David Myhra PhD

Wings Of Wood Wings Of Metal:

Wings of Wood, Wings of Metal Eric Schatzberg, 1999 Schatzberg shows that American aeronautical engineers and airplane designers were swayed by the symbolism of airplane materials a symbolism that linked metal with technological progress and wood with preindustrial craft traditions This symbolism encouraged the aeronautical community to focus research and development on metal airplanes at the expense of promising projects involving wood despite the fact that other countries continued to produce highly successful aircraft with wood through the end of World War II According to Schatzberg technical personnel in the American military played the key role in this process They had little evidence for metal s superiority but used their dominant influence to press the case that metal was the wave of the future and that airplanes would inevitably follow ships and abandon wood Conversations With Dr Reimar Horten and His All-Wing Designs-Ho 1 to Ho 229 Part 2 David Myhra PhD, 2013-09-27 In February of 1982 I flew to Buenos Aires then on to Cordoba Argentina to meet with Dr Reimar Horten 1915 1994 the designer of a series of sail and powered all wing flying machines He lived in retirement on a ranch 15 to 20 miles from the small town of Villa General Belgrano After an over night flight from Miami Florida I arrived at the Cordoba Reimar Horten with a full head of white hair met me and we drove off to his ranch in a white Ford pickup truck Reimar had total recall I have met only two such people in my life We spoke only in English and our conversations were recorded on cassette tapes which several years later I donated to the National Air Space Museum library After several days of speaking only English Reimar was speaking English to everyone his wife helpers on his ranch shop keepers in Villa General Belgano and families he d meet walking on the road into town when he offered them a ride in the back of his truck Few English speaking people ever visited this remote area of Argentina at the foot hills of Andes Mountains His wife Gisela frequently had to remind her husband that all these Argentines had no idea of what he was saying to them so please speak Spanish I lived at the Horten ranch for one month recording my conversation with Reimar Horten I returned the following year 1983 for another month Our two month conversation resulted in 86 two hour taped cassettes The material presented in this volume a second volume contains conversations with Walter Horten over numerous visits to his home in Baden Baden West Germany has been used in my five copyrighted books on the Horten Brothers I thank them immensely and now the world hears their voice their personal struggles failures as well as their successes in seeking to perfect the performances of the all wing aircraft Sweet's Architectural Catalog File ,1918 **The Engineering Index** ,1929
