purpose of the fine arts

Kinaesthesia and Classical Antiquity 1750-1820 Helen Slaney, 2020-09-03 This book argues that touch and movement played a significant role long overlooked in generating perceptions of ancient material culture in the late 18th century At this time the reception of classical antiquity had been transformed Interactions with material culture ruins sculpture and artefacts formed the core of this transformation Some such interactions were proto archaeological such as the Dilettanti expeditions to Athens and Asia Minor others were touristic seen in the guidebooks consulted by travellers to Rome and the diaries they composed and others creative resulting in novels poetry and dance performances Some involved the reproduction of experience in a gallery or museum setting What all encounters with ancient material culture had in common however is their haptic sensory basis The sense typically associated with the Enlightenment is vision but this has obscured the equally important contribution made by touch and movement to the way in which a newly materialised Graeco Roman world was perceived Kinaesthesia or the sense of self movement is rarely recognised in its own right but because all encounters with sites and objects are embodied and all embodiment takes place in motion this sense is vital to forming more abstract or imaginative impressions Theories of embodied cognition propose that all intellectual processes are also physical This book shows how ideas about classical antiquity in the volatile milieu of the late 18th century developed as a result of diverse kinaesthetic relationships

Modern Biblical Criticism as a Tool of Statecraft (1700-1900) Scott Hahn, Jeffrey L. Morrow, 2020-04-27 Modern biblical scholarship is often presented as analogous to the hard and natural sciences its histories present the developmental stages as quasi scientific discoveries That image of Bible scholars as neutral scientists in pursuit of truth has persisted for too long Modern Biblical Criticism as a Tool of Statecraft 1700-1900 by Scott W Hahn and Jeffrey L Morrow examines the lesser known history of the development of modern biblical scholarship in the eighteenth and nineteenth centuries This volume seeks partially to

fulfill Pope Benedict XVI's request for a thorough critique of modern biblical criticism by exploring the eighteenth and nineteenth century roots of modern biblical scholarship situating those scholarly developments in their historical philosophical theological and political contexts Picking up where Scott W Hahn and Benjamin Wiker's *Politicizing the Bible: The Roots of Historical Criticism and the Secularization of Scripture* 1300-1700 left off Hahn and Morrow show how biblical scholarship continued along a secularizing trajectory as it found a home in the newly developing Enlightenment universities where it received government funding *Modern Biblical Criticism as a Tool of Statecraft* 1700-1900 makes clear why the discipline of modern biblical studies is often so hostile to religious and faith commitments today

Religious Convergence in the Ancient Mediterranean Sandra Blakely, Billie Jean Collins, 2019-12-15 This volume brings together scholars in religion archaeology philology and history to explore case studies and theoretical models of converging religions The twenty four essays offered in this volume which derive from Hittite Cilician Lydian Phoenician Greek and Roman cultural settings focus on encounters at the boundaries of cultures landscapes chronologies social class and status the imaginary and the materially operative Broad patterns ultimately emerge that reach across these boundaries and suggest the state of the question on the study of convergence and the potential fruitfulness for comparative and interdisciplinary studies as models continue to evolve

The Allure of Sports in Western Culture John Zilcosky, Marlo A. Burks, 2019-09-10 Whether it is our love of chance and vicarious thrill our need to release anxiety and aggression or our appreciation of the arc traced by a ball at a crucial moment sports draw us in *The Allure of Sports in Western Culture* contributes to contemporary debates about the attraction of sports in the West by providing a historical grounding as well as theoretical perspectives and contextualization Bringing together the work of literary theorists historians and athletes the volume's dual emphasis allows us to better understand the historical and ideological reasons for the changing nature of sports allure from Ancient Greece and Rome to the modern Olympics The findings show that allure is shaped by larger forces such as poverty wealth and status changing moral standards and political and cultural indoctrination On the other hand personal and psychological factors play an equally important if less tangible role our love for scandal the seduction of deception and violence and the physiological intoxication of watching and participating in sports keep us hooked At the heart of the volume lies the tension between our love of sport and our knowledge of its only barely hidden cruelty exploitation and manipulation

Report on the Aeginetan Sculptures Johann Martin Wagner, 2017-04-24 Tells the story of Bavaria's acquisition of ancient Greek sculptures that rivaled those acquired by England from the Parthenon The controversial removal of the Parthenon sculptures from Greece to England in the first decade of the nineteenth century by Thomas Bruce seventh Earl of Elgin sparked an international competition for classical antiquities This volume tells a lesser known chapter of that story concerning sculptures from the Temple of Aphaia on the Greek island of Aegina Discovered in 1811 as the Parthenon project was nearing its completion these ancient sculptures were acquired at auction by Johann Martin Wagner 1777-1858 on behalf of Crown

Prince Ludwig of Bavaria The sculptures turned out to be significant in a number of ways offering important evidence for a transitional period of Greek art between the archaic and classical eras for the existence of an independent Aeginetan school that was the equal of Athenian art at the time and for Greek sculptures having been elaborately painted and adorned Originally published in 1817 and presented here for the first time in English this book reproduces the report commissioned by the crown prince that was written by Wagner and edited by F W J Schelling and contained richly detailed descriptions of the sculptures In addition Louis A Ruprecht Jr provides a comprehensive historical introduction featuring a constellation of intellectual figures an afterword notes appendices and more than forty images to tell the fascinating story of the sculptures and their legacy from excavation to the present day *Religion and the Arts: History and Method* Diane

