History in the Age of Abundance? Ian Milligan, 2019-03-28 Believe it or not the 1990s are history As historians turn to study this period and beyond they will encounter a historical record that is radically different from what has ever existed before Old websites social media blogs photographs and videos are all part of the massive quantities of digital information that technologists librarians archivists and organizations such as the Internet Archive have been collecting for the past three decades In History in the Age of Abundance Ian Milligan argues that web based historical sources and their archives present extraordinary opportunities as well as daunting technical and ethical challenges for historians Through case studies he outlines the approaches methods tools and search functions that can help a historian turn web documents into historical sources He also considers the implications of the size and scale of digital sources which amount to more information than historians have ever had at their fingertips and many of which are by and about people who have traditionally been absent from the historical record Scrutinizing the concept of the web and the mechanics of its archives Milligan explains how these new media challenge reshape and enrich both the historical profession and the historical record A wake up call for historians of the twenty first century History in the Age of Abundance is an essential introduction to the way web archives work what possibilities they open up what risks they entail and what the shift to digital information means for historians their professional training and organization and society as a whole
