Hennessy, 2019-09-05 Following *Never Again* and *Having It So Good* the third part of Peter Hennessy's celebrated Post War Trilogy By far the best study of early Sixties Britain so much fun yet still shrewd and important The Times Books of the Year Harold Macmillan famously said in 1960 that the wind of change was blowing over Africa and the remaining British Empire But it was blowing over Britain too its society its relationship with Europe its nuclear and defence policy And where it was not blowing hard enough the United Kingdom's economy great efforts were made to sweep away the cobwebs of old industrial practices and poor labour relations Life was lived in the knowledge that it could end in a single afternoon of thermonuclear exchange if the uneasy armed peace of the Cold War tipped into a Third World War In *Winds of Change* we see Macmillan gradually working out his grand design how to be part of both a tight transatlantic alliance and Europe dealing with his fellow geostrategists Kennedy and de Gaulle The centre of the book is 1963 the year of the Profumo Crisis the Great Train Robbery the satire boom de Gaulle's veto of Britain's first application to join the EEC the fall of Macmillan and the unexpected succession to the premiership of Alec Douglas Home Then in 1964 the battle of what Hennessy calls the tweedy aristocrat and the tweedy meritocrat Harold Wilson who would end 13 years of Conservative rule and usher in a new era As in his acclaimed histories of British life in the two previous decades *Never Again* and *Having it so Good* Peter Hennessy explains the political economic cultural and social aspects of a nation with inimitable wit and empathy No historian knows the by ways as well the highways of the archives so well and no one conveys the flavour of the period so engagingly The early sixties live again in these pages **The Wind of Change** Eudora Aletta, 2015-07-31

a human and Australian story written in four distinct parts and tied together with the thread of the author's life. It speaks for migrants who are driven by upheavals and rapid change, youth adventure and a desire to succeed; it is for those who arrive with hope and the countries that give them the chance of a better life. The essence is in the characters and the places and the power is in the interaction of multiple disciplines. It tells of invention of research and development and of a device that saved lives, spared thousands the pain and suffering of major operations and funded facilities and teaching. The feelings of the author are expressed in anecdotes with emotion, stark reality, tragedies, humor, failures and achievement. Starting with Kenya and safaris in East Africa, the story moves on to migration, Australian culture in the sixties and then medicine and invention in surgery. It involves peoples with multiple skills in different settings. Perceptions of training of surgeons have fired public curiosity and this story is from the inside of medical school and ultimately about what makes a surgeon. The twentieth century saw unrivaled changes in technology, politics and human relations, the collapse of the British Empire and the dispersal of its colonials. This is the story of a colonial boy who was one of many who traveled like feathers on the wind of change that blew across Africa. The author was honored with the Award Officer of Australia AO for leading a team in research and development in vascular and endovascular surgery. The story is for the unsung, diverse group of special individuals who made it possible. They convinced establishments, hurdled passionate special interest groups, negotiated institutional politics and precipitated government actions to address new concepts.

Winds of Change J. Pelletier, 2010-08-31. I could blame all this on my grandmother. She's the one who sent me to this place without even a word to warn that I would wake up in the middle of an arid plain with the sun literally cooking every inch of exposed skin. Because of her, I was chosen to succeed the current chieftain of one of the four ruling Cities of the plainspeople who inhabit this parched world. A decision that has resulted in a war I have no hope of surviving. I might be able to negotiate a surrender before the

allied territories raze my City to the ground But what kind of choice is that A surrender would mean my execution and I am definitely not ready to die **Wind Of Change In The Air - Can't You Feel It? , The Winds of Change** Gail