Apostolos-Cappadona,2017-11-06 In *Religion and the Arts History and Method* Diane Apostolos Cappadona presents an overview of the 19th century origins of this discrete field of study and its methodological journey to the present day through issues of repatriation museum exhibitions and globalization Apostolos Cappadona suggests that the fluidity and flexibility of the study of religion and the arts has expanded like an umbrella since the 1970s and the understanding that art was simply a visual exegesis of texts to now support the study of material popular and visual culture as well as gender She also delivers a careful analysis of the evolution of thought from traditional iconographies to the transformations once scholars were influenced by response theory and challenged by globalization and technology *Religion and the Arts History and Method* offers an indispensable introduction to the questions and perspectives essential to the study of this field **Religion and**

Realism Davor Džalto,2016-05-11 This volume revisits the concepts of reality and realism with regard to their relation to religion and the religious real Religion remains one of the most significant social forces and cultural constituencies and it can even be said that religion and religious truths are becoming increasingly important in these so called post secular times when the sphere of the secular social political and the sphere of the religious have to be reconsidered The relevancy of religious truths and the way they structure our understanding of reality overcomes the sphere of theology and particular religious practices Religion truth and reality and the way these concepts are approached and understood continue to be vital for a broader cultural discourse as well from philosophy and science to politics mass media and show business The book presents ten essays that offer methodologically diverse and intellectually challenging analyses of various aspects of the topics of Religion and Realism The essays are based on papers presented at the international conference on Religion and Realism which took place at the American University of Rome in 2014 *The Routledge Handbook of Research Methods in the Study*

of Religion Steven Engler,Michael Stausberg,2013-06-17 This is the first comprehensive survey in English of research methods in the field of religious studies It is designed to enable non specialists and students at upper undergraduate and graduate levels to understand the variety of research methods used in the field The aim is to create awareness of the relevant methods currently available and to stimulate an active interest in exploring unfamiliar methods encouraging their use in

research and enabling students and scholars to evaluate academic work with reference to methodological issues A distinguished team of contributors cover a broad spectrum of topics from research ethics hermeneutics and interviewing to Internet research and video analysis Each chapter covers practical issues and challenges the theoretical basis of the respective method and the way it has been used in religious studies illustrated by case studies **Ludics** Vassiliki Rapti, Eric Gordon, 2021-01-11 This book establishes play as a mode of humanistic inquiry with a profound effect on art culture and society Play is treated as a dynamic and relational modality where relationships of all kinds are forged and inquisitive interdisciplinary engagement is embraced Play cultivates reflection connection and creativity offering new epistemological directions for the humanities With examples from a range of disciplines including poetry history science religion and media this book treats play as an object of inquiry but also as a mode of inquiry The chapters each focusing on a specific cultural phenomenon do not simply put culture on display they put culture in play providing a playful lens through which to see the world The reader is encouraged to read the chapters in this book out of order allowing constructive collision between ideas moments in history and theoretical perspectives The act of reading this book like the project of the humanities itself should be emergent generative and playful Reach without Grasping Louis A. Ruprecht Jr., 2021-11-17 Anne Carson b June 21 1950 in Toronto Canada is one of the most versatile of contemporary classicists poets and translators in the English language In *Reach without Grasping* Louis A Ruprecht Jr explores the role played by generic transgressions on the one hand and by embodied spirituality on the other throughout Carson s ambitious literary career Where others see classical dichotomies soul versus body classical versus Christian Carson sees connection Like Nietzsche before her Carson decries the images of the Classics as merely bookish and of classicists as disembodied intellects She has brought religious bodily erotics back into the heart of the classical tradition **Rethinking Islamic Studies** Carl W. Ernst, Richard C. Martin, 2012-11-27 A groundbreaking response to the challenges of interpreting Islamic religion in the post 9 11 and post Orientalist era *Rethinking Islamic Studies* upends scholarly roadblocks in post Orientalist discourse within contemporary Islamic studies and carves fresh inroads toward a robust new understanding of the discipline one that includes religious studies and other politically infused fields of inquiry Editors Carl W Ernst and Richard C Martin along with a distinguished group of scholars map the trajectory of the study of Islam and offer innovative approaches to the theoretical and methodological frameworks that have traditionally dominated the field In the volume s first section the contributors reexamine the underlying notions of modernity in the East and West and allow for the possibility of multiple and incongruent modernities This opens a discussion of fundamentalism as a manifestation of the tensions of modernity in Muslim cultures The second section addresses the volatile character of Islamic religious identity as expressed in religious and political movements at national and local levels In the third section contributors focus on Muslim communities in Asia and examine the formation of religious models and concepts as they appear in this region This study concludes with an afterword by accomplished Islamic studies scholar Bruce

B Lawrence reflecting on the evolution of this post Orientalist approach to Islam and placing the volume within existing and emerging scholarship Rethinking Islamic Studies offers original perspectives for the discipline each utilizing the tools of modern academic inquiry to help illuminate contemporary incarnations of Islam for a growing audience of those invested in a sharper understanding of the Muslim world **Studies in the Literary Imagination** ,2015 Winckelmann-Handbuch Martin Disselkamp,Fausto Testa,2017-08-02 Das Handbuch pr sentiert Leben und Werk Johann Joachim Winckelmanns auf dem Stand der aktuellen internationalen Forschung und er ffnet weiterf hrende Perspektiven Im Mittelpunkt stehen die Schriften des Arch ologen und Kunstkenners die in allen Teilbereichen und Aspekten dargestellt werden Zugleich wird Winckelmann als Figur und mit seinem Werk im deutschen und europ ischen Kontext verortet Die Rezeption in Literatur bildenden K nsten und Altertumswissenschaft bildet einen weiteren Schwerpunkt des Handbuchs das durch Abbildungen Bibliographien und Register abgerundet wird **The Vatican Collections** Art Institute of Chicago,Fine Arts Museums of San Francisco,1982 Nearly three hundred illustrations and a text reveal the entire range of the Vatican s artistic holdings replete with priceless masterworks from all periods **Guida ai musei e alla Città del Vaticano.
